Form of Aircraft

An "ornithopter" is a form of aircraft heavier than air, deriving its chief support and propelling force from flapping wings.

Memorial to Seamen

A memorial near Concord bridge is erected to two unknown British soldiers who fell in the first skirmish of the Revolutionary war and were buried by the side of the road. These were the first Britons that England sacrificed in her attempt to retain her colonies.

Mrs. Carl Feldman and her daughter, Miss Katherine entertained the O. E. Social club at their pleasant ranch home, Feb. 20. Present were Mesdames R. E. Harbison, A. A. McCabe, Carl Brown, George Krebs, John Krel, Lee Becknea, Roy Lieuallen, Peter Timm, Willard Blake and Oliver Kincade. The afternoon was spent in working on articles that later will be offered for sale by the club. The Washington's birthday idea was carried out in house decorations and refreshments. Sandwiches, coffee and wafers in the shape of hatchets and hats. The next meeting of the club will be March 20, at Masonic Hall.

Musical Term

Pizzicato indicates the playing of stringed instruments by plucking the strings with the finger instead of using the bow.

Productive Grapes

Some varieties of grapes continue fruitful for at least 100 or 400 years.

SAYS WIL ROGERS

BEVERLY HILLS.—Well all I know is just what I read in the papers, and what I happen to see prowling hither and thither. I was in New York recently and I decided that before I left there I would like to see Al Smith. I hadn't seen him in a long time and had always been an admirer of him. I just wanted to see him and see how he was, and how he was feeling. So I phoned him, and he said "Come right on down." It is right across the street from that wonderful Empire Building, in a corner suit overlooking it.

This building belongs to Jesse Jones, a mighty well known Democrat. He is the fellow that bought the Democratic Convention for Houston, Tex. He owns these buildings all over the country and rents em mostly to Republicans.

Well Al never looked better in his life, and I have known and been seeing him around New York for many years. He started in of course by showing me the 90 story building, out of the window that gave us the best view of it. It did look wonderful. Its got some sort of outside structural steel work that looks like Illinois, and in the sun it just glitters. Then he started in showing me old pictures on the wall of his office that showed early scenes in New York. He showed some of the old houses on the lower east side where he lived, one under the very shade of Brooklyn Bridge. Then the old home in Oliver Street. He is without a doubt the most sentimental prominent man I ever met. He glories in the past. He had one picture that showed the old Theatrical team of Harrigan and Hart, who made their great fame in the "Mulligan Guards." It was in a large frame with dozens of the old time favorites, including the old Theatres that they played in. He would hum to you the tunes of those old favorites. He sure beams personal. He is human if there ever was one.

I dont care whether you agree with him politically or not, the person dont live that could meet him and be with him awhile that wouldnt go away not liking him. He does a hundred little things and mannerisms that make you feel that he is one of you. There is no put on, or front with Al, he is just Al, unlike anybody else in the World.

I had just come from the White Commercial Tin Plate. The bureau of standards says that tin plate, as the term is used commercially, refers to sheet steel or iron which has been coated with a thin layer of tin.

Far Above Sea Level

The famous Chilkoot pass through the coast range in southern Alaska between Dyea and the headquarters of the Yukon, is 3,502 feet above sea level.

Playing With Science

Nine per cent of airplane accidents are due to weather. Only 9 per cent are due to structural faults; 19 per cent are due to failure of power, and 50 per cent or more are due to the pilots' error or incompetence.—Country Home.

Germany's Many Museums

Germany has more than 1,500 museums, 45 per cent of which are ethnographical in character, while less than 10 per cent are devoted to art.

Sturgeon Fishing

The bureau of fisheries says that the sturgeon is caught by snagging. It will not take any bait. Snagging is done with a hook and line. A very heavy linen thread is used for the line about one-eighth inch in diameter. The hook should be very stout and from 3 to 4 inches in length.

Pay of Early Statesmen

Members of the senate and house of representatives in Washington's time were given \$0 a day during the time congress was actually in session. In 1814 they were granted a salary of \$1,800 a year.

House a day or so before and was telling him about how Mr. Hoover was worked up over this relief business. Well Sir I bet Mr. Hoover has not even among his own party a single man that has as much sympathy and good feeling for him than Al Smith. There was no put on about it, he really meant it when he would talk of the many things that had seemed to go wrong through no fault of the Presidents, yet he had to bear the brunt of them.

Here was a man that had been in office long enough to know what you can be blamed for. No Sir Hoovers best booster is Al Smith, and he had just been working with Ex President Coolidge on a Committee to give away an Estate that had been left to Charity, and he had the highest praise for Coolidge too, and he says, as I have always maintained, that Mr. Coolidge has a great sense of humor, and he would tell some of it that happened during their deliberations.

