

NOTES.

Wheels from \$4.00 up at Lee Cantwell's.

Self-sealer fruit jars in pints, quarts and half gallons at Binns Bros.

C. S. Emry of Hardman, was a business visited in the city Tuesday.

R. W. Marris of Newberg, arrived in the city Saturday, on a visit with friends.

Geo. Vincent was in from Butter creek Saturday, looking after some business matters.

Mrs. James Hart returned Monday from a month's visit with friends at Spokane.

H. W. Bartholomew returned Saturday from a couple of week's visit with his family at Portland.

When bilious take Chamberlain's Stomach and Liver Tablets. For sale by Slocum Drug Co.

Tom Davidson, a prominent rancher of Gooseberry, was a visitor in town the latter part of last week.

Otto Metschan returned Monday from Portland and again took his old position as day clerk at the Palace.

R. A. Thompson left Tuesday morning for Weiser, Idaho, to visit with his father and family for a week.

Dr. A. K. Higgs gives special attention to diseases of the eye, ear, nose and throat. Glasses properly fitted.

Luther Huston, one of Eight Mile's prominent wheat growers, was a business visitor in the city Friday last.

For Sale—Team, buggy, double and single harness, cheap for cash. For particulars apply at Times office.

The party who borrowed a stride saddle from our stable will please return same at once. STEWART & KIRK.

Ed E. Bartholomew was over from Glenwood, Wash., several days he past week looking after some business matters.

J. M. Hayes returned Monday from a two weeks visit at Portland, Eugene and other Valley towns. He reports crops most a failure in the valley.

J. L. Howard, who was in town Monday from Butter creek, reports some very heavy rains in his section the past ten days, but no damage to crops resulted.

H. E. Burchell who was in the city Saturday from his Lexington ranch, reports that he has finished threshing his barley crop and will begin cutting wheat this week.

W. G. Scott, who recently sold his Blackhorse ranch to J. A. Brown, was in the city Saturday transacting business. He has moved to Lexington and opened blacksmith shop.

J. W. Becket was in from Eight Mile Saturday, and stated to the Times that he was engaged cutting his barley, and that by the time he had finished that his wheat would probably be ripe enough to commence cutting.

Mrs. Charles Cunningham, wife of the Eastern Oregon "Sheep King," died on Thursday last at a Pendleton hospital from the result of an operation for the removal of a tumor, her system being too weak to rally from the shock.

Chas. Bartholomew, who recently sold his farm on Butter creek, Umatilla county, has bought a farm and located at Eagle Creek Station in Clackamas county, and will devote his attention to Poland China hogs and Shorthorn cattle.

Chas. Horn, Miss Marie Hiatt and Mrs. May Lawrence, returned Saturday from Pendleton and Walla Walla, where they spent the Fourth. Mr. Horn reports crops good in those sections, but that a hail storm damaged crops considerable north of Pendleton recently.

Assessor W. S. Connor, who was in the city Saturday from his ranch on Jordan Fork, reports very good crops in his locality, and that wheat harvest would begin on Monday. He says the grasshoppers destroyed some spring grain for him, but since the rains they are doing little damage.

Mr. Albert Wright who returned from Portland and the Valley last week, where he attended the Pioneers reunion, and visited with friends near Oregon city, reports a very pleasant visit. He says crops in the Valley will be almost a failure unless rain comes soon. The hay crop was very short and grain will be almost a failure unless it rains within the next few days, and will be short even with rain now.

The real property of the Hugh Fields estate, which was sold at sheriff's sale last Saturday, by W. H. Goltra, was bid in by Geo. J. Curriu for \$30,000, which does not cover the judgments and accruing costs by nearly \$6000. There were two judgments amounting to \$33,424 besides a \$3000 attorney fee, interest and accruing costs. D. O. Justus and Frank E. McKnight bid up to \$20,000, and W. H. Goltra \$28,000, but this vast stock ranch, consisting of over 12,000 acres of rich agricultural and grazing lands on Butter creek, goes into the hands of Mr. Curriu for \$30,000, or less than \$2.50 an acre. The real worth of the land is more than twice that amount.

Mrs. James Lanaster arrived last week from Ann Arbor, Michigan, on a visit with her parents, Judge and Mrs. T. W. Ayers.

G. W. Turner was in town Tuesday from his ranch North of Lexington, making final proof on his homestead. He says he has a fine crop of wheat which he is now engaged harvesting.

Walter Bartholomew returned Saturday from Chicago where he went with a shipment of cattle and sheep for Lucy Bros. Sickness prevented him from going on to St. Louis to visit the fair as he contemplated.

The next regular meeting of Maple Circle will be held Wednesday evening, July 20. There will be installation of officers and other business to come before the meeting. A good attendance is desired. MAY KRSTON, Clerk.

Geo. Conser has been appointed administrator of the M. Lichtenthal estate, and S. P. Garrigue, S. P. Devin and L. W. Briggs appraisers. As the work of ascertaining the assets and liabilities of the estate has not been completed the condition of the estate is not known.

Ed Michell traded, this week, his half interest in the Heppner Gazette to Milton Harlan for the Skamania County Pioneer, published at Stevenson, Wash. Our business relations with Mr. Michell have been very agreeable and we regret his leaving and wish for him success in his new field. We understand that Mr. Harlan is a newspaper man of considerable experience and doubtless the Gazette will succeed as before under his and Mr. Warnock's management.

