RAWLINS POST NO. 31, G. A. R. MEET AT Odd Fellows' Hall at Heppner, every third Saturday of each month. G. W. SMITH, Com. G. W. BREA, Ad.

THURSDAY, NOV. 26, 1903.

Sheep to the number of 50,000 head are reported to have been frozen to death during the recent blizzard in the Rocky mountain regions of Idaho. However, such losses are of almost yearly occurrences and the stockman pay little attention to the matter. The sheep were in transit from the summer range to the mountains to the winter ranges or feeding station when they were overtaken by the cold wave, which visited that section last week, and succumbed to its icy fetters.

The acquittal of Malcolm A. Moody on the trumped up charge against him, for which he stood trial at Portland last week, is a source of gratification to his many friends and without question has made him many new ones. It is characteristic of the American people to sympathize with the "under dog" and more especially is this true when he is being persecuted. It was made clear at the trial that the whole proceedings were without foundation and were instituted for political effect, but the effect didn't go the way it was intended.

In order to avoid a possible prolonged and expensive session of the legislature Governor Chamberlain has issued a proclamation calling the legislators to meet in an extraordinary session at Salem, on Monday, December 21, just

four days before Christmas. This will give just time for about a two day's session and for the return of a majority of the members to their homes to spend Christmas day. It remains to be seen whether the holiday session will have the effect to so quench the ardor of the members that they will forego any desire for a prolonged session. However it is the belief of many that the legislature will remain in session its full limit of twenty days, simply adjourn over from Thursday 24, to Monday 28.

On every hand we see evidence of the need of the development of the Heppner coal field. The strike in Colorado coal fields has so reduced the supply of coal in the west that the price is gradually going upward, having already jumped up 50 cents a ton just at the beginning of winter. The coal supply for the greater portion of the Inland Empire now comes from the Wyoming mines which are unable to supply the increased demands upon them by reason of the strike in Colorado. Once the Heppner mines are opened up and their product put on the market we will not have to depend upon Wyoming for our winter supply of fuel, and not only Heppner but every town in the Inland Empire will hail the day when we have railroad connections with the Willow creek coal fields.

Chamberlain's Cough Remedy is Pleasant to Take.

The finest quality of granulated loaf sugar is used in the manufacture of Chamberlain's Cough Remedy, and the roots used in its preparation give it a flavor similar to maple syrup, making

it quite pleasant to take. Mr W. L. Roperick, of Poolsville, Md., in speaking of this remedy, says: "I have used Chamberlain's Cough Remedy with my children for several years and can truthfully say it is the best preparation of the kind I know of. The children like to take it and it has no injurious after effect. For sale by Slocum Drug Company."
