Transparent Toads

Pipa toads, which have recently arrived at the London zoo from South America, are so thin that one can see through them. The eggs, numbering up to 100, are taken by the male and deposited in cavities in the mother's back.

WE HAVE FOR SALE CHEAP PRODUCTION.

To anyone who has been in the manufacturing business, - whether on a small or a large scale, - this statement is obvious.

Power is an item in all manufacturing costs. In mass production it is a *small* item. In highly specialized production it is a *large* item.

We offer the cheapest, most flexible power the world has ever known. From the point of view of the manufacturers we recognize no competitors. If you are not using central station power, see us. We can cut your production costs and at the same time create better working conditions for your employees.

Jack Ferris returned, Thursday of last week from his hunting trip into Idaho. He brought with him a six point elk, weighing six hundred pounds. There were four in the hunting party of which Mr. Ferris was a member, and their starting point was Kootenai, Idaho. They had a very enjoyable time and Jack's friends here enjoyed his generous gifts of all meat, which was to the most of us a rare treat.

Ginger Ella

by
Ethel Hueston

AN attractive girl, a girl of heart and soul is the subject of this latest tale by Ethel Hueston. Her brain works like lightning and the fact that it does not always work in a straight line makes her even more enchanting. Like the earlier works of this authoress, the setting is a parsonage in the sweet, green, hilly farm country of Iowa. ☞ ☞ ☞
