TWO BILLION DOLLARS IN BUSINESS

OCTOBER "BOOM" COMES IN LATE

Light Tax Burden Remains in Ore-
gon—Consequences of Officers.

Two billion dollars in business—45
per cent of all Federal taxes and 30
per cent of all state taxes—was
the annual business volume of the
State of Oregon in the last year, ac-
nounced by Commissioner of Taxes
Cooper at a press conference in the
lobby of the Oregon Building at
Portland. The figures were given by
Commissioner Cooper for the fiscal
year ending June 30. They were an
increase of $175,000,000 over the
1930 figures, and a decrease of
$25,000,000 from the 1929 figures.

The main item in the figures, ac-
cording to Commissioner Cooper,
was the amount of business done in
the State. The State of Oregon is a
large business territory, with a large
amount of business done within its
borders, and the population of the
State is so large that a great deal of
business is done in the State of Ore-
gron. The figures also showed that
the amount of business done in the
State of Oregon was increasing at a
rapid rate, and that the population of
the State was increasing at a very
rapid rate. The figures also showed
that the amount of business done in
the State of Oregon was increasing
at a much faster rate than the popu-
lation of the State. The figures also
showed that the amount of business
done in the State of Oregon was in-
creasing at a much faster rate than
the population of the State. The fig-
ures also showed that the amount of
business done in the State of Ore-
gron was increasing at a much faster
rate than the population of the State.
