M. LICHTENTHAL SUICIDES.

Cause For Rash Act is Not Known.

Mat Lichtenthal, for six years treasurer of Morrow County, and a business man of Heppner for many years, shot himself in his bed room in this city shortly before 9 o'clock yesterday morning.

The shot was fired from a 41 Colts revolver, the ball entering the right temple and ranged upward and forward, lodging against the skull in the top of the head, from where it was removed by Drs. Higgs and Kistner.

The ball was removed between 11 and 12 o'clock and everything possible done by the physicians to revive him but he never regained consciousness, dying about 1 p. m. The ball plowed through the upper part of the brain, and striking the upper part of the skull, tore it loose all the way round, but the ball did not pass out.

Yesterday Mr. Lichtenthal came up to town as usual and swept out his store, then made out a check in favor of the County Treasurer-elect, E. G. Noble, for something like \$27,000 the amount of money he had on hands belonging to the county, and made other arrangements necessary in turning the office over to his successor.

This being done he went direct to his home. Mrs. Lichtenthal, noticing that he acted strangely followed him to the bed room, but he demanded that she leave the room or he would kill her, having the revolver in his hand at the time. She immediately ran for Mr. Prater who was painting near by, but before he could reach the house the fatal shot had been fired. A number of neighbors heard the shot and hastened to render what assistance they could. He had evidently stood in front of the mirror and deliberately took deadly aim.

The remains will be held until tomorrow for interment when they will be laid to rest in the Heppner cemetery under the auspices of the I. O. O. F. and other lodges of which he was a member.

He leaves a wife and three daughters, one of whom is married, and two brothers in Chicago. His family is well provided for.

The cause of his self destruction is not apparent, as it is believed that his account with the county is perfectly straight. It has been intimated that family troubles was the cause, and that dependency over defeat at the recent election lead him to commit the rash act.

WILL EXHIBIT RESOURCES

Club Organized to Exhibit the Resources of Morrow County at the 1905 Fair.

The visit to our city this week of the Hon. Jefferson Myers and G. Y. Harry,

of the Lewis and Clark Fair Commission, has revived a considerable interest among our people in regard to an exhibit.

These gentlemen were here for the special purpose of interesting the citizens of Morrow county in an exploitation of the county's resources, and to get the matter started a mass meeting was held at the court house Tuesday evening to discuss the proposition with our people. While there was not a large gathering, owing to the short notice given, there was a sufficient number of representative citizens to get the ball started to rolling.

Messrs Myers and Harry explained that they were making a tour of the state, and especially making a strong plea with interior and sparsely settled counties to make extraordinary efforts for a magnificent display of their resources at Portland next year. The reason for this is apparent. This section is capable of supporting a large population; it is practically unknown to the outside world for lack of advertising; the development of this vast Eastern and Central Oregon section is of vital importance to the prosperity of the state, hence the great effort of the fair commission to induce this and other Eastern Oregon counties to gather the best exhibit possible for the Lewis and Clark fair.

Mr. Myers also stated that there seems to be an idea prevalent throughout the state that the fair is for the sole purpose of upbuilding Portland. But, said he, while Portland is striving for her own upbuilding she does not overlook the fact that upon the development of the tributary country depends the growth and prosperity of that city, hence her people are as much interested in the development of the entire state as the people of the various counties and districts are themselves.

Every county of the state will be given ample space for their products free of charge and everything possible will be done by the commission to make the expense of collecting the exhibit.

It was suggested that the county court be asked to appropriate a sum sufficient to cover the cost, which should be small.

After a thorough discussion of the matter it was decided to organize a club at once, as the necessity of commencing the collection of an exhibit at once is very apparent.

Judge T. W. Ayers was chosen as chairman and R. F. Hynd secretary, and a committee of five was appointed by the chair to solicit membership. The meeting then adjourned to yesterday evening.

At the meeting last night a permanent organization was effected. Judge Ayers remains as president and C. E. Woodson secretary of the organization. Mr. Hynd asking that he be relieved on account that he will be away during the next three months.

A committee of three consisting of Judge Ayers, Commissioner Geo. Conser and Mayor Frank Gilliam was appointed to look after the collection and care of grass and grain exhibit, which it is necessary to gather at once.

So any farmers who have either grass or grain suitable for exhibition are requested to leave the same in the care of this committee who will forward it at the proper time to the fair free of charge. The only expense Morrow county will be to in making an exhibit will be that of getting it together as the fair commission will pay freight charges, furnish jars for preserving fruits, give free space in the agricultural building and properly display it.

Horse Thieves Arrested.

Sheriff Shutt returned the latter part of the week from the northern end of the county where he had been for several days on the trail of some horse thieves who have been operating in Umatilla county.

He arrested Judd Teeters at Castle Rock and turned him over to Sheriff Taylor of Umatilla. About the same time Sheriff Taylor arrested Warren Stevens on Butter creek, and the trio is now in the Pendleton jail awaiting trial.

Geo. Ditty, who has been operating with the gang, is wanted, but so far has made his escape.

Cured of Chronic Diarrhoea After Ten Years of Suffering.

"I wish to say a few words in praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Mrs. Burge, of Martiuville, Va. "I suffered from chronic diarrhoea for ten years and during that time tried various medicines without obtaining any permanent relief. Last summer one of my children was taken with cholera morbus, and I procured a bottle of this remedy. Only two doses were required to give her entire relief. I then decided to try the medicine myself, and did not use all of one bottle before I was well and I have never since been troubled with that complaint. One cannot say too much in favor of that wonderful medicine." For sale by Slocum Drug Co.
