ESCAPE OF THIRTEEN CHINAMEN.

They Effectually Sorved a Puzzle That Has Long Annoyed the Officials.

SHATTLE, June 28.-Thirteen of the nineteen Chinamen who have been confined in jail for nearly two years, on charges of being unlawfully in the United States, and over whose disposition the courts have been seriously puzzled, partly solved the difficulty during last night by quietly making their scape from the county jail yard, in which they had been confined. The other six, who were old and decrepit, remained in custody from choice. It is not likely that very diligent effort will be made to apprehend the fugitives, though the officers say they are taking vigilant steps toward their capture. The six who remained were to-day sent to McNeill's island, there to await further action in their cases by the government. The Chinamen effected their escape so nietly that it was not discovered until this morning. The jail is so crowded with other prisoners that they have been onfined only in the yard, sleeping in a al shed. A coal chute runs down from the street and sidewalk into the died, and by crawling up this and applying a board from the side they got oder the sidewalk and then crept along ader the sidewalk notil they came to a opening, when they emerged into the oen alr. Here they were methy friends he furnished them with clean clothing, se old having been soiled during their scape. The garmonts were changed here, and the east-off apparel left on he adowalk. Then the lucky thirteen anished in the night, and left no trace ehind.
