MORROW SHIPMENTS

Of Livestock, Grain and Wool.

THEIR VALUE \$1,852,000

These Figures are Based Upon Actual Shipments from Various Points of County.

The Morrow County Land & Trust company, F. P. Farnsworth manager, issued on election day, the following statement as to the shipment of livestock, wool and wheat from Morrow county during the past nine months, ending November 1:

Cattle, 2500 head; hogs, 1800 head; sheep, 100,000 head; wheat, 1,600,000 bushels; wool, 3,000,000 pounds. The total value of these products is placed at \$1,852,000. The number of acres of land in the county is 1,313,280, which sells for \$15 to \$20 an acre. All this in a county with not more than 5000 people.

This statement, which is printed on a card, will be tacked on every car leaving Heppner the remainder of the year.

This is indeed a very good showing for our county, and we doubt if any other county in the country can equal it. It shows \$370.50 for every inhabitant of Morrow county for the products of one season.

COUNTY CLERK'S REPORT

On Construction of Morrow County Court House.

No comprehensive statement of the building of the new court house of Morrow county having been heretofore published, and believing it to be due to the taxpayers of the county to know exactly what the same has cost them, or will have cost them, when paying for the structure is completed, I have prepared from my records the following detailed statement, which shows the amount of warrants issued on account of building the house. In preparing this statement I have had in view the fact of putting everything into it that occurred as an item of expense in connection with the construction, hence it may appear that some of the items did not have to do with the building of the house proper, but they were incurred, nevertheless, on account thereof.

In this statement, the first table is the contracts, and the amounts thereof, as awarded by the county court, and cover only the construction of the building proper, and is as follows:

Frank Duprat, stone work... \$21,070 50
R. C. Wills, carpenter work, plastering, painting, etc... 14,008 50
J. E. Davis, steel vault and jail doors, bars and fixtures 500 00
Pacific Electric Co., wiring... 149 00
Gilliam & Bisbee, plumbing... 829 00
Gardiner & Kendall, stn heat... 1,990 00
Art Metal Construction Co., steel vault fixtures... 1,687 00
Total... \$41,434 00

Upon the completion of the work, the contractors were found to have been paid the following sums:

Frank Duprat... \$21,477 69
R. C. Wills... 15,177 14
J. E. Davis... 450 74
Pacific Electric Co... 149 00
Gilliam & Bisbee... 825 00
Gardiner & Kendall... 2,030 00
Art Metal Construction Co... 1,626 06
Total... \$41,725 63

The following items are classed under the head of miscellaneous, as no contracts were filed for the work done, although in most instances the work was done at an agreed price between the parties and the court, while no signed agreements were entered into:

T. C. Taylor, cement used in construction of retaining wall walks, steps, floor of basement... 693 10

THE HEPPNER GROUP

Mines the Best in Greenhorn District.

ASSAY HIGH AS \$1000 TON

Quartz Mill Will Be Installed Next Spring—The Heppner Stockholders Pleased.

D. B. Stalter and W. M. Loosen returned Saturday from the Greenhorn mining district, where they have been working on the Heppner group during the past summer and fall. Mr. Stalter informed The Times that he had closed down the mines for the winter after a successful season's work.

A great portion of the work the past summer was done on the Illinois claim, which is conceded to be the best mine in the district. It has a pay streak of fifteen inches that assays \$1000 to the ton, which is a higher average than that of any other mine in the Greenhorn district. This pay streak is a very recent discovery, made in cutting ore chute.

Mr. Stalter says the first thing done in the spring will be the installing of a quartz mill to treat this rich ore, which is free-milling, and he has no doubt of a big run next season. He is very much encouraged with developments the past few months and is confident he has the best mine in the district, which is also encouraging to Heppner people, who hold about the entire stock of the fifteen claims composing the Heppner group.

These mines are now past the experimental stage, and it is only a matter of time until they will be developed into valuable properties.
