The Fraternities

At the close of the Masonic Lodge on Wednesday evening of last week, the ladies joined the gentlemen at Masonic Hall and a happy social evening was spent with Mr. and Mrs. W. E. Bullard as honor guests. Games were enjoyed and refreshments consisting of ice cream cake and coffee were served. With Bert Johnson making the presentation speech, Mr. and Mrs. Bullard were the recipients of an electric percolator and set of china. These good people are leaving this week for their new home at Gold Beach, where they have purchased a drug store. They will be greatly missed, but the good wishes of their many friends here go with them to their new location.

Jasmine Chapter, O. E. S. of Arlington was hostess last Friday evening to Locust Chapter of Ione. Those enjoying the hospitality of the sister Chapter were: Anna L. Blake, worthy matron and George Ely, worthy patron of Locust Chapter, Ruth B. Mason, Ora M. Feldman, Hazel O. Feldman, Mr. and Mrs. Elmer Griffith, Mabel Krebs, Juanita Stender, Mr. and Mrs. R. E. Harnison, and Mr. and Mrs. George Krebs, Mrs. Sara McNamer, associate matron of the Heppner Chapter, was also a guest. During the evening three candidates were initiated into the order, and an especially interesting report of grand chapter held recently in Portland was given by Mrs. E. R. Pyle. At the close of the business meeting, a program of music was presented and delicious refreshments were served.

ADDITIONAL LOCAL

Francis Ely returned home on Friday. He had been visiting for some time with his mother's people at Bl. m.

Mrs. Lester Briton of Tygh Valley, is visiting in the homes of her sister, Mrs. Ned Carr and her mother, Mrs. Alice Wiles.

Last week Mrs. Noel Dobys enjoyed a brief visit with her parents, Mr. and Mrs. Weir of Olympia, Washington.

Mr. and Mrs. E. J. Eristow, returned to Walla Walla, Saturday, returning Monday. While in Washington city they attended a happy birthday party at which Mrs. Eristow's mother, Mrs. Lansing, was the guest of honor. When they returned home they were accompanied by Walter Eristow who has been spending ten days visiting with relatives in Walla Walla.

All those who attended the party given Saturday night in the old rink by the baseball team, in the old rink report a pleasant time. The music by Bandstatter's orchestra was good as were also the refreshments furnished by the ladies.

Mr. McElligott arrived in Ione Sunday, coming from Kansas, and is a guest of his cousin, Charly McElligott. Mr. McElligott is a son of Jerry McElligott, one of the pioneers of Morrow County, and has been away from this part of the state for about thirty years.

Miss Lucile Bristow returned home, Tuesday morning after a very pleasant visit with friends at Cathlamet, Washington. Accompanying her was Miss Elizabeth Head who will remain with her father, W. W. Head, until the opening of school.

RESOLUTIONS OF RESPECT

In Memory Lewis P. Davidson who died June 4, 1930 at Ione, Oregon.

"We cannot know, we cannot understand, we cannot pierce the veil that hangs between, we only know that in that land, Our loved ones wait our coming all unseen."

Be It Resolved that Locust Chapter 119, O. E. S., extend to the bereaved family its sincere sympathy; that the altar be draped in memory of our departed brother; and that a copy of these resolutions be spread upon the minutes. Locust Chapter 119 O. E. S. Respectfully submitted,

Margaret Blake
Clara Hawk
Margaret Ballard
Committee

Bates Steel Mule Tractor is now on exhibition at Paul G. Balsiger's Implement Store.

Radium Disintegration
Atoms of radium are distinguished from atoms of non-radioactive substances by the property of spontaneous disintegration, which, in the case of radium, consists in the ejection of an alpha-particle, which is a small piece of the central core or nucleus of the radium atom. This process transforms the radium atom into another chemical element. During disintegration atoms of radium also emit a radiation similar to X-rays.

To Preserve Custer Memento
To preserve an old inscription cut in a rock on Mount Inyan Kara in Wyoming by Gen. George A. Custer, representatives and senators from a half-dozen middle western states are being asked to obtain funds from the federal government. The inscription was cut by Custer two years before the massacre of Little Big Horn. It is endangered by destructive relic hunters.

PICNIC PARTIES

Mr. and Mrs. Victor Petersor, David Rietmann, Miss Birdeen Wilson and Alfred Balsiger motored across the mountains and up the John Day river valley to Dayville last Sunday. They had a pleasant day with a picnic dinner at noon. Along the river valley the strange rock formations and fossil beds with the colors of red and green predominating was interesting.

IF ICHABOD CRANE HAD A FLASHLIGHT

By JOHN G. LONSDALE
President American Bankers Association

WE ALL remember the story of Ichabod Crane and the headless horseman. There was the dark form by the

John G. Lonsdale

side of the road—thundering hoofs on the Sleepy Hollow Highway—and Ichabod feeling in confused terror before this terrible monster. It Ichabod had only known that his horse had an inventive rival disguised with a pumpkin head, he would have had a good laugh and gone on with the business of vanquishing his competitor.

What Ichabod really needed was a modern flashlight. Then he would have discovered the trickery at once. Many business men need the flashlight of analysis to uncover the hobgoblins in their business and then they might sit back and laugh at their rivals who hesitate to investigate and learn the truth.

At this time, when business and banking are making strenuous efforts to have a clear vision ahead, it is especially important that the power of research and analysis be employed to their fullest extent. When these twin brothers of good management have been pressed into service in all fields, I am confident we shall see a further lessening of periods of stress. However, I believe business in general has learned the valuable lesson that any prosperity that is not leavened with a little adversity would not seem basically safe or sound.

LOW FARES EAST

EFFECTIVE MAY 22 TO SEPT. 30
RETURN LIMIT OCT. 31, 1930

What a Penny Can Do
I heard a wise man say: "Give crown and pounds and guineas, but not your heart away." Young men, however, are apt to be careless of their hearts, mindful of their pounds and guineas, but rarely, very rarely, mindful of their pennies. A penny, they know, will tell them their weight, will purchase exactly one stick of chewing gum. Some may even know that a penny will light a 40-watt bulb for three and a half hours. But pennies are generally a nuisance. You get them when you buy a newspaper. You can never tip with them.
But this a penny can do, so soon it less; one penny can move a ton of coal one mile, almost, by rail. By sea one penny can move a ton of coal 95-100 miles, which, incidentally, is 79,200 feet.—Fortune, the Business Magazine.

Water Glass Eggs
According to the findings of the home economics students at the Wisconsin college of agriculture, eggs stored in water glass are as rich in vitamin D as fresh eggs.
