Miss AMABELLE STRODTMAN

The high school girls fought their way to a 27-17 victory over Arlington in the gym on Saturday. The girls in the scrimmage were: jumping center, Ruth Luttrell; side center, Beulah Eskelson; guards, Neva Warner and Fay Gray; forwards, Vera Breshears and La Verne White. Miss Alice Palmer was referee.

The boys played Arlington the same evening but were defeated by a 20-18 score. However this was only a practice game and the boys have an excellent chance to make a record in the League games. First team of the boys consists of Dale Lane, Emmett Kunz, Cuck Rhule, Kenneth Warner and Archie Munkers. A number of games have been scheduled for both boys and girls. The schedule runs as follows:

Dec. 3, Hermiston at Hermiston
Jan. 16, Boardman at Boardman
Jan. 23, Ione at Lexington
Jan. 30, Heppner at Lexington
Jan. 31, Irrigon at Irrigon
Feb. 6, Boardman at Lexington
Feb. 13, Ione at Ione
Feb. 20, Heppner at Heppner

Facts About the Telephone

About 3,000,000 toll calls to exchanges outside the city were made last year in Worcester, Mass.

Thirty-six years ago the city of Wichita, (Kansas) had only 300 telephones. It now has well over 30,000 telephones.

Great Britain now has direct telephone communication with every important European country except Russia, Greece and Turkey.

The demand for telephone service in New Zealand has been adding telephones at the rate of 1,000 per month to the system in the Dominion.

The first telephone exchange in the city of Birmingham, Ala. was placed in service in 1882, with 39 telephones in operation. Since then the system has grown to over 45,000 telephones.

The city of Worcester, Mass., has the distinction of being the first city in the world where a large full multiple common battery central telephone office switchboard was installed. It was placed in service on June 20, 1896. Worcester is now served by a dial telephone system.

MORE and MORE EQUIPMENT to Serve You Better and Better

Hardly half a century ago Electric Service was almost unknown. Today it is universally the most used and useful of utilities. No element known has rendered such service to so many people. There is not a room in the modern home that is not made more livable, comfortable and convenient through electric light and all-doing appliances. Each of them is as economical in operation as it is convenience-bringing.

Your home should be as modern and up-to-the-minute as the electric service supplied to it so economically and dependably by

Evenings and Sundays by appointment

In the Same Boat
Billy came to school on Monday for the first time. Shortly after the opening of the first session he walked up to the teacher's desk and said, "I ain't got no pencil."
The teacher, with a shocked expression on her face, said: "Oh, Billy, I haven't any pencil."
A sympathetic look came over Billy's face and he replied: "Ye ain't? Well, we're both in the same fix, ain't we?"

Messina Rightly Claims Most Wonderful Clock

Messina, one of the most important towns in Sicily, is regaining the glories it lost in the appalling earthquake some 22 years ago. One of the most striking of its new buildings is a tower which contains the most wonderful clock in the world.

The tower is surmounted by a bronze lion holding the city flag in its front paws. At midday the lion lashes its tail, waves the flag, and roars. A bronze cock placed below the lion crows a greeting to sunrise, noon, and sunset. Two arched recesses contain the bells upon which the hours are struck by figures of Diana and Charon, the heroines who save the city from being sacked by the French after the Sicilian Vespers in 1282.

On each of the four sides of the tower is a luminous dial eight feet in diameter upon which are displayed the phases of the moon, a perpetual calendar, and the movements of the planets round the sun.

Below the clock face is a stage upon which mechanical figures enact scenes appropriate to the great feasts of the church.—London Tit-Bits.
