GERMAN SINGING BIRDS.—In Germany and other countries of Europe there are many singing birds, beautiful in plumage and musical in song, that are not native to America.

Among these are the nightingale, song thrush, bullfinch, skylark and others. A year ago a movement was made by citizens of Portland to import a thousand of these birds into Oregon, with the expectation that they would rapidly increase in numbers and become as plentiful as the native birds. They will arrive in May, and will be turned loose in and near the city.

The mocking bird, bob-o-link and red bird are also to be taken to Oregon from the southern states. The mild climate of Oregon will no doubt be appreciated by what The West Shore Magazine calls "Our Feathered Immigrants," which is the title of a large and supple and accompanying the magazine for March. This is an elegant piece of artistic printing in color, and shows these birds, six or seven distinct kinds, in their natural colors. Every lover of birds will be charmed with this beautiful engraving. The number also contains a description of them, as well as engravings and descriptions of Northern Yalows, Washington and Kaitiner and St. Helens, Oregon, and much other interesting and valuable information about the Pacific northwest. Price, \$2.50 a year, 25 cents a copy. Address: L. S. Sams, publisher, Portland, Oregon.

Some Fox.—Bud Willingham made some fun on last Monday in the vicinity of the Gazette's shop while riding a wild-eyed cayuse. As a rule, a horse will at least get away from the thrills of the road, but this was an exceptional case, the animal evidently making entirely different calculations from his rider, and Bud was landed judiciously into the middle of the street. The w. c. had hardly struck soil till he was piled up, and Bud was in the saddle before he could right himself for more serious business. It was exciting and drew a larger crowd than a street preacher. Bud still maintains the ability to break in the best of them, which he is no doubt able to do, as the most accomplished "Vaquero" gets thrown off occasionally.

FROM OVER THE BLUES.—From over the mountains some encouraging reports. W. M. Radio dropped into the Gazette office on last Friday and gave the shop considerable information concerning that large country. Mr. Radio has several bands of sheep, and will bring his clip to Heppner for sale or shipment, and also expresses himself as satisfied that the present rate will be a profitable one for Heppner, much of which has hitherto gone to The Dalles to be sold or sent to other markets. He corroborates the reports of general prosperity over his way, and gave us the impression that a greater trade is being naturally diverted to Heppner than even the business men and residents imagine. Mr. Radio is expected to his tract county possessions on Saturday.

IGNORANT ISOLATION.—A daily mail service between Heppner and Canyon City is proving itself a necessity. Only a short time ago, it was a doubtful case with the post-office department whether or not a tri-weekly was needed, but now that the interests of a large and prosperous section, are having direct and speedy communication with the outside world, it develops the fact that these people have been ignorantly isolated to a much greater extent than perhaps they ever realized before. As the Gazette has often asserted would be the result, good mail facilities between Heppner and Canyon are making business for Uncle Sam as well as assisting to develop a great country.

WILL LOCATE AT SILVER LAKE.—Rev. R. E. Beason, pastor of the Presbyterian church here, preached his farewell sermon to a large audience on last Sunday evening. Mr. Beason leaves this week for Arlington, where he will visit for a few days, after which he will attend Presbytery at Summerville, Or., and Chualar, W. T. He will locate at Silver Lake, W. T., in a few weeks, and will remain for a time. Mr. Beason has been in Heppner for the past year, and has made many friends in the community.

CONSUMPTION SUICIDE CURE.—To the editor: Please inform your readers that I have a positive remedy for the above named disease.
