NUMBER 26

FURTHER GAIN FOR RADIO IN SCHOOLS

With the beginning of the winter school term the radio loudspeaker has taken its place beside the blackboard as an aid to teaching. According to Quinton Adams, Vice-President of the Radio-Victor Corporation of America, thirty schools in various parts of the country have begun the new term equipped with centralized radio apparatus for the distribution of educational programs to the classrooms and between sixty and seventy other schools are planning similar installations. Every school year brings an extension of education by radio.

MORE BROADCASTS FROM EUROPE SOON

New trends in radio programs in the next few months are forecast by Dr. Alfred N. Goldsmith, Vice-President and General Engineer of the Radio Corporation of America, whose work in research since the infancy of radio gives his opinion weight.

"It is expected," Dr. Goldsmith said, "that in the coming season there will be a notable increase in the quantity

Dr. Alfred N. Goldsmith

and quality of international broadcasting and a widened interchange of programs between various European countries and the leading broadcasting agency in the United States.

"Receiving sets show a tendency toward still greater simplification of control. Tuning in is a single operation performed almost simultaneously. The control of volume is equally simple and smooth."

Mrs. Roy Brown's sister, Mrs. F. J. O'Riely, left Monday for her home in San Francisco. Mr. and Mrs. Brown took her as far as Arlington by auto.

Personal Mention

Miss Jessie McCabe returned last week from a pleasant visit in the home of her aunt at Mosby Rock, Wash. Robert McCabe who has been working near Portland also returned home last week. Both came home in time for the family dinner which was held Thanksgiving day at home in Ione.

"Bally" Hayes returned last week from Yakima. He found that trapping in the vicinity of the Washington city was not profitable.

William Strobie finished baling hay on the Fred Buchanan ranch on Wednesday of last week. From there his outfit was moved to the Antone Holub ranch and after the hay there was baled, he moved onto the Rankin ranch.

The many friends will be glad to know that Mrs. Katie Petty's, who has been very ill, is now on the road to recovery.

One of the most important equipments of the home is a good light. It adds so much to the comfort and cheer of the of the home, besides protecting the eyesight.

Dr. Clark, Eyesight Specialist, in Ione, Friday, December 13th.

Advice to Sweeties
"Folks would be surprised to know," says a newspaper trade journal, "how many people are working at the business of giving advice in newspaper columns on affairs of the heart." It pays well, too, yet remains a labor of love.—Farm and Fireside.

AMMUNITION YOU CAN SHOOT WITH CONFIDENCE

There is plenty of action when a pheasant flushes! And he's much harder to bag than he looks to be because he is so liable to flush at long range.

You need a shell that will reach out and get him. That's why you should use Peters High Velocity—an amazingly long range, hard hitting shell loaded and tested by methods exclusively controlled by Peters.

You can shoot High Velocity with perfect confidence that it will do its part to bag your pheasant—if you do yours.

There are many other articles in our store which will contribute to the success and pleasure of your hunt—we are here to serve you.

BRISTOW & JOHNSON

CARD OF THANKS.

The Ione High School Student Body wishes to extend its thanks to those of the community who so kindly aided, and to those who attended the Carnival. Had it not been for their support the undertaking would have been a failure.
