

COUNTY SCRIP.—For the next 30 days Minor, Dodson & Co. will pay 90 cents in cash for Morrow county scrip.

BRING ON YOUR SCRIP.—C. M. Mallory at the city drug store is paying the highest market price in cash for Morrow county scrip.

A BRILLIANT EXCEPTION.—As rustlers Shaver & Walker take the cake. They "got there" in a way which is an exception to the slow-going old timers of Oregon. Their 1888 catalogue of machinery, vehicles, etc., is the biggest thing in the catalogue line ever produced this side of the Rockies, and was ready to get into the hands of the public before the other catalogues were out. The cover is bright and striking without being cheap-looking or flashy, and the 164 pages which make up the interior show at a glance to the experienced eye that an infinity of pains and labor has been bestowed upon the setting of the type, the display of the headings and the arrangement of the hundreds of cuts. We have "been there" ourselves, and know whereof we speak. Take it for all in all, this book is a fine piece of workmanship, and as a guide to where and how to get the best and latest improved machinery and vehicles of all kinds it is simply invaluable to those who intend investing in anything of the kind. As a rule, that sort of thing is worth nothing, but every rule has its exceptions, and that the catalogue of Shaver & Walker is one of those rare exceptions to an almost invariable rule can be proved with little difficulty. All you have to do is to apply to J. M. Heppner of this place, or drop a line to Storer & Walker, Newmarket Block, Portland, Oregon, and you will receive by return mail a handsomely gotten up, carefully edited, well printed volume, containing with pictures, free, gratis, for nothing.

TOO STOUT FOR THEM.—It is a well-known fact that Doc Seaburn and those who are among our well-to-do citizens, Doc has been one of our city dads ever since the town was first incorporated, and during that time he has fallen a hand in framing laws good and stout for the little law-abiding citizens of this town. He has a great deal of pride in his work, and he is willing to go into the graveyard business on their own account, and other equally naughty things. But Doc, and Tom have found that those who are equally stout enough for them, for a week ago last Wednesday night they caused the devil to peel forth, and filled the air with sky rockets and other fireworks in direct opposition to one of Doc's ordinances, in which he forgot to make any hole for conmission and their friends to crawl out. Recorder Hallock looked over the matter, and thought that 223 acres of Doc's land was worth the fun, considering that the boys would not had put up for the powder and fireworks.

CLUMP BEARS.—The clouds rolled up black as ink last Saturday and gave evidence of a heavy rain. Although it did not rain hard in Heppner, it amounted to a cloud-burst here, taking off Henry Pennington's house, which was stacked up at his ranch, and Cassin Egan's house in Lexington. The railroads got their supplies soaked at the camp down below Kinsey's and two men who were endeavoring to get their horses out of the water, had a narrow escape from drowning. The grade is reported damaged, but we learn not to any great extent. Considerable damage was done near the forks of Sand Hollow. E. N. Saling had fifty acres of wheat completely demolished, besides heavy loss in garden, fencing, etc. R. W. Turner also lost very heavily. George Sperry, living at the forks, lost almost everything that was loose around the ranch, among other things a large quantity of well-cured bacon. Some of the pieces were piled up near Alpin.

CHILDREN'S DAY.—The programme at the Methodist church last Sunday was very nicely arranged and carried out to the letter. Great credit is due to all who lent a helping hand, either in the way of music, recitations, decorations or otherwise. The church presented a beautiful appearance, the air was loaded with the perfume of flowers, while forty or fifty birds seemed to vie with each other in their melody. The flowers and evergreens were tastefully arranged on the pulpit and walls. Appropriate motions were placed in plain letters across the church on either wall, and altogether the place suggested to one what it really was—a children's holiday—and the bright faces of more than a hundred little tots gave proof that the affair was a complete success.

COLD LEAD.—Doc Matlock and Al Larkin became involved in a quarrel last Monday evening and although Larkin was on crutches from the hurt he received last week, he agreed with Matlock to fight it out and skull. Larkin had barely struck the first blow when Matlock drew a pistol, of the Bulldog pattern, 44 cal., and fired three shots, one taking effect in the right side of Larkin's neck, just above the collar bone, and barely missing the large artery, and coming out a little above the shoulder blade. The wound is not considered dangerous, but is a close call. Matlock was arrested and fined for violation of the city ordinance, but no complaint being made against him, he was allowed to go without further molestation.

