

THE GAZETTE.

HEPPNER, THURSDAY, July 18, 1890.

RAILROAD TIME TABLE.

Table with columns for 'EASTWARD' and 'WESTWARD' showing train schedules and times.

CANYON AND INTERMEDIATE POINTS.

Stage leaves for Canyon City—Mondays, Wednesdays and Fridays. Arrives—Tuesdays, Thursdays and Saturdays.

Here and There.

The Gazette is only \$2.00 a year, in advance. Take the Heppner Gazette, and get the news. Wm. Bush reports good range in the Ritter county. H. F. Johnson returned to Pendleton last Saturday. Mr. and Mrs. Dr. Ritchey left last week by team for California.

From the character of telegraphic news in this issue, the Gazette evidently holds fair to rival in sporting news the venerable, the Police Gazette. Bill Gullford, of Butter creek, and the Hoover, of Canine prairie, will fight a prize mill for \$100 a side, in Canine prairie next Sunday, says a reporter from that section. Borrow your neighbor's GAZETTE and get the news, if you are not able to have one of your own. However, you will find much better and more reliable news in the paper to come to take the paper yourself. \$2.00 per year, in advance. Should the council not feel like assuming the responsibility of putting in water-works or devising some means of fire protection, the citizens should take hold of the matter. Let the mayor call a mass meeting and go to work. The cut-off road to Lone Creek, which leaves the Hamilton road at Frank Gilman's place and interests it again at Toll Rock, will shortly receive the benefit of \$200 appropriation from the county and \$300 subscribed by Heppner's citizens. Tacoma's subscription to the Seattle relief fund amounts to \$18,000, besides a quantity of clothing and provisions. Heppner sent well the GAZETTE has not made up the list yet, but so far as is known it amounts to the magnificent sum of \$27. Write for the price list of the GAZETTE, job department and be convinced that you can get your printing done at home as cheap as elsewhere. Cash left at home frequently get back into the pocket of the patron. Money sent out of the country is gone forever. Mr. Fred Hallock, representing the Heppner Gazette has been in the Republic for the week past. Fred has all the qualifications necessary to constitute a thorough good fellow, and has made many warm friends during his brief visit here. R. G. Franks was over from Hamilton this week. Recent rains have brought out the crops and range considerably in Fox valley. Crops are much later over there than in Morrow, and every rancher will have a world of hay regarding the hot, scorching weather in June. Some time ago we heard some talk of a telegraph wire being stretched between Heppner, Long Creek and Canyon City. That it would be of great benefit to the country cannot be doubted, but the enterprise is not to be undertaken unless someone "starts the ball rolling."—Eagle. Mrs. N. B. Gregg, mother of the biggest ball of the Gazette circulation, left Monday for her home in Walla Walla, accompanied by our Zeo, with whom our neighbors are well acquainted, at least for the benefit of these friends we will state that Miss Zeo will be absent for several weeks. Heppner's cornet band will shortly lose their leader, Prof. Patric, and also Art Ammerman, one of their main stays. Yet the boys propose to keep that band up to the present standard, and be able to turn loose on our citizens, whenever the occasion demands it, the latest and most approved music. The Rockford, W. T. player mines prove to be nothing more than a cistern "salted" with brass filings. The denizens of Rockford who deserted stores to take up and work claims are now vending wares at the old stands, and selling of their pans, rockers and picks at greatly reduced figures. The Gazette believes that the Sound section, inside of two years, will have more emigrants than immigrants, notwithstanding that several of our citizens are inclined to believe in the contrary. Where a man makes his "stake" is a good place to stay, particularly when the future of a country is as bright as this. John Gilman, of Empire City, Or., murdered his tenant's wife and child last Sunday, and laid a trap for Easterner, the husband, but he escaped. On going home he found the bodies of his wife and child, and a ready made grave for himself. The murderer has been arrested. Contracts have been made at Ellensburg for forty three brick buildings at an average cost of \$12,000, aggregating over half a million. This will make Ellensburg one of the best building cities on the coast. A great number of frame buildings are going up outside the city limits, but of these no account is taken. The artisan well scheme, which we have fostered and cherished so dearly, now appears as dilapidated in the public mind as old "Dutch John's" threshing machine, or Heppner's dog heaven. New schemes are being talked of daily, and the GAZETTE hopes to see the early consummation of one of the most practical of them. S. M. Todd will retrace on the banks of the river-river John Day, near Bungalow, the remainder of the season, except from the worry of "sores," "takes" and the pranks of our "mexican" devil. Mosquitoes and horse flies may occasionally make life rather dull and uninteresting in their otherwise it can't be had for profit and pleasure. A "French young lady" of an Eastern city writes the GAZETTE for advertising rates, saying that she is quite desirous of obtaining a husband and wishes to insert a card to that effect. The G. Z. was advised that advertising space for the above cause could not be procured at a very low figure, owing to the extensive advertising in the winter season, and that the old rates are worth 100 cents on the dollar. This season has been very discouraging to the marriage crop.

