Importance of Proper House Design Apparent

Through a better appreciation of architecture, home lovers more and more are striving toward perfection and beauty of house design. As a result, a knowledge of historic styles is well defined in the minds of interested discriminating home builders. Today people know approximately what they want in the way of a home, and recognize the importance of architectural guidance. Only well-proportioned homes with artistic and correct architectural treatment attract and appeal.

To assure the ideal home—be its size ever so small—the technically trained architect should be consulted. No one thinks of going to a dentist with bodily ills. By the same token no one should go to a contractor for home design. Home design is a highly specialized field, and only an architect can reflect and crystallize your home ideas properly and correctly into a design possessing merit.

One often hears "because I'm building a small house, I can't afford an architect—besides, I know where I can get some plans cheap."

This attitude has accounted for hundreds of unattractive homes which have no resale value—eyesores and a disgrace to the community.—Cleveland Leader.

Store Front Counts as Good Business Asset

"The store front indicates the character of a business establishment as well as of the men back of it, and that holds good whether the business is clothing, shoes, plumbing or what not," Howard H. Edmonds writes in an article called "Store Fronts." In a recent issue of Domestic Engineering Edmonds draws upon his experience in building and remodeling store fronts for many Cleveland companies for the material in his article.

"The store front is a silent salesman which works 365 days in the year and if given half a chance will return its cost many times over in sales volume," he continued.

"A few of the great advantages of bringing a store front up-to-date are: It becomes a public improvement; it stimulates an activity in the entire community; it gradually builds up a healthy trading center in which to do business."

Attractive Homes an Asset

Two ideas about the American home have had a remarkable growth in recent years. One is that the dwelling of today, if it is to hold a fair position in competition with the motor car and other comparatively recent alluresments from the outside, must display the attractiveness and good taste that characterize many of these other things. But it has become increasingly evident, too, that the task of bringing the home up to the desired artistic level is even more a matter of education, good taste and skillful guidance than it is a matter of money. The element of cost must be considered, of course, in any circumstances. But attractiveness of the best sort may be a feature of the moderately priced home as of the motor car of a similar nature.

Getting on Airman's Map

Communities that want the world to know they are air-minded—and most of them apparently have this desire—can make air-marking one of their first important objectives. Labeling the town, village, city or hamlet with its name painted in large and legible letters on the roof of the tallest building may seem rather a humble start in the direction of aviation. Far from it.

"It is the easiest way to get on the airman's map," says a pilot with hundreds of hours of cross-country flying to his credit.

The Fireless City

The fire prevention idea has developed into a major community enterprise in the city of Albany, Ga., and it now enjoys the distinction of being regarded as the "Fireless City." With a population of 20,000, it has the lowest annual loss by fire of any city in the country. There were but 91 alarms of fire during 1928 and the total loss was but \$4,520. This has been accomplished by wiping out many fire hazards and by maintaining an energetic fire patrol nightly.

Much Money for Building

Fifty-six life insurance companies, located in cities throughout the country, lent \$374,011,470.30 on American homes in 1928 according to the National Association of Real Estate Boards.

Scouts to Plant Trees

Boy Scouts of Cumberland, N. Y., have contracted to plant 3,000 trees this summer as part of the Ontario county reforestation project.

Alabama's Good Work

Thirty-eight miles of single trees have been planted along Alabama highways this season.

Needs Help

Good roads do not necessarily make a town. The town has got to look itself.—Country Home

THE KITCHEN CABINET

"If you think you are beaten you are; If you think you dare not, you don't! If you like to win, but you think you can't, It's almost a cinch you won't."

APPETIZING DISHES

In the spring and early summer green foods—fresh vegetables and fruit—are more appealing than more complicated foods. There are some roughage foods that are needed all the year round and an occasional use of bran in food, or taken in water as a drink, will keep the elimination good. For the children the bran may be given in small cakes, cookies and macarons.

Bran Date Muffins.—Break two eggs into a mixing bowl and beat with an egg beater for two minutes; add two-thirds of a cupful of milk, one-half teaspoonful of salt, one-fourth cupful of sugar and one-fourth cupful of softened shortening. Add two teaspoonfuls of baking powder to one cupful of flour, add one cupful of bran, one-half cupful each of dates cut fine, and one-half cupful of nutmeats cut fine. Mix all as usual and beat well. Bake in well greased muffin pans for twenty-five minutes.

Liver Sandwiches.—Rub cooked liver while hot through a sieve, season with salt and pepper and mix with three-fourths the amount of thinly sliced olives. Spread on buttered rye bread.

Calf's Liver Sandwich Spread.—Rub cooked liver with hard-cooked eggs through a sieve, using to one pound of liver three hard-cooked eggs. Add one grated onion, salt and pepper to season. Mix well and spread on buttered bread. A layer of thinly sliced sour pickle will add to the sandwich.

Chicken Liver and Jelly Sandwich.—Boil two chicken livers until tender; chop fine. Add salt, pepper and a teaspoonful of Worcestershire sauce and a tablespoonful of currant jelly. Butter is not needed with this filling.

