

THE GAZETTE.

HEPPNER THURSDAY, May 16, '89.

Local and General.

RAILROAD TIME TABLE.

Table with columns for Eastward and Westward routes, listing stations like Heppner, Lexington, and Willamette Junction.

CANYON AND INTERMEDIATE POINTS.

Stage leaves for Canyon City—Mondays, Wednesdays and Fridays. Arrives—Tuesdays, Thursdays and Saturdays.

There is a saving of 16 hours in time and \$10 in cash by taking this route to Canyon.

C. W. Lomax & Co., 429, Fifth St., Portland, Or., are authorized to make advertising contracts for the GAZETTE.

Geo. Fell is now operator at Arlington. Coffin & McFarland have a new ad. in this issue.

J. H. Piper, of Alpine, was in town Saturday. Andrew Road was over from Road Canyon last Monday.

Dick Howard is enjoying Heppner's hospitality a few days. J. F. Spray advertises feed, wood and lumber. See his new ad.

Mr. and Mrs. Wm. Mitchell visited their son Oscar this week. Cornish & Jaynes, of Arlington, have a business card on first page.

Frank Doss, of Ella, has struck a world of water at a depth of 40 feet. Gilliam county commissioner's court adjourned for the term on last Friday.

Frank Ricks, with Gene Gilliam, of Haystack, was over the first of the week. The new time table will be in effect on the Willow creek branch last Monday.

A. B. Cochran, of lower Willow creek, has rented his place and horses to Frank Cecil. Mr. Hendricks, of the Hardman firm of Hendricks & Woolery, was in town last Monday.

W. L. Russell, of Walks Walla, is buying horses for cavalry purpose in this section. J. B. Sperry is preparing to put in steam power in his large roller mills at this place.

J. E. Friel, of Arlington's First National Bank, came up to Heppner on last Tuesday. M. B. Foster, of Hood River, is assisting in the erection of Frank McFarland's dwelling.

Thad. Armstrong and son, of Alpine, are busy this week hauling A. B. Mackey's wool to Heppner. Tom Quaid has been receiving recent purchases of sheep in the Condon country for the past three weeks.

A. B. Mackey was in Heppner last week. He lost 150 head of shorn sheep in the storm of two weeks ago. Fred J. Hallock has accepted a position with the well-known agricultural firm of Stacey & Walker.

Some of our Heppner merchants are advertising in the neighboring sheet, the Eagle. It is money well spent. H. F. Reiminger has decided to sell his ranch near Hardman. It consists of 480 acres, and is a fine piece of land.

Lisa Sperry sold 23 head of geldings on the 7th inst., at \$70 per head to Smith, the street car horse contractor. Geo. Shippey and family, of Cecil precinct, left for their new home at Netart's Bay, in the Tillamook county, Tuesday last.

The Heppner hills abound with good stock horses. Our people are beginning to understand the necessity of raising good horses. A letter from Frank H. Ross, of Leroy, Iowa, formerly a Heppner boy, states that the crop outlook for his section of Iowa is the most favorable.

Amos Stockley of Portland, is in the Heppner hills buying heavy horses for that market. He bought a span from Bill Dutton for \$300. A "zebyr" visited Heppner last Sunday to the disgust of church-going folks, and Billings "monied" with soil from the original Heppner hills.

H. Blackman, of H. Blackman & Co., bought the first lot of wool of J. S. Jones. Terms not known. Mrs. Chas. Goldstone's son, of San Francisco, Cal., sister and nephew of Mrs. Henry Blackman, Henry and Phil. Heppner, are here on a visit.

Mr. Salling, a prominent stockman of the Haystack valley, took out a load of supplies last Sunday from Heppner's merchandising establishments. Will Houston is up from Junction City on a visit and business trip. Will seems like one of us, although he has been absent for some months.

L. M. Oviatt says Wm. Ellis, of Ella, was in Heppner last Friday. They have in respectively, 270 and 500 acres of wheat, all in the best condition. The GAZETTE job department is prepared to neatly print and bind all pamphlet work. Get our figures before sending your work and money out of the colony.

Major C. L. Sweeney is having his 1500 sheep shorn by the celebrated New Zealand crew, consisting of J. Wickham, Wm. Ball, S. V. Cochran and C. L. Cason. Geo. Brown, of Parker & Gleason's saw-mill, will leave for the east in a few weeks with three carloads of lumber. Wm. Mallory will also make a shipment of horses at that time.

