

When Food Sours

Lots of folks who think they have "indigestion" have only an acid condition which could be corrected in five or ten minutes. An effective anti-acid like Phillips Milk of Magnesia soon restores digestion to normal.

Phillips does away with all that sourness and gas right after meals. It prevents the distress so apt to occur two hours after eating. What a pleasant preparation to take! And how good it is for the system! Unlike a burning dose of soda—which is but temporary relief at best—Phillips Milk of Magnesia neutralizes many times its volume in acid.

Next time a hearty meal, or too rich a diet has brought on the least discomfort, try—

Prosperity From Bed Quilts
Villagers of South Wales are enjoying temporary prosperity just because Princess Mary of England took a fancy to a Welsh wheel-pattern bed quilt at Harrogate recently. The princess bought the quilt, and now all English society is demanding similar bed coverings.

"My Stomach Was Upset—Food Would Not Digest"

Spokane, Wash.—"I think Dr. Pierce's Golden Medical Discovery is one of the best medicines I have ever taken. I was suffering from stomach trouble—my food would not digest—would come up and cause me distress, but two bottles of Dr. Mrs. J. LeFevre Pierce's Golden Medical Discovery entirely relieved me of this trouble. There is nothing so good for stomach distress as the 'Golden Medical Discovery.' I advise those who have need of such medicine to try it."—Mrs. John LeFevre, 403 South Chandler St. Tablets or Liquid. Druggists.

Tunnel's Fate With Quakes
Whether the proposed railway tunnel beneath the strait of Gibraltar to connect Europe and Africa is feasible will depend on the results of artificial earthquake waves sent through the ground. The waves will be sent to reveal what rocks would be encountered.

Harold's Mother Knew Answer

"Yes, sir, I am certainly proud of my little boy," says Mrs. H. M. Smith, 421 Topeka Ave., Topeka, Kansas. "He's five and weighs fifty-seven pounds. He's the picture of health as you can see, and I feel like he'll always be that way as long as I can get California Fig Syrup. I have used it with him ever since he was a year old. I knew what to give him for his colds and his feverish, upset spells because Mother used California Fig Syrup with all of us as children. I have used it freely with my boy and he loves it. It always fixes him up, quick."

In many homes, like this, the third and fourth generations are using pure, wholesome California Fig Syrup because it has never failed to do what is expected of it. Nothing so quickly and thoroughly purges a child's system of the souring waste which keeps him cross, feverish, headachy, bilious, half-sick, with coated tongue, bad breath and no appetite or energy as long as it is allowed to remain in the little stomach and bowels. Fig Syrup gives tone and strength to these organs so they continue to act as Nature intends them to do, and helps build up and strengthen weak, pale and underweight children. Over four million bottles used a year shows its popularity. The genuine, endorsed by physicians for 50 years, always bears the word "California."

Make Study of Methods of Utilizing the Winds

How much work can a lively breeze do? Although for any purpose requiring a more or less continuous supply of power the wind is wholly unsuitable energy, there nevertheless are many cases in which it may be utilized with advantage, even if it has to be supplemented by such a standby as an oil engine and worked in conjunction with a storage battery, which generally is an indispensable adjunct. Wind power may prove a source of economy. The Danish government reports that the velocities of the wind which are practicable lie between 10 and 50 feet a second, and the motor must be so constructed as to adapt itself automatically to all conditions, including storms. It has been found that a motor with only four wings is the best. At one experimental station, with a petrol motor as standby and a storage battery, an installation of 450 incandescent lamps has been successfully run for two years at a fair profit.

Archeological Find
The remains of what must have been a handsome Roman villa of early imperial times were accidentally brought to light in the village of Carini near Palermo, Italy, during the course of digging the foundation of a new school building. Large slabs of polychrome marble which formed the floors of the villa have been discovered, together with a number of mosaics in good preservation. Traces of columns and statues probably belonging to a nymphaeum in the Pompeii style have also come to light.

"The suffragettes talk about the emancipation of women with gusto," said Lady Townshend, "but history seems to prove that woman never needed any emancipation. Man was always a slave to beauty and also to cleverness. Some of the greatest woman characters in history were far from beautiful. And man was always the willing slave."
