MORE RAILS NEEDED.

Many good roads are needed in Morrow county. Even in those days when railroads are approaching the territory which has always been known as the "frontier," there is much overland travel. A good road from Heppner to Lone Rock would come much of what is termed the "California travel" to come through Morrow to the benefit of the county in general. These people must live and their horses would add business to the country. Thousands of dollars to the large trade already required. Heppner has natural advantages not enjoyed by any other town in Eastern Oregon, yet nature has not been kind enough to build roads, and all that is left for us to do is to overcome these little obstacles, is to have some money judiciously where we need it to form for Morrow decent thoroughfares.

PICTURES OF THE SEATTLE FIRE.

With the June number of the West Shore Magazine is included a splendid collection of supplement giving scenes in Seattle immediately before, during and after the fire, showing the Tacoma relief tent, business fronts, the blocks, the train, bearing the Portland fire engine, etc. As a collection of engravings of that most memorable event, the destruction by fire of the business portion of the largest city on Puget sound, entailing a loss of fully \$15,000,000, it will become more and more valuable as time passes. Such total destruction of business and such course energy and quick reparation as is being shown render Seattle one of the marvels of the age, and these engravings are a valuable souvenir of the event. The West Shore is published monthly at Portland, Oregon, at \$2.50 a year, or 25 cents a copy.

BRING IN YOUR CEREALS AND FRUITS.

In this issue appears a circular letter from B. S. Pearce, of the signal service department at Portland, Oregon. The Board of Irrigation and Reclamation exhibit which they will send East in August and desire a representation from Morrow county. A good showing from this section will bring in the subsidies of irrigators and little expense to any resident of Morrow county. Arlin Smith, Local Observer at Heppner, will write parties in every precinct in the county, asking that they bring in such cereals and fruits as they have and can be secured from neighbors, so that they will be ready for delivery at the time of Mr. Pearce's visit to Heppner, July 22.

A FEW WARNINGS.

Three times on the 4th, was Heppner threatened with fire, but fortunately they were discovered in time to save the town from a conflagration. A wool sack in front of Collins & McFarland's store became ignited through the carelessness of a cigarette smoker, and was blazing furiously when found. The iron-press fire-dropper set in its work under the side wall in front of C. M. Maloney's furniture store, and needed only the shades of night to render it a conflagration in earnest. During the evening of the 4th, a lantern exploded in a stable in the lower livery stable—a narrow escape. These are only warnings from which Heppner should profit, but will they heed them?

FROM IDAHO'S RANGE.

John Hays returned from Shoshone, Logan Co., Idaho, on the 3rd inst. Mr. Hays was in the morning at the mouth of Hall's on the night of the 3rd, and saw the ruins the next morning. That town, he says, has but few buildings standing, outside of the business portion. Range over there is short and badly burned from the siege of hot weather. The hay crop is short and in some localities it is a total failure. A. A. Curtis, an old resident of Morrow Co., has a good ranch near Shoshone, and is more fortunate regarding feed for the coming winter than many of his neighbors.

"HONEY IS THE BEST MADE."

As a rule, a person who has a good appetite has good health. But he may be one who only eats and does not get any benefit out of it. Nature's gift of honey is so happily combined in Hood's Sarsaparilla that it acts as a good appetizer, creates an appetite, and it soon renovates and vitalizes the blood so that the beneficial effect of good food is imparted to the whole body. Truly honey is the best sauce, and Hood's Sarsaparilla induces hunger.

A RATHER TIME OF IT.

John Hays writes a friend here that he is having a rough time driving the Weib-Hays sheep to grass beyond the Blue and Pacific. Bad weather, sand storms and other ups and downs, the whole outfit came as near perishing as is comfortable. They expect to be at 12 o'clock in the morning and are nearly through with the trip by this time, and from the general tone of the epistle, it is fair to presume that they are exceedingly glad of it. A stockman's life is no picnic.

NO WOOL FROM LONE ROCK THIS YEAR.

Lone Rockers hauled their wool to Arlington this season owing to the fact that it was impossible for them to get into Heppner. We have lost considerable business thereby. Don't let the spring of 1890 come to hand without having a good road from Lone Rock to Heppner. A large trade from Frisco, Lone Rock and adjacent sections would be added to the large business which Heppner already enjoys.

FROM LONG CREEK.

Ben Swaggart and Dave McAtree returned Tuesday from the Long Creek races. Their animals succeeded in taking second money over there. Ben complains of George Harrington losing him in four miles of Long Creek. While Heppner's horses did not come out victorious, Ben and Dave succeeded in getting a good amount of money in wiping it out with some sturdy resident of that mountain section.

D., 181 Fourth, New York, N. Y.

HEPPNER HORSES WERE BEATEN.

G. Harrington and J. Baird returned Monday from the Long Creek races. On the 4th "Napper," Hamilton's horse, beat Ben Swaggart's "Dick" in a half-mile dash. "Jordan," owned by John Christian and Koeney Bros, beat "Fanny," Swaggart's animal in a 500 yards race. Our local sports seemed quite confident of victory when they left Heppner, and we are informed that both races were closely contested.

SOME THIEVERY.

Note Cecil, of Lone Willow creek, reports the loss of two horses, a bay and a gray, stolen by two men who were recently in his employ. He describes the thieves as follows: One dark complexioned, short, heavy set man about 35 years old, weight about 160 pounds. The other man was light complexioned, slender, and about 140 pounds; talks little and about 25 years old.

THE CIL BRATION.

Heppner and vicinity have a Grand Time—A splendid display of Fire Works—A successful Ball with a Large Attendance.

Heppner's celebration of the 4th was a most successful one, and the program, by the firing of shells just as the rising sun came up over Selma, was a most successful one. At an early hour people from all over Morrow county came flocking in, and by 10 o'clock the streets were crowded with people. The procession formed in charge of Grand Marshal E. L. Matlock and Will Harrison, with Heppner's a neat band of sixteen pieces in the lead. Next came Companies E and D, 3rd regiment; abeyour—Miss Lizzie Matlock, Goddess of Liberty, and 42 little girls, each representing a state of the Union, including the new states of Washington, Montana, North and South Dakota. It was completed by a long line of carriages and wagons and men on horseback, making up an all a procession almost a mile in length. They proceeded immediately to Jones' grove, above town, where Mayor Henry Blackman, president of the day, introduced in turn Mr. Frank Kellogg, reader of the Declaration of Independence, and the orator, Mr. J. N. Brown. These gentlemen concluded the first part of the program in a most satisfactory manner. At the conclusion of these exercises, which were interspersed with patriotic songs by the local club and came by the band.

DINNER.

There were many well dressed couples and no one went hungry, although no cooking dinner was given. At 1 o'clock the baby show was announced, the girl baby of Mr. and Mrs. K. McGowan taking the prize of \$10 as the best-looking baby under one year of age.

THE SHOWING-TURNAMENT.
