

Restless CHILDREN

CHILDREN will fret, often for no apparent reason. But there's always Castoria Harmless as the recipe on the wrapper; mild and bland as it tastes. But its gentle action soothes a youngster more surely than a more powerful medicine.

That's the beauty of this special children's remedy! It may be given the tiniest infant—as often as there is need. In cases of colic, diarrhea or similar disturbance, it is invaluable. A coated tongue calls for just a few drops to ward off constipation; so does any suggestion of bad breath. Whenever children don't eat well, don't rest well, or have any little upset—this pure vegetable preparation is usually all that's needed.

Fletcher's CASTORIA

August Day Eventful in American History

August 3 has proved to be such an eventful date in American history that the War department has issued a long comment on it, incorporating the following facts:

It began the World war, which contributed most to American history.

It marked the opening of the Panama canal.

It marked the peace treaty 135 years ago between the government and the Indians of the Northwest, giving us Ohio, Indiana, Wisconsin, Michigan and western Pennsylvania. This treaty followed one of the most terrible and destructive Indian wars in American history, in which George Rogers Clark, "Mad" Anthony Wayne and others distinguished themselves.

Real dyes give richest colors!

FOR every home use, Diamond Dyes are the finest you can buy. They contain the highest quality anilines that can be produced.

It's the anilines in Diamond Dyes that give such soft, bright, new colors to dresses, drapes, lingerie. Diamond Dyes are easy to use. They go on smoothly and evenly; do not spot or streak; never give things that re-dyed look. Just true, even, new colors that keep their depth and brilliance in spite of wear and washing. 15c packages. All drug stores.

Diamond Dyes Highest Quality for 50 Years

Ended Long Family Line

The first noble family of Sweden has been extinguished with the death of Count Magnus Brahe. Keeping a time-honored custom, the 500-year-old Brahe coat of arms was broken against the coffin and the archbishop threw the key to the burial vault in a nearby lake.

Impossible Task

You can't blame a woman for feeling, her husband is unreasonable when he insists on her loving him as he does himself. That's one thing a woman can't do—even with a hair-pin.—Cincinnati Enquirer.

Use for Spiders' Webs

Strands of the webs of spiders are used for cross-lines in microscopes, range finders and other exacting instruments. The web is wound on a card-like thread.

Makes Rapid Growth

Bamboo grows to a height of more than 100 feet in Ceylon. It has been known to grow as much as 16 inches in a day.

Among other evils folly has also this, that it is always beginning to live.—Seneca.

MILL WORKER BENEFITED

Picked Up After Taking Lydia E. Pinkham's Vegetable Compound

Towanda, Pa.—"I was working in a silk mill and got so tired and rundown that I weighed only 89 pounds. I was not well enough to do my work. As soon as I began to take Lydia E. Pinkham's Vegetable Compound, I began to pick up. After being married for thirteen years, I had a baby boy and the next year I had another boy who now weighs 37 pounds and is healthy as a bear. The Vegetable Compound has helped me in a dozen ways and I hope others will try it too."
—Mrs. C. B. JOHNSON, Webb Street, R. D. #6, Towanda, Pennsylvania.

"Blighted" Areas Due to Imperfect City Planning

The causes and cure of "blighted" urban areas were reviewed at the Toronto meeting of the National Association of Real Estate Boards by Harland Bartholomew of St. Louis, noted city planning engineer.

He said the symptoms of such a condition are frequent vacancies in property and a general appearance of decay, with little prospect of a renewed market for the district. The cause he attributed to uncontrolled large scale growth. Skillful city planning, he said, is both the cure and the prevention.

"Much is said and written today upon the subject of decentralization of cities," Mr. Bartholomew said.

"As the access to the downtown districts becomes increasingly difficult, new growth will undoubtedly take place in outlying areas, but before we advocate and encourage too extensive decentralization of our cities we need to know very much more about them. Our blight districts are largely the result of opening up new areas of uncontrolled size."

Remodeling Offers No Problem to the Wise

Many old houses over the country built long simple lines and kept in good condition, are excellent for remodeling. There is hardly a city or town where there are not fine old places waiting for some architect with taste to make them into modern attractive homes.

The owner is most fortunate who recognizes the right kind of old house before he buys it for alteration purposes and who knows what to do with it after he has bought it. There are two important factors in remodeling. First, to get a house with possibilities; second, to rearrange the exterior and interior with the necessary plumbing heating and lighting in an effective way without excessive cost or unnecessary tearing down or destroying.

These results are not hard to accomplish after a little study and every owner who contemplates remodeling should give consideration to the problem before he buys a place, not after.

