"The average smoker wastes enough on tobacco by the time he is fifty years of age to pay for a good home and furnishings.

The money spent for tobacco would pay the expenses of our federal government—army, navy, post-office, congress, President, Vice President, cabinet and all."

Wherefore do ye spend your money for that which is not bread, and your labor for that which satisfieth not?

If you take alcohol habitually you:

1. Injure your stomach, liver, kidneys, heart, blood-vessels, nerves, and brain.
2. You decrease your capacity for work.
3. You lower the grade of your mind and morals.
4. You lessen your longevity.
5. You entail misery upon your descendants.

As a mere business proposition: Is your glass of beer your bottle of wine, your highball or your cocktail, worth such a price?

THE HILLS AHEAD

The hills ahead look hard and steep and high, and often we behold them with a sigh.

But as we near them level grows the road; We find on every slope with every load The climb is not so steep—the top so far.

The hills ahead look harder than they are There never comes a hill—a task—a day

But as we near it—easier the way.
