## THE HUNTING SEASON

All cars were headed towards the mountains, Saturday and Sunday. More than the usual number of hunters seem to be answering the call of the hunting season.

A party made up of Mr. and Mrs. Virgil Warren, Mr. and Mrs. Clarence Warren, Mr. and Mrs. Clarence Nelson and Bert Botts, left on Tuesday for the Fox Valley country to spend a week or more. Marshal and Clinton Jackson, Fred Ritchie and Jack Whitesides departed, Saturday, hoping to get in a day fishing before the deer season opened. Others going from here were: Misener and Mankins, C. A. Nelson, C. F. Bergstrom, T. E. Peterson, L. N. Riggs, James Warfield, Harry Smith, L. J. Dempsey, H. O. Kincaide, Louis Buschke, E. R. Lundell, Richard Lundell, M. E. Cotter, Bert Mason, Elmer Griffith, Rood Eskelberry, Roy Lieualien, John Krebs, Earl Morgan, Dale Ray, "Shorty" Feller, William Lawton George Cochran and Louis Bargevin. Many others will go later. The weather conditions are ideal and those who aim to know report an abundance of deer.

**Magnificence Overdone**  
"Magnificence," said H. H. the sage of Chinatown, "often misleads a man into a belief that he is personally earning the admiration that is bestowed on his house and his attire."—Washington Star.

**Formation of Lakes**  
The most common cause of the formation of lakes is the disturbance of drainage by glacial action. Thus, they are generally abundant in mountain regions or within those areas subjected to ice.

**Wanted Service From Toads**  
At one time the natives of Venezuela worshiped toads. But they whipped their imprisoned toads with little switches when there was a scarcity of food or water.

**Mixed Blood**  
The Finns and the Lapps, like the Magyars and Turks, are classified by ethnologists as of Mongolian origin. They form a branch of the Ural-Altaic family, but are mixed largely with the Swedes and Russians, members of the Aryan race.

**Not Used for Prayer**  
A prayer rug is, in the home of an American, used merely as a scatter rug or, if it is especially beautiful or valuable, hung on the wall as if it were a tapestry. It might also be gracefully arranged on a baby grand piano.

**Pepper Production**  
Black and white pepper comes from southern India, Sumatra, Java, Ceylon, Siam, Borneo, Penang and other parts of the Malay peninsula. Black pepper consists of the dried immature berries of a perennial climbing shrub called Piper Nigrum, native to the forests of western and southern India. White pepper is practically the same product as black pepper except that the outer shell of the berry is removed to a greater or less extent by friction following soaking in water. Red pepper is the powdered ripe pod, both flesh and seeds of any variety of capsicum, the plant which gives us the edible fresh pepper, but which bears no relation to the true pepper plant. Cayenne pepper is, by ruling of the board of food and drug inspection of 1906, distinguished from red pepper as being obtained only from small-fruited varieties of capsicum.

### Astronomical Day

Astronomers formerly began the day at noon, but it was decided advisable for the sake of uniformity to use the same day in astronomical work as is used in civil life, and commencing with 1925, all the national almanacs began the day at midnight.

**Notice of School Election Upon Question of Increasing Tax Levy over Amount Limited by Section 11, Article XI, State Constitution.**

Notice is hereby given that an election will be held in School District No. 35 of Morrow County State of Oregon, at the school house in said school district for the purpose of submitting to the legal voters of said district the question of increasing the tax levy for the year 1930-1931 over the amount limited by section 11, article 11, of the Constitution of Oregon.

The reasons for increasing such levy are:

Deficit incurred by cutting of tax levy for 1930 by \$3000 which automatically results in a like decrease in the tax levy for 1931. Making it necessary to vote this special tax to maintain our school.

The amount of special tax proposed to be levied for said year is \$22,386.54.

Dated this 17th day of September, 1930.

Attest:

Della M. Corson  
District Clerk

Ruth B. Mason  
Chairman, Board of Directors

## TO THE TAXPAYERS OF SCHOOL DISTRICT No. 35

When the Board of Directors of School District No. 35 began work on the Budget for 1931, it was found that instead of assessing the \$18,427 tax voted by the electors for 1930, a cut of \$3,145 had been made due to an error in the Budget. The \$15,291 actually levied is not sufficient to operate the school as it stands and since each year's Budget is based on that of the preceding year with an allowance of but 6 per cent in crease, the Budget for 1931 cannot be covered by the tax we will be allowed to levy.

At a school meeting to be called September 30th it will be necessary to vote a special tax to cover this deficit. If it is not voted, it will be necessary next year to discontinue either the high school, transportation of pupils or, perhaps both, in order to make up the loss incurred by the deduction of the \$3145 from last year's tax levy. While this will make the school tax for 1931 higher, it will be balanced by the amount the tax was lowered last year.

The operating expenses of the school have always been kept well within the Budget and during the past two years a total of \$3500 plus the accrued interest has been paid off of the Bonded and Warrant indebtedness, but unless this special tax is voted, the district will be approximately, \$6000 behind on operating expenses.