On last Monday, a little son of R. C. Willis, five or six years of age, fell off a horse at Lone, breaking his arm. He was taken to Lexington where the injured member received treatment. Owen French came over from Camas prairie last Sunday. He is well pleased with the crop prospect in his section. Mr. French informs us he will take back 120 head of cattle to summer range.

Deer are quite numerous in Camas this summer. Mr. Owen French stood in his front door and killed a large buck on last Saturday afternoon, and Owen lives in a thickly settled section, too. There is quite an emigration to Camas this spring. Several families have come out there and others are coming in. All of Eastern Oregon seems to be enjoying a growth this spring—Morrow county receiving her share of the immigrants.

The enterprising people of Josephine county, and particularly of Grants Pass, have gotten up a descriptive pamphlet of their section. Staid and slow-going committees should follow their example if they wish to secure the cream of the immigration. Prof. F. S. Hafford's lecture and eloquent entertainment, which was given at the M. E. church on Tuesday evening, was one to be recommended, although it was not so largely attended as it might have been, every one seemed greatly interested in the selections which he rendered.

The GAZETTE is now a steam concern, and is better prepared than ever in all of its departments. A performer for check, draft and receipt work has recently been added to the job department. In fact the GAZETTE job office is prepared to print anything from a full sheet poster to a visiting card.

DEALINGS IN MORROW COUNTY SOIL.

U. S. to Jas. P. Hamilton, 160 acres. Consideration \$900. A. A. Crawford to Arthur Coffin and Frank McFarland, house and lot in Heppner. Consideration \$1,200.

A. A. Crawford to W. A. Ayers, 160 acres. Consideration \$1,200. U. S. to Joe McKenzie, 160 acres. Consideration \$12,000.

Sanford O. Mills and wife to John H. Cochran, 160 acres. Consideration \$800. Jas. P. Hamilton to Alonzo M. Mackham, 160 acres. Consideration \$650.

U. S. to J. H. Holes, patent to 100 acres. U. S. to Jacob Shaner, patent to 100 acres. Anson E. Wright, patent to 160 acres. Riley R. Farrier, patent to 160 acres.

John Skogland to Harvey C. Kush, 160 acres. Consideration \$850. U. S. to Pascal E. Hamilton, 160 acres. Consideration \$600.

U. S. to John Skogland, 160 acres. Consideration \$1,200. Henry J. Knapp to Joseph Mason, 160 acres. Consideration \$16,000.

U. S. to B. N. French, 160 acres. Consideration \$1,200. Walter M. Dougherty and wife to M. Resler, 160 acres. Consideration \$1,200.

Heart Disease. Read the hospital reports, read the mortuary reports, read the medical newspapers, and learn how widespread is that disease, how difficult of detection it is to most people, how many and how sudden are the deaths it causes.

A good road to Lone Rock means that thousands of pounds of wool will come to Heppner for sale or to be shipped. Thunder showers of the eastern variety are being distributed over Morrow county this week, and the rancher continues to smile.

Al. Florence, of Upper Willow creek, dropped in to see our new outfit last Monday. Everything is very prosperous on the creek. Walker Fell writes home that he is located at Old Mission, Idaho. He likes his position with the O. R. & N. engineering corps.

Nearly all the mechanics in Heppner gave us assistance in getting our machinery in shape, or which we are under eternal obligations. Since the advent of the new railroad, stockmen who have hitherto traded at Pendleton and Echo, came to Heppner for their supplies.

Uncle A. Mallory took charge of the Heppner peddlery this morning and Mr. E. G. Sloan steps out after nearly four years hard service. El. Smith and Jas. McClurey, pugilistic gentlemen, were in town last week, giving an exhibition of fistic science at Matlock's hall last Thursday eve.

Wm. Gates, of Haystack, passed through Heppner this week on his way to attend the bedside of his father who is quite ill at his home in the valley. The Wadell-Loyle company showed at Messrs. Garrigues & Rogers opera house on last Thursday eve. They gave a good performance to a small house.

Some one of our citizens should circulate a subscription paper for funds with which to improve Bottomark canyon. We must do something, and now is the time. A sign in front of Coffin & McFarland's store, in this valley, where he will be, he had 3,000 pounds of freight to Long Creek. This speaks well for Heppner's trade.

Mrs. F. M. Kowitz returned from The Dalles on last Thursday. Mr. Kowitz is the large roller mill, where he will be, he had 3,000 pounds of freight to Long Creek. This speaks well for Heppner's trade.

Heppner people have done something for the Haystack road, and should now look after Bottomark canyon. It is quite essential to have a good thoroughfare to Lone Rock. A. A. Wren is down from Helix. He rented his ranch near Heppner last fall for \$200 cash. He has offered the renter \$100 for the crop, and will pay all expenses besides.

