MINOR & CO.

Harry Cummings is doing some good work in collecting exhibits for the Lewis and Clark fair. Last week he brought in some very fine beets and potatoes from his ranch near Hardman. These added to his fruits, berry and other vegetable exhibits make quite a formidable collection already. Harry is a rustler and there is no doubt but what he will get together an exhibit that will be a credit to Morrow county.

John F. Spray, who is in town this week from Spray, reports that the contract for the construction of a bridge across the John Day river at Spray has been let, and that construction work has been commenced. The steel part of the structure has been ordered from San Francisco and is expected to arrive in Heppner at any time. The piling and lumber are now being put on the ground as rapidly as possible.

R. F. Hynd, who has been visiting the past four months with his parents in Scotland, returned last week, but Mrs. Hynd stopped over in Washington a few days to visit with friends. Mr. Hynd expects to reside in Portland during the winter, but will return to Heppner next spring to make his permanent home. Since returning Mr. Hynd has been kept busy receiving congratulatory letters from his friends upon his recent marriage to Miss Brown while in Scotland.

G. W. Smith, a former resident of Morrow county, now of Walla Walla, is here this week completing a transfer of his ranch, which is situated near Lexington, to Sheriff E. M. Shutt, to whom he has sold for \$2000 a quarter section. There are three quarter sections in this tract, and we understand Mr. Shutt has also purchased the R. J. Hill ranch adjoining the Smith place. There are three quarter sections in this tract, making six quarters in all Mr. Shutt has bought.

Geo. W. Turner, who was in Heppner last Friday, informs the Times that he had recently sold his ranch north of Lexington, consisting of seven quarter sections, to a Sherman county man for a consideration of \$2000 a quarter, or \$14,000 for the entire tract of 1120 acres. The sale of this land at the price named is a good illustration of the rapid increase of land values in Morrow county. Five years ago he bought this land for \$2,240, which was \$320 a quarter section. This makes a clear gain of \$1680 a quarter in five years. Mr. Turner says wheat in that locality averaged about twenty bushels an acre, mostly first grad wheat. He says fall seeding is well along, and

the earlier sowing on summerfallow is up and growing nicely. Mr. Turner, who has been suffering considerably of late with rheumatism, left by Saturday morning's train for the St. Martin warm springs for the benefit of his health.

The county has been more thoroughly advertised the past few months than ever before, and there will doubtless be buyers in the field soon. The Times has made arrangements whereby we expect to be able to handle considerable prop-

erty right along. So if you have property to sell it will be to your advantage to call and list now. Remember it costs you nothing if no sale is made.

DEDICATED

To Frank's Mother by his friend, G. W. Rea.

As I sat at my window and silently slept, I dreamed that the world with sorrow wept; I wondered why, and my dream went on. And as I dreamed, I learned the cause— Frank was gone.

I awoke, and found my dream was true; Frank was dead; That though young in life, he had broken the thread, And they took him to his final rest, and left him there, Away from his wife, home and mother's care.

Now mother, don't weep, I heard him say As I dreamed again, You'll see me some day Where sorrow is banished, and joy is supreme— And then it all ended; I awoke from my dream.