PECCILIAR In the combination, proportion, and preparation of its ingredients, Hood's Sarsaparilla accomplishes cures where other preparations entirely fail. Peculiar in its good name at home, which is a "tower of strength abroad," peculiar in the phenomenal sales it has attained. Hood's Sarsaparilla is the most successful medicine for purifying the blood, giving strength, and creating an appetite. The Oregon State Weather Bureau, corresponding with the U. S. Signal Service, is doing a valuable work for our state. The results of the monthly weather reports, which are published in the Gazette, are of great value in the preparation of the crops, and are invaluable to the farmer, as well as to our own people. The efforts of the Bureau to have a better understanding of the needs of the semi-arid sections will eventually result in much good. OCCASIONAL FAINTNESS. Dr. FLEISCH'S REMEDY, taken when vertigo, occasional faintness, nausea, loss of appetite and inability to sleep appear, will prevent the development of inflammation of the brain, of which these are the first symptoms. Descriptive treatise with each bottle; or, address Mack Drug Co., N. Y. ADMINISTRATOR'S NOTICE. The undersigned has been appointed administrator of the estate of Moses Cantwell. All claims against the said estate must be made out in bill form, sworn to before an officer qualified to administer oaths, and filed with me by December 27, 1889. All accounts and notes due said estate must also be settled by that time. J. S. YOUNG, Administrator. Heppner, Or., June 27, 1889. "The Model" is really just such a cigar store as its name would designate. It keeps the best brands of cigars, a choice stock of tobacco, fine confectioneries and fruits. First National Bank building, Main street, Heppner.