Will Morrow has 150 acres of wheat on his Sand Hollow ranch which stands knee high to a very tall man, and this is only a sample of the big crop in Morrow county. Pole Thompson's wagon, loaded with wool, broke down in front of the GAZETTE shop last Monday. The tire came off up beyond Lone Rock, and the fellows failed to sustain the great weight.

The Morrow corner is being cleaned up this week and presents an improved appearance. A three story brick that they properly would have the effect of making it still more attractive. Will Verkes' horse fell down with him last week while riding the range, bruising his left foot considerably. However, he is now able to get around without the aid of crutches.

Pendleton had a big fire on last Friday morning. This time the entire row of wooden buildings on Court street from the LADDO brick to Thompson street was consumed by the flames. A six-horse load of wool was brought into Heppner last Saturday from Hamilton by T. A. King and placed in the care of Coffin & McFarland. It is a small part of Seaborn Bros' clip.

Some dry cordwood will be taken on subscription at this office. If you have no cash with which to pay back subscription, remember that cordwood is still legal tender at the GAZETTE ranch. A petition is being circulated in the Heppner country for the purpose of inducing the postal authorities to put on a daily mail service between Heppner and Canyon City. We all need that convenience.

Quite a number of our friends appreciate the fact of requiring cash to buy oil for the machinery and pay hired help, and have paid up all arrearages on subscription, but a large majority are yet to hear from us. "Cord" is a liberal fellow and makes things lively when he strikes the village. Tohmsner & Devine, the cattle kings of Harney county, have sold their interests in that section and adjacent territory to Amour & Co., of St. Louis, the great packing company, for \$1,000,000. This firm will convert their Oregon beef into canned goods.

A normal institute, conducted by Supt. W. M. Pierce, of Umatilla county, and Prof. F. S. Hafford will be held at Milton, Umatilla county, commencing July 29 and closing Aug 29. This is a splendid opportunity for teachers to prepare for their work. Martin Sullivan, the crippled tailor who was employed by A. Abrahamzick until recently, got drunk at Arlington last week and was put in the lock-up. He obtained some matches, setting fire to the jail, burning himself so badly that he died in a short time. The Arlington tailor who was also in the "cooey," was not injured.

LONE ROCK LETTER.

LONE ROCK, OR., May 6, '89.

Editor Gazette:

Lots of rain and wind on the mountains and the mountains shrouded with the beautiful is the weather programme of today, and chilly showers interspersed with bursts of sunshine is about the summing up of the past week, though William Colwell, who is daily qualified as a United States weather sharp for the Lone Rock district might put it more technically. Billy is a genius in more respects than reporting weather, and is to Lone Rock what Edison is to the nation. His latest invention is a sheep hook calculated to hold without injury everything in the way of wool from the finest lamb to the coarsest buck.

Parson Swane's efforts to build a Methodist parsonage in the village have been so successful that the requisite coin, work and real estate have all been subscribed, and in a few months the building will be erected. The ungenerous and narrow minded people who were very enthusiastic about the parsonage scheme, fearing that it would be a squelcher upon the dances at Gayley Hall, but the experience on the Star says you would not expect to show that if a general crowd is drawn into the village a catch dance is tolerably certain to be the ultimate result.

The S. S. concert, by-the-by, was by far the best entertainment that was ever given in Lone Rock, not excepting the programmes rendered by the pro-tem troupe of local actors who in their mountain fastnesses, to Mesdames Nicklin and Henshaw are due all the executive glory, and every feature of the entertainment was creditable in the extreme.

Crops and grass were never better, and the lamb crop is ahead of any lambing since '76, when about all the ewes dropped. The lamb crop is estimated at 100,000 lambs the first rainy night, and as far as I can hear, he is about the only stock-owner in the district who has sustained any loss to speak of. G. B. Rasmuson sold two thousand dollars worth of steers last week. Silas Brown is rapidly convalescing. He is still at Condon, but as soon as he is able to get home, he will be in the valley. "The Lone Rock" is now under the management of Bill Brown.

The distemper has had its full run, and the public health is a good deal better. Miss Anna is teaching scholars in the upper district, and Miss May Wineland ends her term in the village Friday next.

A wing has returned from Portland with a spring stock, and is accompanied by his youngest son, who will remain with him for a few months. Louis Selendgaard, Mr. Wing's nephew, who assisted him in the store a year ago is now in Idaho, where he has been joined by his brother, who hails all the way from Russia. CAMAS.

