

When Food Sours

Lots of folks who think they have "indigestion" have only an acid condition which could be corrected in five or ten minutes. An effective anti-acid like Phillips Milk of Magnesia soon restores digestion to normal.

Phillips does away with all that sourness and gas right after meals. It prevents the distress so apt to occur two hours after eating. What a pleasant preparation to take! And how good it is for the system! Unlike a burning dose of soda—which is but temporary relief at best—Phillips Milk of Magnesia neutralizes many times its volume in acid.

Next time a hearty meal, or too rich a diet has brought on the least discomfort, try—

PHILLIPS Milk of Magnesia

She'd Die Laughing

Beatrice—Yes, and the little thing he says tickles her so.

Millicent—Goodness, gracious! Say, suppose he should kiss her, my dear!

You can know people so long that their "company disposition" wears off.

HAD TO WORK TOO HARD

Lydia E. Pinkham's Vegetable Compound Gave Her Strength

Mt. Carmel, Pa.—"After my second baby was born I had to work too hard and be on my feet too soon because my husband was ill. After his death I was in such a weakened and run-down condition that nothing seemed to help me. I am starting the fourth bottle of Lydia E. Pinkham's Vegetable Compound and feel a great deal better. I am much stronger and don't get so tired out when I wash or work hard. I do housekeeping and dressmaking and I highly recommend the Vegetable Compound as a tonic. I am willing to answer any letters I receive asking about it."—Mrs. Gertrude Butts, 414 S. Market, Mt. Carmel, Pa.

Nicotine and Soap Best
There are many ingredients used in contact insecticides but nothing better than a combination of nicotine sulphate and soap has been devised says Nature Magazine. Nicotine sulphate may be purchased from florists and seed houses and is used at the rate of one teaspoonful to a gallon of water together with one ounce of laundry soap or fish oil soap. Various nicotine dusts are also available.

Denver Boy is a Winner

Every mother realizes how important it is to teach children good habits of conduct but many of them fail to realize the importance of teaching their children good bowel habits until the poisons from decaying waste held too long in the system have begun to affect the child's health.

Watch your child and at the first sign of constipation, give him a little California Fig Syrup. Children love its rich, fruity taste and it quickly drives away those distressing ailments, such as headaches, bad breath, coated tongue, biliousness, feverishness, fretfulness, etc. It gives them a hearty appetite, regulates their stomach and bowels and gives tone and strength to these organs so they continue to act normally, of their own accord. For over fifty years, leading physicians have prescribed it for half-sick, bilious, constipated children. More than 4 million bottles used a year shows how mothers depend on it.

Mrs. C. G. Wilcox, 3855 1/2 Wolff St., Denver, Colorado, says: "My son, Jackie, is a prize winner for health now, but we had a lot of trouble with him before we found his trouble was constipation and began giving him California Fig Syrup. It fixed him up quick, gave him a good appetite, made him sleep fine and he's been gaining in weight right along since the first few days, taking it."

To avoid inferior imitations of California Fig Syrup, always look for the word "California" on the carton.

SHOE POLISH

As Pulitzer Sized Up His Readers' Interest

Bayard Swope, the brilliant journalist, told at a luncheon at the Manhattan club a number of stories about the journalistic genius of Joseph Pulitzer.

"Once there was a big championship golf tournament to be played," he said. "This was years ago, before Mr. Pulitzer went blind, and golf was in its infancy in America.

"Well, Mr. Pulitzer sent for his dozen best reporters and special writers, and, lining them up before him, he said:

"Those who understand golf stand on the left; those who are ignorant of it, on the right."

"The stars separated themselves accordingly. All understood golf but three—three very excellent writers.

"You three chaps will cover the tournament," said Mr. Pulitzer, with his nervous smile. "I want all our readers to enjoy our story of this event, and since most of them are ignorant of golf, what interests you three will be sure to interest them."

Hen Paid for Trip

A story of a hen that laid an egg while flying a mile in the air sounds like nature faking, but one at Mays Landing, N. J., did it, although it cannot be said that it flew on its own wings. Instead of that the hen was sitting in a basket carried in an airplane. The hen belongs to young Jack Bragan, to whom was given the opportunity to make a flight. He wanted to take his hen along and it went in a basket and soon a fresh-laid white egg was found in the improvised nest. The boy was more pleased with the record egg-laying than he was with his first ride in an airplane.

This Fast Age

Dr. Eli Moschowitz, an eminent New York scientist, writing in the Journal of the American Medical Association, declares that most of us live two lives now as compared with those of an earlier generation. "A man who attains the age of fifty today," he says, "has in reality lived one hundred years, as years were formerly reckoned; and judging by the deluge of inventions aimed at even swifter methods of accomplishment, the prospect of the individual of the future is that he will be an old man in experience before his adolescence has begun."

Some Fine Forest Land

The outstanding forest in New England is the White Mountain National forest. During 17 years, since 1911, the federal government has purchased forest land in the White mountains. It has acquired now 514,000 acres, or 803 square miles. Much of it is in virgin forest, says Nature Magazine. There are 61,000 acres in which an ax was never used.

Spruce Best for Rayon

The spruce of northern Canada is considered the most suitable raw material for the manufacture of rayon by the viscose process. Cellulose in the form of sulphite pulp, derived from this wood, is now being shipped from Canada to all parts of the world for the manufacture of artificial silk.

Prodigies

Mother—Why are you and little sister doing all that chattering at each other?
Johnny—We're playing talking movies, mamma!

Rara Avis

Blinks—Bill is a fine fellow, isn't he?
Jinks—Say, that bird can lend you money and still remain your friend.

Scandinavian Mythology

The Edda is the book of the mythological lore of Scandinavia by Snorri Sturluson in the Thirteenth century.

If you wish beautiful clear white clothes, use Russ Ball Blue. Large package at Grocers.—Adv.

The happy people you envy just seem that way because they haven't time to feel sorry for themselves.

With good health and a good opinion of oneself, one can face much.

The Right Way to Redye Fine Silks

Textile makers always use special dyes for silk or wool. They know that is the best way. The makers of Diamond Dyes are the first to enable home dyers to follow this plan.

Next time you want to dye some of your more valuable articles of silk or wool, try the special Diamond Dyes in the Blue Package. They will give these materials clearer, more brilliant colors than any "all-purpose" dye. And they are just as easy to use as ordinary dyes. Like the white package Diamond Dyes, these dyes contain an abundance of the highest quality anilines. The blue package dyes silk or wool only; the white package dyes, or tints, any material. Either package; 15c, drugstores.

For External Use Only
Hanford's Balsam of Myrrh
Money back for first bottle if not suited. All Dealers.

Expatriates Still Pensioned

If a soldier is receiving a pension, removal to a foreign country would not deprive him of it. During the World War the pensions of many Civil War veterans living in Germany were cut off, but this was owing to lack of communication between the two countries. After the war all these veterans received their back pension money.—Pathfinder Magazine.

Areas Reserved for Birds
Forty bird sanctuaries have been reserved in Canada by the department of the interior under the migratory birds convention act, which is the federal law for the protection of migratory birds. There are also fifty-one public shooting grounds reserved by the Dominion government in western Canada. Shooting is allowed on these latter areas in the open season.

Out
The dog trainer needed an assistant in a hurry and it was suggested that the lion tamer might loan him one. But the lion tamer declared there was no chance.
"My boy," said he, "is afraid of dogs."—Louisville Courier Journal.