A MYSTERIOUS FIND.—Early last spring a sheepherder discovered a skeleton in a wash-out in a canyon near McKinney creek, four miles north of Hardman. Part of the bones have been washed away, and it is almost impossible to tell whether the remains are of an Indian or a white man. They were evidently not buried by friends, being only about a foot under ground, and had been disabled up to crowd them into the narrow grave, which looks to be an old badger hole. The bones are in an excellent state of preservation, but how they came there in that condition remains a mystery.

NEWTON RANCH ITEMS.—W. B. Cunningham shot on the rim-rocks below his home ranch, in Clark's canyon, a female lynx, measuring 3 ft. 4 in. from tip of nose to tip of tail. They succeeded in killing one of her kittens at the same time. About a week ago, Richmond Barclay killed a rattlesnake in his house 40 in. long, with 7 rattles. J. M. Warden got his black bear, which he advertised in the Gazette recently. It pays to advertise lost horses every time. Three mowers are at work cutting rye on the Newton ranch.

MARRIAGE.—At the residence of the bride, on Sunday, June 10, Mr. E. Whittier to Miss Alice Shelton, Rev. Beach performing the nuptial rites. No one in the Heppner country is better known or more universally respected than Ed, and in this step the Gazette force join the community in wishing the young couple a long, happy life.

The daily E. O. will suspend if it does not receive more patronage, as they claim they have been losing \$200 per month on the sheet since it was started. Pendleton ought to be able to support a good daily like the E. O.

It was generally supposed that after the county election, political matters would quiet down a little, but now since the democratic national convention has made its choice of candidates, matters of the kind are being agitated as much as ever.
The First Presbyterian church, of Heppner, was organized at a meeting held in the Baptist church of Heppner, on last Monday evening, by Rev. Thos. M. Gunn, of Walla Walla. Rev. R. F. Resoner was elected, ordained and installed as pastor.

BADLY BRUISED.—As W. P. Casey was coming from Harrington's pasture last Sunday, the stubborn cayuse that he was riding bareback, took a notion to back, and as he was on the hillside soon succeeded in making Mr. Casey over his head, striking on his face, knocking him senseless for a time, and bruising his face severely.

THE LATEST.—Smith's camp and grade was damaged about \$1000. Two men saw the following bills were carried about a mile down the creek in the current and the other was compelled to remain up a tree for two hours. Henry Tanland had 39 sacks of wool washed away, nearly all of which will be recovered in a damaged condition.

LAND BREAKERS.—Come to the Gazette shop and have your proving up started by a sheet that wishes you prosperity regardless of your religious, political, etc. proclivities. The clerk and judge live right here at Heppner, and it is altogether more convenient. Billy Morrow is ready to take your filings, and will do the business in first-class shape.

NEW SETTLERS.—Since the Golden-dale fire, 17 families have settled up on the head of Ditch creek, Susannahville swamp and Hile prairie, and are plowing up the soil with a view of making homes over there. Harry Phillips has a ranch in that section and likes his location very much.

GET THE WRONG COLL.—George Barger was arrested last Thursday, at Menemont, for picking up one of Sam Smith's coll. Barger says that it was taken by mistake, which is no doubt the case, as he is a large stock man, and has a great many horses in that section of country.

MARION HARLAND.—The celebrated authoress, so highly esteemed by the women of America, says on pages 103 and 145 of her popular work "Five Daughters," "I cannot say for 'Head Wife and Mother.'" "For the aching back—should it be slow in recovering its normal strength—an Altheuff's Porous Plaster is an excellent comforter, combining the sensation of a sun-bath, with a strong warm hand with certain tonic qualities developed in the wearing. It should be kept over the seat of uneasiness for several days—in substitute cases, for perhaps a fortnight." "For pain in the neck, wear Altheuff's Porous Plaster constantly, renewing as it wears off. This is an invaluable support when the weight of the small of the back becomes heavy and the aching incessant."

A Stub in the Dark.—Sometimes falls of his murderous intent. The medicinal and lastly, at lacka made upon the reputation of Hostetter's Stomach Bitters by persons who seek to palm off cheap and fly tonics as identical with it, or "the same thing under another name," or "equally as good." In most instances, these cheaply prepared and unprincipled traders upon popular credulity who attempt them, converting their speculations into ruinous failures. The Bitters is a pure, wholesome and thorough medicine, adapted to the total cure and prevention of fever and ague, bilious remittent, dyspepsia, constipation, biliousness, debility, nervousness and kidney troubles. Its every ingredient, unlike those of the imitations of it, is of an ascertained standard of excellence, and while they, by reason of their fiery properties, react injuriously upon the brain and nervous system, of both those organs it sedative and invigorant. Refuse all these harmful imitations.
