**FIFTY YEARS AGO**

This month Thomas A. Edison gave his first public demonstration of lighting with incandescent lamps. Special trains were run to Menlo Park, New Jersey, to care for the crowds, who wanted to see this wonderful new light.

No one man has ever given a great people so wonderful a Christmas gift. Today there is scarcely a hamlet so small that it does not receive electric service.

There is no Christmas gift as welcome today as some electrical device for use in the home. Their name is legion and there is something within the reach of almost every pocket-book.
