Making World Better

Progress is not automatic. The world only grows better, even in the moderate degree in which it does grow better, because people wish that it should, and take the right steps to make it better.—John Morley.

SAYS WILL ROGERS

BEVERLY HILLS—Well all I know is just what I read in the papers or what I see as I crawl from here to there.

Every time I get a new Picture finished why I kinder feel the itch to get out to some new place or make some sort of a little trip. Anyway a couple of weeks ago, we had finished "As young as you feel," based on George Ade's old play "Father and the Boys." I was going to take a little trip down in Central America, and then they kept me at home for fear there might be some re-takes on it. You know when we get one made we then take them out and show em, sometimes take a couple of different towns to see if they are fit to release and sometimes we have to change something or make some new Scenes.

The way I had it planned I would have seen in Managua, Nicaragua on the day after the quake, was going to stop over and see what the Marinas was doing down there, and I would have been on the spot for quite a little news, for they sure had had it tough down there. Well we took the thing over and tried it in San Bernardino, Cal., and the customers giggled quite a bit, so that let me get away. They said, the Director and the Studio Officials that they didn't think we could make it any worse if we tried, so I jumped on the old Aerial Rattler, and left from there. Honest if people knew how fast and comfortable and safe it is on a Plane they would never travel any other way.

You know this Radio had made it mighty fine to find out about what's ahead. You see its never the weather you take off in its the weather where you have to go through after you take off. I remember one trip on our late tour with Captain Frank Hawke, when we took off one day in a snow storm in New Mexico when you just couldn't see a thing, not two hundred feet, and it was that way flying blind for the next hour, but he had heard that it was clear in Albuquerque where we were going. So its how is the weather ahead of you home than how it is where you are.

I left Los Angeles from over in San Fernando valley on the American Airways just at daybreak on Easter morning. They were having Easter sunrise services in the Hollywood Bowl.

Well the Sunrise bunch didn't get much started that day I am afraid. You know California can get more people into something free than any place on earth. Course that partic-

lar thing was a very meritorious cause, and is a good idea if you live in a country where you can depend on the weather.

Speaking of services and religious gatherings why we been making Alms lately. She is away off prowling around some place, and we can't hardly figure her out. Her Church is running, but it without Alms is like the modern Girl without her lipstick. It just aint her at all. With Alms away for all this stretch, and Clara Dow on her best behaviour and me behaving myself, why there just is not much scandal out there at all. Doug Fairbanks is over in India getting even with some India Royalty that visited him one time. He is supposed to be shooting Tigers, but anybody that knows Doug knows that he never hunted in his life, he never shot anything, but if he can come back with some pictures with the right foot up on the neck of a dead Tiger or Elephant why it will be all right.

Mary is kinder running around. There is some club out there called the Mayfair, that has some sort of shindig every week, and they go on fights, I mean impromptu fights, people get mad at each other after they get there, and they always open and close their canes with a fight. Well we have all been shocked to death to find Mary among. (Not the fighters) but among the guests, she has a ringside table at every public brawl they have. Doug has got to come home and put her to work, keep her out of devilment.

Chick Sale is out our way. I am sneering with him to put me in one up at the Ranch. He is working on the design now. He would be surprised the trade that he has, he has it practically quit selling, and is specializing entirely. It was too bad; he is a fine Comedian too, one of the best that ever left the stage. But his new work is high class, and not his old, its mostly just consulting, and working out architectural plans. I wish I could hit on some side line, that would stop me having to just keep digging away day after day. Its certainly made a fortune for him. You would be surprised at his prices. He has an office in Hollywood, and is doing practically all Beverly Hills work. You just have to have em done by Sales if they want be patronized. By Guy.

PROCLAMATION

Saturday, May 23d, was proclaimed Poppy Day in a proclamation issued Thursday by Mayor John P. Louy. The proclamation urges all citizens of the city to observe the day by wearing an American Legion and Auxiliary poppy as an individual tribute to the American men and women who gave their lives in the World War. It also calls upon the citizens of the city to contribute as liberally as their means will allow to the welfare of the disabled veterans and dependent families of the dead and disabled when purchasing their poppy. The proclamation follows:

"I, John P. Louy, Mayor of the City of Ione, remembering the fine young men of Ione whom the city sent forth in the years of 19e7 and 1918 to defend the honor and ideals of our nation on the battlefields of the world's most terrible war, and who died in the heroic performance of the duty that nation assigned to them, and deeming it fitting that the citizens of the city should pay honor to their memory by wearing the flower among whose bright red blossoms many of them died, do hereby proclaim Saturday, May 23, Poppy Day.

"I urge that this day be observed by all patriotic citizens of Ione by the wearing of the memorial poppy made by disabled veterans which will be offered on the streets of the city by the women of the America Legion Auxiliary. I further urge that the citizens of Ione who gave so gallantly of their services and so liberally of their wealth during the war, think on this day of those who gave health and strength, and when purchasing a poppy, give as liberally as their means will allow to help lighten the burden for those who are still paying in suffering and poverty the price of our glorious victory.
