Mr. McMillan stated that wheat was pouring into the Lexington warehouse quite rapidly and that considerable of it is being offered for sale. The price being paid is 68 cents for No. 1 club, and 75 cents for bluestem.

J. R. Nunamaker received last Thursday three fine Rambouillet bucks from the Baldwin sheep ranch in Crook county. Mr. Nunamaker adds new blood to his flocks each year, and the result is proving very satisfactory. The wool clip from his lambs the past season brought him more money than he could have sold the sheep for.

W. O. Minor tells us that he discovered the other day, near the head of Rhea creek, a patch of five acres of the genuine wild blackberry, of the Willamette valley variety. It has been the general supposition that there are no wild blackberries in Eastern Oregon, but this find by Mr. Minor would indicate that the berry may yet become a common product of this section.

F. M. Parker and his brother C. C., of Lexington, were visitors in Heppner this week. F. M. says his wheat crop averaged him 23 bushels per acre. He has been engaged running a threshing machine the past month and reports that every farmer he has threshed for has had to get more sacks than he expected, which is proof that the wheat yield is much better than was anticipated. Some idea of the magnitude of the crop this season can be gathered from the fact that, Mr. Parker says, he has already been threshing 30 days in the same territory that he finished up last year in nineteen days, and that it will require 30 days more to complete the work in the same district.

N. R. McVay recently sold his Gooseberry ranch to a Sherman county farmer. He will give possession November 1, when he will move to Klickitat county, Wash., to reside permanently.

Henry Blackman returned Monday evening from a two week visit in Portland. He reports a very smoky city just now, owing to the numerous forest fires in the surrounding country.

Peter Brenner, who is operating a threshing machine in the Eight Mile country, stated to The Times yesterday that most of the wheat in that section is averaging about 25 bushels to the acre.

N. R. McVay brought Mrs. McVay in from Gooseberry last Friday and Saturday she underwent a delicate surgical operation. Drs. Higgs and Kistner performed the operation, which was quite successful.

J. P. Williams, the newly appointed U. S. Commissioner, has new and up-to-date plats of Morrow county. Anyone making a homestead entry or proof or other land business should not fail to call upon him.

The regular meeting of Rawlins Relief Corps No. 23, will be held in the Masonic hall on Saturday, Sept. 17, at 2:30 o'clock. All members requested to be present. Bertha D. Gilman, Pres; Mattie T. Smead, Sec'y.

The Heppner flouring mill is now running full time, enough wheat having come in last week to start the mill up in good shape. Wheat is coming in very rapidly this week to the mill and warehouses and there will be no occasion for any delays at the mill for want of grain.

Mrs. Harry Davis of The Dalles, and Mrs. Fred Crawford and two daughters, Delta and Annabelle, of Pendleton, are the guests of their parents, Mr. and Mrs. A. J. Stevenson, of this city, and will remain several days visiting friends. Mrs. Cohn ships direct from the East and has the agency for San Francisco's leading millinery house. Miss B. Collier, after a few weeks with the Portland house, has charge of work room.

He first took his son Lawrence to Portland for treatment of his eyes, which were affected by an attack of neuralgia contracted during his stay in the mountains, but the physician informed Mr Shutt that the boys eyes would soon return to their normal condition. After the treatment Lawrence was taken to Salem where he again entered the blind school for the coming year.

It is reported here that a steam threshing machine was burned in the lower Eight Mile country Sunday, but stories conflict as to the owner of the machine. Some say it was W. S. Connor's and others that it was the Anderson machine. The origin of the fire is supposed to be from smut.

Accidentally Killed

Ed. Pedigo was accidentally killed last Sunday while engaged in hauling water for a threshing machine on Eight Mile last Sunday. He was alone at the time of the accident, but it is supposed the team shied and jumped to the side of the road which caused Pedigo to lose his balance and fall beneath the moving wagon, both wheels of which passed over his hips and crushed them. He was taken to Lone, but lived only three hours after the accident. The funeral was held Tuesday and the remains buried in the Hardman cemetery.