W. O. Minor writes us that his Short-horns are doing extraordinary well this year owing to the abundance of green feed. His hay crop will be a heavy one, and he writes that it may be necessary to borrow some outside land to make room for the hay stacks. Mr. Minor carries the record for potato stories and hay yards, but he usually convinces one of the truthfulness of his assertions, so we believe he can cut more hay off a 40 acre field than he can stack on the same land with a long handle hay fork. But it must be some of that "Long Grass" he grows on his Mountain Valley farm, so long that his farm is not wide enough to stack it on.—Rural Spirit.

Funeral of M. Lichtenthal.

The funeral of M. Lichtenthal, who shot himself on Wednesday, was held at the family residence, on West Center street, last Friday afternoon at 3 o'clock, and was very largely attended. Rev. H. L. Beightol of the M. E. church preached the funeral sermon. The services were conducted on the lawn of his beautiful home, and were very impressive.

A procession headed by the Old Fellows, Rebekahs, Knights of Pythias and Maccabees, orders of which the deceased was a member, formed at the residence, and behind these a large number of carriages followed the remains to their last resting place in the Heppner cemetery.

The services at the cemetery were conducted by the L. O. O. F.

Mr. Lichtenthal was born near Theresel, Germany, September 18, 1849. He came to this country when a young man, and for many years has been engaged in the shoe business in Heppner, having the only exclusive boot and shoe store in the city.

He has since engaging in the business enjoyed a good trade, being of genial disposition was well liked by all. He was three times elected treasurer of this county, his third term expiring the day he shot himself.

He owned considerable real estate in Heppner besides his shoe business and carried a \$3000 life insurance policy in the Maccabees.

High Waters.

The extremely heavy rains Monday night caused Willow, Rhea, Hinton, and other smaller streams to overflow their banks, and the result is that very much of the hay crop and gardens along the valley was destroyed and a number of bridges spanning the streams were washed out.

On upper Hinton creek T. J. Matlock lost part of his hay crop and garden in the valley. Thirty tons of hay in the stack was also damaged some. D. Cox, Joe Rector and others lost considerable hay. On Willow creek J. M. Hager, Geo. Curriu and others lost a considerable quantity of hay in the field. On Rhea creek some loss of hay is also reported, but nowhere is there an enormous loss.

A few small bridges also went out, but the great benefit to crops will doubtless overbalance the damage sustained.

The storm did not approach a cloudburst, only a heavy straight rain. True people of Heppner were frightened more or less, owing to last years flood. The Heppner branch train did not go out Tuesday morning owing to a weakened bridge near Lexington which was soon repaired.

Geo. French, who recently leased the Thos. Quid place above town for a term of three years, reports that the damage to his hay crop from the heavy rains is not nearly so great as has been reported.

Range War in Umatilla.

The first killing of sheep in Umatilla county as a result of the range war between the cattle and sheep interests

occurred Wednesday in the northeastern part of the county when sixty head of sheep belonging to Davis & Ely were killed. These sheep are from the state of Washington, but had been brought across the line to the Blue mountain ranges. Also there are some cattle being ranged in this territory. Wednesday, so it is alleged, three cattlemen set their dogs on a band of sheep and chased them into a ravine where they were "piled" and sixty head killed before the herder could get them straightened out. Mr. Ely, one of the owners of the sheep, arrived in Pendleton yesterday for the purpose of securing aid from the authorities. He says he knows who the cattlemen were and it is believed that he has a strong case against them. No warrants have as yet been sworn out by Mr. Ely.

This is the first serious clash between the two stock interests to occur in this county this year. While there have been numerous reports of the slaughter of sheep and cattle in other counties, Umatilla has been peaceful and it was hoped that there would be amicable settlement of all disputes. But now that the war has broke out the authorities intend to put a stop to it if possible.—Pendleton Tribune.

Safeguard the Children.

Notwithstanding all that is done by boards of health and charitable inclined persons the death rate among small children is very high during the hot weather of the summer months in the large cities. There is not probably one case of bowel complaint in a hundred, however, that could not be cured by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. For sale by Slocum Drug Co.

Cloudburst at Mitchell.

One third of the town of Mitchell, in Wheeler county, was destroyed by a flood 25 feet high, which poured down the narrow canyons of Bridge and Mill creeks at 6 o'clock Monday evening, and which was caused by a tremendous waterspout at the headwaters of these two streams.

Martin Smith and a woman named Mrs. Bethune, both aged people of about 90, were drowned. The remaining inhabitants of the flooded district were barely able to escape the flood.

Twenty-eight buildings, located in the canyon bottom directly in the flood's path, were completely wiped out by the wall of water. Three of the buildings flooded out were business blocks, the remainder being residences. Mitchell is a town of about 200 inhabitants.

Judge A. B. Parker of New York, was unanimously nominated by the democratic convention at St. Louis for president. Senator H. G. Davis, of West Virginia, was nominated for vice-president.

One Lady's Recommendation Sold Fifty Boxes of Chamberlain's Stomach and Liver Tablets

I have, I believe, sold fifty boxes of Chamberlain's Stomach and Liver Tablets on the recommendation of one lady here, who first bought a box of them about a year ago. She never tires of telling her neighbors and friends about the good qualities of these tablets.

—P. M. Shore, Druggist, Rochester, Ind. The pleasant purgative effect of these tablets makes them a favorite with ladies everywhere. For sale by Slocum Drug Company.
