SAYS WILL ROGERS

BEVERLY HILLS.—Well all I know is just what I read in the Papers. Spain blowing up the way it did broke in for a lot of news.

I was over there messing around in Spain about four years ago. Had a long chat with that Primo Rivera who was then Dictating for the Country. He "Dictated" me a long special message as to what he was trying to do with the Country, and I used it in the Saturday Evening Post just as he gave it to me. He is the fellow that while the Ambassador and I and our Commercial Attache was in his office talking to him why he reached down in his office drawer and dragged out some of the best wine that was supposed to be Oh Lord knows how old, he said it was. It was one of the best official touches of hospitality I run onto while over there. He looked like he was doing pretty good job with the Country. But No, they must get rid of him, and they have never looked like anything since.

Now this King I also met and he seemed mighty nice, and a good fellow. Get Boy when they turn against you, all you have ever done dont mean a thing. You can say what you please about "Dictators" but when he is a good man its the best form of Government there is. Its just like a business thats run by one good man, the whole trouble with it, you never know what will happen when the "Dictator" is dead or throws out. Any one of our big men could take this country and run it fine. If he just didnt have to mess with any Political machine, or a lot of red tape.

Now you take Mussolini. Lots of em knock him, and say thats a terrible form of Government. But you wait till he passes out and see what happens to that Country. Still he told me on that same trip that he was getting his system so well organized that it would carry on after his death. But I dont that, for there is no man or whole mess of men that could carry on with all that he is doing. Now he absolutely is doing that he thinks is best for his Country, and he has never even by his severest Critics been accused of doing anything for gain for himself. In fact he is a poor man. You know those fellows they got an awful lot of pride, and they want to go down as a big man, and he is really a big help to that Country. Course

Every Country thinks they need a different kind of Government. We think we must have Democracy and we get it too, right in the neck sometimes. Now they say France is just getting along better than anybody. Still after the war everybody that thought they knew France predicted that there was no way for them to be coming out of it. When we was all a-buying stock, and waiting till the next day to sell it at a Profit, not even asking what it paid if anything, why France was working. We was speculating off each other. We didnt see how in the World anything could ever be lower in price than it was then. We was the smart Guys. "What a Sucker people are to work when they can get this easy dough." That was our slogan.

Now we are bundling the Gold back to France and they are where we would have been if we hadnt gone "Cuckoo."

England is having their trouble for they always had a hunch that would never work, they was just bread not to work. Their Labor Government is having tough sledding, almost as bad as our efficiency. Government is. I sure is a bad time for a man to get ambitious and want to get into Politics. There has never been a time when a Public office was as such a low ebb, and many not on account of the man in there as it is just general conditions. Sometimes its just a case of a good man in at a bad time. Its like sending the First String in after the game is too far gone to do any good, there is nothing you can do but just try and keep the score down, thats the way with a good man being elected to office nowadays, its just a case of try and relieve what little misery he can.

We got to get some other kind of distribution of money. The rich never had as much, and the poor as little. But we better not do anything about it till we see how the Russians turn out. They been pretty quiet the last couple of weeks. They are studying up some devilment to pull on the World. A Russian just loves misery, and he wants to get as many in on it as he can. He wants to share it among friends as well as foes.

Well the football season is over now, so maby we can start some fool-ahment of some other kind. Hoover and the Senate have made up, so we will just sit around and wait for some other Calamity to happen.

Resolutions of Respect  
In Memory of Our Departed Brother, C. A. Low who died Feb. 10, 1931.

Once again a Brother Mason, having completed the design for him on life's trestle board has passed through the portals of Eternity and entered the Grand Lodge of the New Jerusalem and bath received his reward, the white stone with the new name written thereon.

And whereas, the all-wise and merciful Master of the Universe has called from labor to respected brother, he having been a true and faithful member of our beloved Order, therefore be it Resolved that Ione Lodge No. 120 F. & A. Completed Work  
Many men build as cathedrals were built: The nearest ground finished, but that part which soars toward heaven, the turrets and the spires, forever incomplete.—Becher.

A psychologist sent a questionnaire to 750 students as to whether their memories were more pleasant or unpleasant, and reported that unpleasant memories loom up more in the minds of both men and women.

Possible Idea  
Here is a headline that reads: "Successful Parent Must Be a Salesman." The idea being, presumably, to sell himself to the children, rather than give himself away.—Toledo Blade.

Making World Better  
Progress is not automatic. The world only grows better, even in the moderate degree in which it does grow better, because people wish that it should, and take the right steps to make it better.—John Morley.
