"Your objection reminds me of the objection a lawyer once made to a judge's sentence. This judge had given a prisoner, convicted of second degree murder, thirty years' solitary confinement, whereupon the lawyer cried old man's high-born courage.

"DEAR MRS. PINEHAM : - Four years ago I was nearly dead with inflamma-tion and ulceration. I endured daily untold agony, and life was a burden to me. I had used medicines and washes internally and externally until I made up my mind that there was no relief for me. Calling at the home of a friend, I noticed a bottle of Lydia E. Pinkham's Vegetable Com-pound. My friend endorsed it highly, and I decided to give it a trial to see if it would help me. It took patience it would belp me. It took patience and perseverence for I was in bad con-dition, and I used Lydia E. Malaria is all the more dangerous because of its insidious and stealthy nature. It is an invisible atmospheric poison, and the germs and microbes that are lodged in the blood are propagating and increasing in number all the while, clogging the circulation and gradually wrecking the health.

What is needed in Malarial troubles is a blood purifier and tonic. S. S. S. purifies the germ-infected blood, tones up the stomach, improves the appetite and invigorates the entire system. It stimulates the torpid, sluggish organs of the body, enabling them

to properly perform their functions and carry off the poisonous secretions and health-destroying matter that have been polluting the blood and clogging the circulation. S. S.