BENTLEYS IN HARNET.—The Harnet News says: An attempt will soon be made to raise funds with which to purchase the necessary apparatus for boring an artesian well. The present dry season has settled the fact that artesian water is indispensable. When we remember that artesian water has been secured on all sides of Harnet valley, we do not for a moment fear that we are taking a risk in any manner. With artesian water this valley will produce heavier crops than any other valley on the Pacific slope. It is hoped that those interested will see to it that something is done in this direction at once. When we have plenty of water we will be able to produce a large quantity of everything that can be produced in this latitude, besides we will be able to benefit our horses and other odds of our rivers and spring branches. SEEKING A BUSINESS POINT ON THE SOUND.—M. C. McDougall left Tuesday for the Sound section, where he will likely locate in business. Mr. McDougall was solicited by many of Heppner's most influential citizens to again establish a business at this point, and says that although he was very successful while in business here formerly, and likes Heppner and Heppner people, that the outlook is much more favorable for the Sound country than any part of Eastern Oregon. He believes that Heppner has a prosperous future before it, and will make one of the best points of all the bunchgrass country. The Gazette regrets that Heppner must lose "Mac" as a citizen. He is still interested in some choice real estate here. NOR A SUCCESS.—Several towns in Eastern Oregon are stuck after a securing mill. As a rule, they are not a blooming success on this way. Enough wool cannot be gotten together any one point to make it pay, and nothing is gained in the matter of freights to the markets, as wools in the grease go at a very low rate. Denver tried the securing mill experiment, and now has a plant worth \$100,000 for sale at a price hardly exceeding a song. Other places in the West have been equally unsuccessful in the securing mill business as Denver, as not a plant is in successful operation between the Mississippi river and San Francisco. A RELATIVE OF ONE OF MORROW COUNTY'S BEST FAMILIES COMMITS A HORRIBLE DEED. A dispatch from Garfield, Washington Territory, dated July 8, says: This morning Roland Johnson, his wife and 14-year-old son, Walter, were found dead, and a daughter of 7 fatally wounded, in their house four miles from here. Johnson left a letter dated July 6, 12 o'clock, in which he acknowledged the crime, giving for reason that he could not bear to have his family in this wicked world, going on to show that his mind was diseased by religious excitement. The first attempt was made with strychnine, but a second letter, dated several hours later, explains that the children were taken with such fits that he could not bear it, so he shot them. Mrs. Johnson had died of poison, both children were shot in the head. The deceased was an old settler. The little girl was shot through the temple, destroying both eyes. She is still living with small chance of recovery. Mrs. Johnson is a sister of Mrs. J. C. Kirk, residing on Blain creek near Heppner, well known to many of Morrow county's citizens. The little girl, mentioned as probably fatally wounded, has since died. UNIVERSAL IMPROVEMENT.—A Bungalow special, via Puydug, dated July 17, says: The story of "Coyote Allen" or "An Idyl of the Heppner hills," by J. Whitford Redington, was all the rage among Morrow's well society about four years ago. The W. W. Co. president to publish the story as it goes, yet it lacks many interesting features. However, with this yearning for high-toned literary matter, came the society's bustle and earnest, and other modern improvements. It is boldly asserted that there are now more than 20 editions in circulation, also metropolitan of Los Angeles, who contain Ignis Fatuus McDougall's round-up on old Shakespeare, and take to Rob Elmore like a dog to dog-fiver. The people here are not only interested in commercial matters, either, day before yesterday, Blind Jim, a dilapidated landmark of the Columbia, traded cigarettes with a prominent citizen of this town, and a goodly number of his eyes. The profit was immediately invested in coffin licks; and thus the here goes round and round to the universal good of the community. CHARGES. One dollar per ton pays for weighing, storage and forwarding wood from the warehouse at Heppner, within thirty days of the date of delivery. For each month, or part of a month, after the first thirty days, one dollar per ton additional will be charged. Wood is measured unless specially ordered in writing by the owner. Grading and boring forty cents per hundred pounds. T. E. FELL, Manager. PRACTICAL POINTS. Every inhabitant of Lard valley uses either "88," "H. & B's Private stock," or "X. T. C." brands of celebrated tobacco. H. Blackman & Co. always have on hand a large stock of these goods for wholesale and retail trade. It is a novel idea to have bare floors when carpets can be purchased at H. Blackman & Co.'s at such a low figure. "A gentleman should have a neat, stylish hat to complete his costume," says Mrs. Gallagher to her husband the other day. "And I want you to go right down to H. Blackman & Co.'s and get one. They always have the newest, clasped and best." "Four baking powder is in the market, and it makes the good housewife's talk foreign lingo. She should always buy the celebrated "Condell Biscuit" baking powder at H. Blackman & Co.'s, 24 cents, at the low price of 20 cents. Be sure to try it, and save mental worry and family ruptures. "The Pride of Heppner" refers to the spring-bottom, tailor-made—the only stylish denim pants in the market. They are made expressly for H. Blackman & Co. A HORSE will travel well when shod by ROBERTS & SIMONS, General Blacksmiths & Farriers. REPAIRING MOWERS A SPECIALTY. Horseshoeing \$4.00 per Span after May 1st, 1889.
