

**This Mother Had Problem**

As a rule, milk is about the best food for children, but there are times when they are much better off without it. It should always be left off when children show by feverish, fretful or cross spells, by bad breath, coated tongue, swollen skin, indigestion, biliousness, etc., that their stomach and bowels are out of order.

In cases like this, California Fig Syrup never fails to work wonders, by the quick and gentle way it removes all the souring waste which is causing the trouble, regulates the stomach and bowels and gives these organs tone and strength so they continue to act normally of their own accord. Children love its rich, fruity flavor and it's purely vegetable and harmless, even for babies.

Millions of mothers have proved its merit and reliability in over 50 years of steadily increasing use. A Western mother, Mrs. May Shively, Montrose, California, says: "My little girl, Edna's, tendency to constipation was a problem to me until I began giving her California Fig Syrup. It helped her right away and soon her stomach and bowels were acting perfectly. Since then I've never had to have any advice about her bowels. I have also used California Fig Syrup with my little boy, with equal success."

To be sure of getting the genuine, which physicians endorse, always ask for California Fig Syrup by the full name.

When the task was finished, the teacher being out of the room, he wrote a note as follows: "I have finished my work and I have went home."—Wall Street Journal.
