Young entered into an agreement with this convention to remove from Illlaois. The removal began in February, 1846. In 1847 the Mormons, under the lendership of Young, effected a settlement in Utah, which was then under the jurisdiction of Mexico, but was ceded to the United States the following year.

THE BEORGANIZED CHURCH. Joseph Smith's widow, his brother, William Smith, John E. Page, Lyman Wright, William Marks, and a very large majority of others, had refused to subscribe to some of the new dogmas promulgated by Young or to give allegiance to his authority. At the time of the removal from Nauvoo, this large majority did not go to Utah, but remained in various parts of the United States, the Canadas and in foreign lands, but principally in Illinois, Iowa and

MYSTERIOUS FATALITIES. - MANAGER T What is it That is Killing so many Prominent Men?

The death of Kaiser Wilhelm, ex-Gov. Hoffman, Banker J. W. Drexel, Lieut-Gov. Dorsheimer, Dr. Carponter, Chief Justice Waite and Genl. B. H. Brewster, in quick succession, and all from the same cause, although having different names, is startly.

names, is startling.

March and April are fatal months, no only for consumptives but also for many diseases more disguised but none the less fatal

diseases more disguised but none the less fatal.

Gov. Hoffman had heart disease, Gov. Dorsheimer, apparently a strong, well, robust man, over six feet high, sickens and dies in four days, of pneumonia.

Chief Justice Waite meets the same fate and he was apparently the personification of vigor.

Drexel, the Pailadelphia banker, and Brewster, Ex-Atty. Genl., were suddenly cut off in the midst of great usefulness, by Bright's disease, and Dr. Carpenter, the well-known New York physician, suddenly died of Kadney disease, neer having suspected that he was at all troubled therewith!

This reminds us of the case of Dr. Frank Hawthorn, of New Orleans. He was lecturing before the Louisiana university on the paculiarly deceptive character of Kidney disease and the methods of microscopical and chemical tests.

of microscopical and chemical tests.

After having shown specimen after
specimen of diseased fluids, and made repeatmen of meased muos, and made very clear the point that kidney disease may exist without the knowledge or suspicion of the patient or practitioner, with gracious self-confidence he re-marked, "Now, gentlemen, let me show you the healthy water of a strong, wel. man."

He applies the test!
He staggers!
"Gentlemen, I have made a terrible discovery!" he gasps, "I myself have the fatal Bright's disease!" In less than a year this specialist of the commonest and most fatal of dis-cases was dead. He was a victim of advanced Kidney disease the presence of which in himself he had never sus-

pecter:

L. B. PRICE, M. D., a gentleman and physician of the highest standing of Hanover C. H., Va., four years acc, after trying every other remedy for bright's disease, including famous mineral waters, cured himself by Warner's Safe Cure, and March 24, 1988, wrote: "I have never had the slightest symptoms of my old and fearful trouble."

1828, wrote: "I have never had the slightest symptons of my cild and fearful trouble." MR. JOHN DOHDERTY, of Comcord, N. H., was given up with Erights disease by the best physicians in 1879. He was in a dreadful state. After using and being cured in 1881 by Warmer's Safe Cure, in 1887, he wrote: "I am better than ever."
JOHN COLEMAN, Esq., 100 Gregory St., New Haven, Com., was first taken sick in 1873, gradually ran down until he had presourced Bright's disease, rheumatian are all the other deceptive signs of kidney disease. The best physicians in New Haven could do nothing for him. He then began using Warner's Safe Cure, 200 bottles of which he and his family have used and he is cured.

which he and his fandly have used and he is cured.

W. T. CRAWFORD, proprietor St. Charles Hetal, Richmond, Va., and well known all through the South, several years ago was in the death-agony from kidney disease, convulsions and bright's disease. The best Philadelphia specialitis in such disease pronounced him practically dead and incurable. Everything else fulling, he took Warner's Safe Core abundantly and regularly, untifully restored to health, and now he says, "After a lapse of many years I am as sound as a dollar, with no symptoms of my old trouble. I owe my hits to Warner's Safe Cure."

Kidney disease is the most deceptive.

· Kidney disease is the most deceptive the most universal, the most fatal dis-

If the most learned men cannot know without the use of microscopical and chemical tests that they have kidney disease, how much more liable is the lay man to be, unknown to himself, in the very jaws of death, who does not leel as well as formerly, but who does not think anything specially alls him, and whose

snything specially and him, and whose physician may assure him that he will soon be "all right."

In these days, people recognize that it is wiser to prevent disease than to await its arrival to cure it. When you know that you may be in the greatest peril and not have any idea of the fact from any defined set of ill-feelings, the wisest course to pursue is to follow the counsel and experience above outlined, and thoroughly renovate the system. and thoroughly renovate the system cleanse the blood, tone the nerves and insure your own life against these common, myste lous fatalities.