Matter of Remodeling

Louise Bargett, home builder editor of the Chicago Tribune, predicts 1930 will be the greatest rehabilitation year in the history of the country. "We see remodeling made simpler and more profitable for the home owner every passing season; that is, remodeling when a house has successfully passed two tests. For usually a home must be adjudged structurally sound if it is worthy of being remodeled, and also no require more than one-third of its interior to be torn out. There are exceptions to this general rule, as to most rules, but, on the whole, it is a fairly safe one to go by. Indeed, in most remodeling campaigns, as little as possible is torn out of the old place but much is added to it instead."

Paint as Protection

Moisture, the root of all trouble with lumber and metals, is the enemy of every property owner. In sections of the country where the temperature varies with the seasons, excess moisture in the air is inevitable. For this reason, building materials must be protected from the weathering it causes, and paint, in this connection is the ideal preservative. It seals the pores of the wood and forms a protective coating over metals, thus preventing the entrance of moisture, and the progress of weathering and rusting. Used on concrete and stucco, paint prevents surface cracks, dampness, and subsequent crumbling and flaking off.

Towns to Avoid

And the joke of the road is the small town that erects a "Welcome" sign and follows it up with another announcing a speed limit of "twelve miles per hour." That is no welcome to the tourist. And there are other injunctions concerning cutouts and the like. Most towns admonish the motorist to protect its children but the town fights every effort to protect those children by routing the highway outside the city limits.—Lincoln State Journal.

Improve Home Grounds

Old lawns should be gone over carefully. Unsightly depressions which cannot be removed by rolling can be eliminated by lifting the sod, filling with good soil, and replacing the sod. Where this is impracticable, fine lawn can be spread over the lawn to a depth of three inches. The existing grass will force its way through the new soil.

Value of Face Brick

Many old houses have sturdy frames, despite the shabby and old appearance of the exterior. Given a veneer of face brick, these houses will put on an appearance of new and will give service that compares well with an entirely new home, for the brick exterior provides protection against the elements and takes on added beauty with the years.

Community's Handicap

An ugly, disordered, unpainted and neglected community stifles ambition, the real foundation of prosperity.

PRESCRIPTION in use over 47 Years Really Helps Bowels

Don't you want this way of making the bowels behave? A doctor's way to make the bowels move so well that you feel better all over! Dr. Caldwell's Syrup Pepsin doesn't turn everything to water, but cleans out all that hard waste clogging your system. It cleans you out without any shock, for it's only fresh laxative herbs a famous doctor found so good for the bowels, combined with pure pepsin and other harmless ingredients.

A doctor should know what is best for the bowels. Let Dr. Caldwell's Syrup Pepsin show you how soon you can train the bowels to move freely, every day, the way they should. It's wonderful the way this prescription works, but it's perfectly harmless; so you can use it whenever a coated tongue or sick headache tells you that you're bilious. Fine for children, too (it tastes so nice) and they ought to have a spoonful the minute they seem fretful, feverish, or sluggish, or have a sallow look.

You can get the original prescription Dr. Caldwell wrote so many years ago; your druggist keeps it all ready in big bottles. Just ask for Dr. Caldwell's Syrup Pepsin, and use it always for constipation.

Dr. W. B. CALDWELL'S SYRUP PEPSIN A Doctor's Family Laxative

FOR FIRST AID SINCE 1846 HANFORD'S Balsam of Myrrh

The Heel

Dr. F. B. Daudé of Boise, who recently discovered in Oregon a carload of fossilized scales of the mesothorium, tracodon and other enormous prehistoric lizards, said in an interview in Warm Springs:

"You can tell a tracodon's scales from a mesothorium's as easily as you can tell a white man from a colored man."

Then Doctor Daudé chuckled and went on:

"Take a colored man's leg. It is planted in the middle of his foot. He has as much foot behind his leg as before it."

"A colored man was walking down the street one day. Suddenly he looked round and said:

"Boy, git off mah heel. Git intirely off!"

Spent Evening at Home

He—My dear, I got a couple tickets today

She—Good! Are they for the opera?

He—No; one was for parking too long, and the other for crashing a red light.

New Species

The average American is a man with both feet on the ground and both hands in the air.—Life.

A word to the wise is sufficient; and to the timid, a mere scowl is.

ASPIRIN

BEWARE OF IMITATIONS

GENUINE Bayer Aspirin has been proved safe by millions of users for over thirty years. Thousands of doctors prescribe it. It does not depress the heart. Promptly relieves
Headaches Neuritis
Colds Neuralgia
Sore Throat Lumbago
Rheumatism Toothache
Leaves no harmful after-effects. For your own protection insist on the package with the name Bayer and the word genuine as pictured above.
Aspirin is the trade-mark of Bayer manufacture of monoaceticacidester of salicylic acid.