TO CONSUMPTIVES.—The undersigned having been restored to health by simple means, after suffering for several years with a severe lung affection, and that disease is a very dangerous and tedious means of cure, to those who desire it, he will cheerfully send (free of charge) a copy of the prescription, which they will find a sure cure for consumption, asthma, catarrh, bronchitis, and all throat and lung maladies. He hopes all sufferers will try his remedy, which is invaluable. Those desiring the prescription, which will cost them nothing, and may prove a blessing, will please address, REV. EDWARD A. WILSON, Williamsburg, Kings county, New York.

A FACT.—By using good judgment and a little money, the merchants and other business men of Heppner have secured the bulk of the Lone Rock trade for this season, at least. Pendleton has been waiting for its natural advantages as a trading point to bob up and attract trade, while Heppner has been playing a little game called "pulling and pendleton" and the wool will be shipped to that place this season. Most all the outside trading of this entire section transpires at this season of the year, and Pendleton is a heavy loser by not putting a little "gig" on their side.—Eagle.

WILL GO BY HARDMAN.—THE GAZETTE is informed that the road commissioners have decided that the Heppner and Monument road shall go by the way of Hardman. That will accommodate a larger number than the other route, although the Spring Hollow route will be used by many people from the John Day, being nearer than the other road. This Spring Hollow route is already a very good road, over which heavy loads can be hauled. The road commissioners certainly did a wise thing in not overlooking the demands of so prosperous a section as the Hardman country.

JOHN PRINCE.—Having secured the services of Mr. James Crawford, a first class job as well as news printer, the GAZETTE is prepared to do better job work than ever before, and at Pendleton prices. Satisfaction guaranteed.

NOTICE TO TEACHERS.—Notice is hereby given that the public examination for teachers' certificates will be held at the court house, in Heppner, Oregon, beginning at noon on May 29, 1889. J. H. STANLEY, County School Superintendent.

RANDOM REMARKS.—Plenty of flour and mill feed at Sperry's mill. The Morgan, Saling and Russell better at W. O. Minor's. A assessing school districts can be had at GAZETTE office. Rooms to rent. Pleasant location. Inquire at GAZETTE shop. All kinds of job work done in the GAZETTE office at Pendleton prices. Sperry is selling flour in 5 barrel lots at \$5.75 per barrel. Single barrel, \$4.00. Coffin & McFarland will deliver goods to any part of Heppner, free of charge. Reams, the dentist will fill teeth, or extract the same in a scientific manner. Gunn & Rank, horse shoers; horses shod with new shoes all round after date for \$1.50 per head. C. S. VanDyke has just received a very fine line of youths' and boys' clothing. Call and examine before purchasing elsewhere. A fine line of cutlery just received at W. A. Johnston's store. He offers big bargains in everything. Gilliam & Coffey have the Baker wire, "perfect bar," the best in the world, they are selling cheap. Also the latest novelty in wire stretchers. Consult them before buying. Roberts & Simons are prepared to repair broken agricultural machinery, shoe your horse, and in fact there is nothing in the blacksmithing line that they are not able to do. Those having false teeth which do not fit can have them refitted by Dr. Vaughn, the dentist. Having procured a new recipe, he is now able to extract teeth absolutely without pain. Hunsaker and Long, having enlarged their livery stable, opposite Natter's Brewery, are now better prepared to accommodate the public than ever. All stock left in their care will receive the best of attention. Gilliam & Coffey are prepared to fit a man out with any kind of an outfit to be found in a first-class hardware store. They will sell you nails to fit up your fence when your neighbor's cows break it down, or fit you out with kitchen tools when you get married. Agricultural machinery should be the best. A break-down in a busy time is often the result experienced by those who fail to use good judgment in purchasing. The "Champion" mowers and reapers are made of the best material, light-running and do the best work. These features should not be overlooked by the rancher. For sale by Coffin & McFarland, Heppner and Arlington.

TO ALL WHOM IT MAY CONCERN.—You are hereby notified that if you purchase bird cages, without first inspecting the complete line of cages just received by Lester & Thompson, you are liable to get lost. They have also a new lot of spring perches, bird cage springs, seed cups and bird baths. Don't fail to call and see them when wanting anything in that line.

DEALINGS IN MORROW COUNTY SOIL.

U. S. to Jas. P. Hamilton, 160 acres. Consideration \$900. A. A. Crawford to Arthur Coffin and Frank McFarland, house and lot in Heppner. Consideration \$1,200.

A. A. Crawford to W. A. Ayers, 160 acres. Consideration \$1,200. U. S. to Joe McKenzie, 160 acres. Consideration \$12,000.