We went over to the Democratic Club for lunch, and he got to telling about the animal pets that the children had at the mansion in Albany. He built almost a Zoo there to house them. How a big pet Bear that they had raised from a cub, had got loose and got over into a girls Orphanage, and they was all scared to death for fear he would hurt somebody and instead these kids has him pulling and wooling him around and they couldnt hardly get him away from them. They was feeding him bread and jam. He would tell of his dogs his kids had. One a great Newfoundland, that in the summer when it was so hot they would fix him in the basement, and then they'd keep the hose on him. He could tell you every characteristic of every dog, the more trivial a subject the more interesting he could make it. No hard feeling, no rant toward anybody. A Unique man, with a unique record, polled more votes than all the other Presidents that were elected, with the exception of Mr. Hoover. I doubt if he wants to run again.

Even if he dont he will retire into private life one of the most, yes the MOST, popular man of our time. He is the most human of our present day figures. He is not from the soil, but from the cobblestones, and he knows after all they all are human and just alike.

An Illusory Law

The bank deposit guaranty law in any form is a snare and a delusion, declares a banker in a state where it has been tried, adding: "It is a license and encouragement to irresponsible banks and banking and penalizes capital solvency and prudent banking. It creates a sense of security in the minds of the unthinking and uninformed that is false and impossible to be realized on ultimately. To compare it to legitimate insurance is without reason and absurd. It jeopardizes the solvency of all banks and the safety of all depositors for the theoretical safety of a few. Guaranty schemes always have been, are and always will be impotent, futile and disastrous. It is not new. Has been tried, failed and discarded at intervals for more than 100 years in this country. No well-informed, honest and intelligent mind can accept it in principle or practice. Competent bank supervision and restriction of banks to territory that will warrant sufficient capital investment and accounts is the only sane and honest course and will afford all the guaranty the depositing public is entitled to as compared with all other human affairs."

First Folding Machine
The folding of printed sheets for books and newspapers was performed by hand until Cyrus Chambers, Jr., of Philadelphia, invented a practical folding machine in 1856.

SUPERIOR DRILLS
Are no Experiment but are the Product of Experience. The name tells the Story.

The Fraternities

THE LEGION AUXILIARY
An Interesting meeting of the American Legion Auxiliary was held, Tuesday, in the room on Main Street. The ladies were engaged in doing Child Welfare work. The hostess, Mrs. Victor Rietman, served delicious home made ice cream and wafers.

O. E. S. Social Club
The O. E. S. Social Club held a benefit bridge party at Masonic hall Thursday evening, Feb. 19. About fifty members and friends were in attendance. High scores were made by Mrs. C. W. McFarmer and Walter Corley. Low scores were made by Mrs. Victor Peterson and Omar Rietmann.

Unpleasantness Remembered
A psychologist sent a questionnaire to 750 students as to whether their memories were more pleasant or unpleasant, and reported that unpleasant memories loom up more in the minds of both men and women.

Real Education
Giving a child an education that will fit him for taking his place in the economic scheme of life is not enough. We must also educate him for leisure. That's why the study of music, for instance, will make his life deeper and richer.—Woman's Home Companion.

Savory Soups for Chilly Days

HERE are three savory, delicious ways for serving children part of the daily milk ration which is so vital to their health. These soups are full of nourishment and delicious flavor and quite substantial enough to serve as the main dish for the school child's lunch. If the children cannot get home to lunch, these soups can be taken to school in a vacuum bottle or prepared in the school kitchen for the school lunch club.

For the grown-ups, too, a good hot soup is just the thing with which to start a "pick up" dinner or a light luncheon. Each one of these soups is economical and deliciously different but they have one ingredient in common—a small quantity of quick cooking Tapioca used as a thickener. This gives them a delicate, smooth texture and substance without stickiness. Tapioca always blends perfectly with the most delicate ingredients and never obscures the flavor.

Celery Soup
1½ cups celery stalks and leaves, finely cut
1 cup water
2 cups rich milk and 1 cup chicken or meat broth or 4 cups rich milk and 2 bouillon
Cook celery in water 10 minutes. Add milk mixture, Tapioca, salt,

celery salt and Cayenne, and cook in double boiler 15 minutes, or until Tapioca is clear, stirring frequently. Add onion juice and butter. Serves 4.

Duchess Soup
2 tablespoons quick cooking Tapioca
1 teaspoon salt
¼ teaspoon pepper
1 tablespoon onion, finely chopped

1 quart milk, scalded
2 tablespoons butter
4 tablespoons grated cheese
2 tablespoons parsley, chopped

Add Tapioca, salt, pepper and onion to milk, and cook in double boiler 15 minutes, or until Tapioca is clear, stirring frequently. Add butter, cheese and parsley. Cook until cheese is melted. Serves 6.

Salmon and Celery Soup
2 tablespoons quick cooking Tapioca
½ teaspoon salt
2 cups milk, scalded
2 bouillon cubes (chicken flavor)
Dash of paprika

½ cup water
1 cup cooked salmon, flaked
2 tablespoons butter
Dash of pepper
¼ cup celery, diced
Add Tapioca and salt to milk, and cook in double boiler 15 minutes, or until Tapioca is clear, stirring frequently. Cook bouillon cubes and celery in water 5 minutes, and add to Tapioca mixture. Add salmon, butter, pepper and paprika. Reheat and serve. Serves 4.
