SAYS WILL ROGERS

BEVERLY HILLS.—Well lets see what about the last "Fortnight." You know there is another one of those things we got from English. We used to do it for a long time. Fortnight meant then an Einstein speech. But now we can just take a month apart and split it up into a couple or three Fortnights. Just like we had always been used to it. Then "Week End."

That's another one we grabbed of from our British relations. "Week End" we used to think it referred to some disabled extremity of the human body, and instead of naming the disease they just referred to it as the "Week End," maby misspelling it purposely. But now we cant hardly wait for Friday or Saturday to come so we can boast what we are going to do over the week end.

We not only stole the word from the British but the idea. Americans in the old days stayed over Saturday and Sunday, the same place they stayed on Monday, Tuesday and Wednesday, they stayed at home. We didnt start prowling just because it was the last of the week. You used to love your home. You loved to spend time in it. You know to travel about meant to put up with inconveniences, meeting a lot of people, sleeping in strange beds and you just didnt like to go. But now sentencing a man to stay at home over a few "Week ends" is like sentencing him to Sing Sing. He must go away, "his work has been so con-ting."

And you know come to think of it we nailed many a thing from the British. We used to make fun of them because they had Busses on their streets instead of Street cars. We here we are 25 years later adopting that very custom. A street car is getting to be a thing of the past, and all are looking for the Busses to ride on, and the same Double deck ones that we have over here over there running when Cromwell and Shakespeare were about. Now we are getting around to their Five and six o'clock tea. Course its not Tea here, but its the same Alabi that is used. You know we take credit for being a lot faster than we are. We cop a lot of things and then the first thing you know we are claiming them as our own.

You know no Nation has a monopoly on good things, each one has something that the others could well afford to adopt. But that wasent what I started in to gab about at all, it all come about through writing unconsciously the word "Fortnight." I

METERS THAT MEAN WHAT THEY "SAY"

ALL-DOING as your Electric Service is, not a little satisfaction from its use is found in the fact that you pay only for what you use! Back of the Meter which measures this Service, there is an investment in millions making the monthly sums you pay the merest mite in comparison. To insure that you pay only for Electricity you actually use, the meter is ever present to accurately record the passage of this mightiest of servants to your command.

Electric Meter check-ups disclose a degree of accuracy in billing for Electricity as true as your grocers measures or your butcher's scales. Like them, there is nothing mysterious about meter reading.
