BASKET-BALL GAMES

The Ione and Condon high school basket-ball team divided a double-header here last Sat. The Condon girls and the Ione boys each won their game. The score for both games was 15-16.

Both games, though very close were slow and were marked by poor playing. The score at the end of the first half of the girls game was 11-6 in favor of Ione. During the second half Condon gradually over came the lead and just before the game ended made the winning basket.

The Ione team was unable to get started during the first half of the boys' game. The end of the half saw the score 8-4 in favor of Condon. Ione came back in the second half to take the lead on three baskets made in quick succession. The score sea-sawed back and forth the rest of the game with first one ahead and then the other. The final whistle found Ione one point ahead.

How About It?

In New England hardwood and soft wood seem to grow invariably in rotation, i. e., when a forest of coniferous trees such as spruce or pine is cut, the next growth is of deciduous trees, such as maple or birch.—Exchange.
