

ONLY A DOCTOR KNOWS
WHAT A LAXATIVE
SHOULD BE

Danger lies in careless selection of laxatives! By taking the first thing that comes to mind when bad breath, headaches, dizziness, nausea, biliousness, gas on stomach and bowels, lack of appetite or energy warns of constipation, you risk forming the laxative habit.

Depend on a doctor's judgment in choosing your laxative. Here's one made from the prescription of a specialist in bowel and stomach disorders. Its originator tried it in thousands of cases; found it safe for women, children and old folks; thoroughly effective for the most robust man. Today, Dr. Caldwell's Syrup Pepsin, as it is called, is the world's most popular laxative. It is composed of fresh herbs and other pure ingredients. You can get it, in generous bottles and ready for use, at any drugstore.

Arctic Region Rival of Ivory Coast of Africa

The Ivory coast of Africa has a substitute in the Arctic coast and islands of Bering sea. The schooner Boxer, arriving recently brought nearly 10,000 worth of fossil tusks of ancient mastodons, walrus and sea elephants collected during the past year by Eskimos.

Large quantities of walrus tusks ages old, but of excellent quality were dug out of the Pribilof islands by Aleut Indians, several tons of mastodon ivory came from St. Lawrence Island and a large shipment from King Island. The small colony on Wrangell Island has collected a large quantity of mastodon ivory which will be picked up by Arctic trading ships and brought to Puget sound markets. On some islands ivory is mined.

The buried supply represents the kitchen dumps of age-old civilization which used walrus for food. There was no value attached to the tusks and they were cast aside. Now they are sought for the hundreds of uses ivory is put to over the world.

Crowd to Lincoln Memorial

Since June 1, when the Lincoln memorial, in Washington, was first kept open at night, records kept by the United States park police show it to be the most attractive to sightseers. Between the hours of 4:30 and 9:30 p. m., guards reported the daily average number of visitors exceeded 500, and the record high was reached August 17 when 1,200 viewed the impressive statue of Abraham Lincoln.

Wells Cool Oregon Theater

Nature's own cooling system has been harnessed by a Portland (Ore.) theater which drilled artesian wells tapping subterranean lakes 150 feet beneath the surface, to obtain a supply of water which is consistently 52 degrees, says Popular Science Monthly. This naturally cooled water supply is pumped to three banks of sprays.

Mother and Daughter Praise Vegetable Compound

Johnson City, N. Y.—"My daughter was only 20 years old, but for two years she worked in a laundry. She was all run-down, nervous, had aches and pains and no appetite. I was taking Lydia E. Pinkham's Vegetable Compound with good results so she decided to try it. Before she had taken two bottles her appetite was better, she was more cheerful and was able to work. I cannot praise your medicine too highly. It is wonderful for mothers and for daughters. It's surely a friend in need."—Mrs. L. E. HALL, 223 Floral Avenue, Johnson City, N. Y.

If Baby has COLIC

A cry in the night may be the first warning that baby has colic. No cause for alarm if Castoria is handy! This pure vegetable preparation brings quick comfort, and can never do the slightest harm. Always keep a bottle in the house. It is the safe and sensible thing when children are ailing. Whether it's the stomach, or the little bowels; colic or constipation; or diarrhea. When tiny tongues are coated, or the breath is bad. Whenever there's need of gentle regulation. Children love the taste of Castoria, and its mildness makes it suitable for the tiniest infant, and for frequent use. And a more liberal dose of Castoria is always better for growing children than some needlessly strong medicine meant only for adult use. Genuine Castoria always has Chas. H. Fletcher's signature on the wrapper. Prescribed by doctors!

Goes to Hospital to Learn Beauty Aid

"THE first time I heard of it," writes Mrs. E. Whitney of 35 Parker Street, Bangor, Maine, "was when I was at the Hospital. I was very nervous and the doctor began giving me something. In about ten days I felt like a new person. Before then, I was miserable. My skin was in very bad condition and I could not understand what made it clear up so quickly. Before I left I asked the Hospital doctor what kind of medicine it was that cleared up my skin and made me feel so much better. He said 'My dear girl, didn't you ever hear of Nujol? Hospitals aren't the only place where you can get it! You can buy it most everywhere!'

Doctor laughed when asked "What cleared my skin?"

"I have been using Nujol ever since, and I think it is wonderful." That's the great thing about Nujol. Not a medicine, contains no drugs, can't possibly hurt you, forms no habit—and if you are like most other people its simple natural way of bodily lubrication will do wonders for you, too. You see, all of us have an excess of body poisons that make our skins

allow, only able to work at half or quarter our real ability. When Nujol absorbs these poisons and carries them off easily, normally, naturally, we just feel like a million dollars. Try Nujol for two weeks, and see what happens. It costs only as much as a ticket to a good movie, and it will mean so much to you. In sealed packages at any drug store. Start feeling fine, this very day!