Shrimp and Liver Sandwiches.—Take one cupful of cooked shrimps, one cupful of cooked chicken livers, one Bermuda onion and one green pepper. Remove the seeds from the pepper and grind with all the other ingredients; mix with a little mayonnaise or chili sauce. Use on buttered white bread for filling.

Savory Liver Sandwich.—Chop a cooked chicken liver fine. Soften a package of cream cheese with heavy cream or mayonnaise. Add the liver; a teaspoonful of finely minced celery leaves, pepper, salt to taste, one-half teaspoonful of curry powder and one small gherkin finely chopped. Mix to a paste and spread on unbuttered bread. If too stiff add more cream or mayonnaise.

Broiled bacon and chicken liver put through a food chopper and mixed with mayonnaise makes a good filling for sandwiches.

TASTY SANDWICHES

This is the season for the sandwich. The following will be helpful in preparing your lunch baskets or sandwiches for the porch or garden parties:

Emergency Sandwich.—Put six sweet pickles through the food chopper, also five hard-cooked eggs. Cream two tablespoonfuls of peanut butter with one of prepared mustard and add the pickle and eggs with salt and pepper to taste. Add a dash of vinegar to thin the mixture and a bit of paprika for added seasoning. Spread on whole wheat or rye bread.

Sardine Sandwich.—Take one cupful of minced sardines, one-half cupful of stuffed olives chopped, one teaspoonful of scraped onion, one tablespoonful of chopped parsley, one tablespoonful of lemon juice and three tablespoonfuls of cream. Mix and spread on buttered brown bread.

Lobster and Celery Sandwich.—Mince fine the meat of a fresh boiled lobster. Moisten with heavy mayonnaise, add a dash of cayenne and two teaspoonfuls of minced white celery leaves. Spread on rounds of bread and decorate with a stuffed olive. These are served hot, or they may be covered with another slice of bread and use the stuffed olives minced.

Egg and Chutney Sandwich.—Mash six hard-cooked egg yolks as desired and chop the whites fine. Mix enough chutney with the yolks to make a spreading paste and spread on thin slices of buttered bread. Sprinkle with the finely chopped whites and lay a very tender lettuce leaf on all. Cover with another slice of buttered bread.

Pineapple and Tuna Fish Sandwich.—Take one can of tuna, drain and flake, add salt and pepper and two tablespoonfuls of chopped pickle, add French dressing to soften and then add three-fourths of a cupful of drained crushed pineapple. Spread on buttered bread.

Salmon with lemon juice mixed to a paste and spread on bread, or flaked salmon with a good boiled salad dressing spread on buttered rye bread make most satisfying sandwiches.

ACHES

There's scarcely an ache or pain that Bayer Aspirin won't relieve promptly. It can't remove the cause, but it will relieve the pain! Headaches, Backaches, Neuritis and neuralgia, Yes, and rheumatism. Read proven directions for many important uses. Genuine Aspirin can't depress the heart. Look for the Bayer cross:

Pathetic Reunion That Has Film Outclassed

Stranger than fiction and more moving than a film is a story which comes from Saint Omer, France. The scene is a cafe at Quivrecelain. Among the customers is an elderly woman. A miner enters. He has a story to tell. He relates how his father abandoned his mother in this very same village of Quivrecelain in 1885, and took him to America when he was three years of age. His father died shortly after his arrival, and he was adopted by Poles, who made a miner of him. Eventually he returned to France, working in a pit at Hensies and passing as a Polish miner. The elderly woman put questions, and the miner was astonished when the woman jumped up in great excitement and declared that he was not a Pole, but a Frenchman, and that he was her son, taken from her 44 years ago.

HEADACHE?
Instead of dangerous heart depressants take safe, mild, purely vegetable NATURE'S REMEDY and get rid of the bowel poisons that cause the trouble. Nothing like NR for biliousness, sick headache and constipation. Acts pleasantly. Never craves.

Nothing Doing

Secretary McCankle of the American Institute of Actuaries told a story at a banquet in Des Moines. "A waiter in a night club," he said, "complained bitterly to the cloakroom girl."

"The whole night through," he moaned, "I've had the hardest kind of hard luck. Haven't made a cent on the side, not a cent. I added in the date on every blasted bill, but not once did the trick work. Not once the whole night through."

"You poor fish," said the cloakroom girl, "no wonder your trick didn't work. Don't you know that all these people here are attending the actuaries' convention?"

Word's Significance

The ending "worth" in the names of places signifies that the town stands on the point of land made by a bend of a river, or a tongue of land between two rivers.

OLD DOCTOR'S IDEA IS BIG HELP TO ELDERLY PEOPLE

In 1885, old Dr. Caldwell made a discovery for which elderly people the world over praise him today! Years of practice convinced him that many people were endangering their health by a careless choice of laxatives. So he began a search for a harmless prescription which would be thoroughly effective, yet would neither gripe nor form any habit. At last he found it.

Over and over he wrote it, when he found people bilious, headachy, out of sorts, weak or feverish; with coated tongue, bad breath, no appetite or energy. It relieved the most obstinate cases, and yet was gentle with women, children and elderly people.

Today the same famous, effective prescription, known as Dr. Caldwell's Syrup Pepsin, is the world's most popular laxative. It may be obtained from any druggist.
