The Parent-Teachers Association of Boardman are sponsoring a dance in the high school at that place, Saturday evening, March 22 for the benefit of Anna Willbanks, who is totally blind as the result of an automobile accident suffered some time ago. Miss Willbanks, who now resides at Boardman, is a former student of the lone school, and it is hoped many of our people will accept Boardman's invitation to attend this dance.

Charles Ely of Marshfield is here visiting his brother, George, and renewing old acquaintances. Mr. Ely made his trip back to our beloved Morrow County with his brother Harry who is here looking

after business matters.

The lone Student Body cleared \$38.60 on the cafeteria dinner which they served at the school house last Friday evening.

Lone was well represented at the Grange meeting held at Cell, last Saturday night. All those who attended report a very enjoyable time.

One morning last week Mr. Wilcox and Denny were filling the tank of their tractor, the gasoline ignited from the lantern they were using and had it not been for the quick action of the two men, the results might have been serious. As it was only the cab was burned from their tractor.

The date and place of the high school's imitation declamatory at which our students will compete is March 29th at Lexington.

The revival meetings at the Christian church closed Sunday evening. Rev. C. L. Fesler was alone in the work for the first

two weeks but during the last week, Rev. Teddy Leavitt was here to help. Rev. Leavitt conducted similar services in Lone seven years ago. A large delegation from Heppner were in attendance Sunday night. From here the two evangelists went to Bend to conduct a series of meetings.

I. R. Robison motored Monday to Portland, where he goes to transact business. He was accompanied as far as the city by Max Mallick Stange who was returning to his home in Longview after a pleasant visit here with our friends.

Mrs. Kenneth Blake, who has been ill for the past five weeks, has been moved to the Portland Sanitarium for treatment. She was taken to the city on Friday and was accompanied by her husband who reports that she made the trip without much discomfort.

BUTTER HAS NO SUBSTITUTE

Copra, Coconut Oil and Oleomargarine

Is it really the poor man's butter or the rich man's graft?

"Now what is Oleomargarine? How is it made? Does any man want to feed his children on it? Let's see!"

Oleomargarines are made from skim milk, coconut oil or tallow and salt. The main ingredient is skimmed milk which has no fat or life sustaining substances.

Now let us look into the ingredients. Many margarins are advertised as the "White Meat of the Coconut". Coconut oil such as is used in American oleo is made from Copra. Copra is dried coconut meat, but let us see the condition of this stuff before it is refined.

Copra comes from the Philippine Islands. The coconuts fall from the trees, are broken up and the meat dried in heaps under the tropical sun. This is called copra.

When dry, Copra looks and smells like stable manure, or worse. When the stuff is ready for shipment, swarms of his native Malays load it on ships, tramping in the holds of vessels with bare feet an army of naked Malays, sweating with tropical heat, tramping Copra that is going to be made into the poor man's butter. Think of it!

When the Copra arrives at American oil mills, it is run out of the ships with conveyers. Generally it is piled up in the open air where it attracts millions of flies, looks exactly like piles of stable manure and smells a darn sight worse.

This compost is then ground and pressed by steam heated rollers. The raw oil is the most rancid and evil-smelling thing in the world. Until recently it was used exclusively for soap grease.

Scientists discovered ways of refining in the process is simple.

First the oil is heated to a very high degree. It is then placed in vats and a large quantity of sodium injected. The sodium attacks the rancid substances and is eaten away. The oil is then treated with ether which solidifies the oil.

And this is the stuff they advertise as "The White Meat of the Coconut." Here is a receipt for a lot of 1,000 pounds of Oleo:

700 pounds of coconut oil at 6 cents..... \$42.00

30 gallons of skimmed milk..... 1.50

51 pounds of salt..... 1.00

\$48.00

Did you ever stop to think that it takes 5 pounds of Oleo to furnish the nourishment for the human system that 1 pound of butter will furnish?
