Japanese Fleet of Seven Vessels Bombard Vladivostok.

five Japanese battleships and two cruisers appeared off this place at 1:25 o'clock this afternoon and bombarded the town and shore batteries for 55 minutes.

The fleet approached from the direction of Askold Island, at the east entrance to Ussuri Bay, and about 32 miles southeast of Vladivostok. Entering Ussuri Bay, the enemy formed a line of battle, but did not approach to a closer range than a mile and one-third. They directed their fire against the shore batteries and the town, but no damage resulted as most of their 200 lyddite shells

The Russian batteries, commanded by Generals Vernotez and Artamonoff, did not reply, awaiting a closer ap-

proach of the enemy. The Japanese fire ceased at 2:30 p. m., and the enemy retired in the direction of Askold Island. Simultaneously two torpedo-boat destroyers reduction in wages and a strike is appeared near Askold Island and two more near Cape Maidel. The Japanese ships were covered with ice.

Cabinet Decides to Let Marines Remain at Panama,

Washington, March 3.-Important matters relating to the Pasama canal were under discussion by President Roosevelt and his cabinet today. Attorney-General Knox and other officials of the department of justice have under consideration the title to the canal property, which is to bepassed to this country by the Panama Canal Company, but as yet they have reached no conclusion.

It was said after the meeting that no money could be paid by this government until a clear title to the property was obtained, but no intimation. was given as to the length of time which might elapse before a decision was reached.

The entire subject of the canal and its construction was discussed in addition to the legal phases of the question. In this connection it was decided, as heretofore indicated might be the case, to countermand the orders issued to the Third United States Infantry to go to the isthmus to relieve the marines now on guard duty there. For some time the marines will continue to guard the isthmus. This government is opposed to establishing two jurisdictions on the isthmus, and, the naval vessels must remain there, it was thought best to allow the marines to continue to do land

duty It is the earnest wish of the President and the members of the cabinet. that no unnecessary delay occur in beginning the work on the canal, and it is their intention to press it with the utmost vigor.
