GENERAL NEWS. The long strike of the Spring Valley, Ill., miners, is practically ended. In New York, a horse stepped on a fallen electric wire and was roasted to death.

Dr. I. Cleaver, of Baker City, has been recommended by the Oregon delegation for register of the land office. A. C. McClelland of Island City, Union county, has been appointed receiver of the land office at La Grande, Or.

A married couple were divorced by the court at Los Angeles, Oct. 12, and after a short courtship were remarried, Nov. 12. The presbytery of New York, met Nov. 4, and by a decided vote, declared in favor of a thorough revision of the confession of faith.

Joe N. A. Griswold, director of the Chicago, Burlington & Quincy road, says that the mission west of the president and directors. Paine and Gardner, is probably to seek a new outlet for the Burlington to the Pacific coast. Cleveland Van Arnold, accused of advertising himself as a sixteen year old girl, willing to marry, and securing remittances from victims for the purpose of visiting them, has been arrested and held to the federal grand jury for using the mails to defraud.

Timber land, in vast quantities, is being taken up in Baker and Grant counties. Charles Miller was arrested at Athena, last Monday, for stealing Jesse Drummehler's horses. A man named Brassfield, wanted in Gilliam county, for horse stealing, was arrested at Waton last week. Thomas Matthews, sentenced September, 1887, to six years in the penitentiary from Umatilla county for larceny of a yearling, was pardoned Nov. 4, on the recommendation of Judge Wm. Martin and the prosecuting attorney.

W. A. Hill, one of the three young men who displaced the switch near Albany, Or., July 28, and caused the wreck of a train, in which the engineer and fireman were killed, was found guilty of manslaughter by the jury Nov. 6. Oscar Drummehler, while returning from the Umatilla Reservation Monday morning with horses recently stolen from his father, was shot by his own pistol being discharged by a jar caused by his horse falling. The ball passed lengthwise down the leg, the ball lodging near the knee.

The Bedrock Democrat thinks the proposed route of the new transcontinental railroad, Oregon Pacific, through the counties of Harney, Grant and Malheur, cannot help but work a detriment to Baker City and county; and urges the citizens to take immediate measures to induce the company to make their city a point. Harnoy County Items says, the case of the state of Oregon, vs. D. L. Shirk, was tried last week, and the jury returned a verdict of not guilty. After the verdict became known there was great rejoicing among the settlers of this entire region. Shirk was tried for killing one Isaac in a quarrel arising from a land controversy.

At a special meeting of the stockholders of the Oregon & Transcontinental Co., held in Portland, Nov. 5, resolutions were passed authorizing the reduction of the capital stock of the company to the amount of \$10,000,000, which would leave the remaining capital at \$8,000,000 and also the taking of the necessary steps for the dissolution of the corporation. The Signal makes known a demoralized condition of the public affairs of Wallowa, in the following

which we clip from its issue Nov. 1: Judge Fee issued a judicial officer. Upon the bench he knows neither friend or foe, but meets every question from the legal and judicial standpoint and disposes of it without making a political speech to the "people" or the "taxpayers." The only speech we ever heard him make, was when the Grand Jury returned no indictment against Sutherland for having compelled his child to swear to a lie. He said, "The court finds a strange state of affairs in Wallowa county. When a man is indicted and remains in the county, the indictments are stolen. If he leaves the undertakings are stolen. A party will go before the Grand Jury and swear to a statement, then come into court and testify that the statement to the Grand Jury was false, compelled by another through threats and duress. And now the Grand Jury returns 'not a true bill' against the man who used the threats and compelled the false swearing. The court is not responsible for this state of affairs, but if the people can stand it the court can." We regard this as a blow at the grand jury system, which is rapidly becoming a farce, and at the still stranger fact that county vaults and safes will not hold the county records.

The rear room of Joe Gibson's barber shop took fire last Sunday morning, but the blaze was extinguished before much damage was done. Last Monday morning the Shelton and Lind horses, about 250 head, besides eighteen head of cattle, were started for winter range on Snake river. They were driven by J. M. Shelton, A. P. Shelton, Clarence Shelton, D. B. Shelton and C. Y. Shipman.

A transaction that took place in Lexington last week was profitable in lessons. One man learned not to buy mortgaged wheat; a farmer learned not to sell mortgaged wheat; an implement man learned that one farmer, at least, was as anxious to pay as he was to collect, and several persons interested in the matter learned that a man may be honest, with appearances against him.

There are quantities of baking powders in the market to use which is certain detriment to the health of the consumer. They are made from alum, or improperly compounded from other chemicals, so that they have a strong alkaline reaction in the food. Many of these powders, having been prohibited from sale in the East, have been collected by their manufacturers from the dealers with whom they were left on commission, and shipped to the Pacific Coast. The public knows nothing about their quality except what it reads in the newspaper advertisements. In the effort to gain a foothold in this market cheaply manufactured powders have indulged in extravagant statements both with reference to their own and other brands, claiming the most improbable endorsements for their goods and denouncing the brands best known and longest used on the Pacific Coast.

The action of the physicians of the Board of Health, in giving the public reliable, authoritative information as to the brand of baking powder to be used to secure the most economical and wholesome food is most valuable and timely. The chief brands of baking powders sold upon the Pacific Coast were collected and analyzed by Messrs. Thomas Price & Son, the well-known analytical chemists of San Francisco. They found the strength or leavening gas (measured at 100° F.) of the brands named as follows:

Table with 2 columns: Brand Name, Leavening Gas (measured at 100° F.). Rows include ROYAL, GILBERT, GILBERT'S, GILBERT'S, GILBERT'S, GILBERT'S.

THE GAZETTE. Is the Best Weekly Paper in Eastern Oregon, yet many residents of our county and the immense country tributary to it, do not take THE GAZETTE. Or any other Live Newspaper.

HERE ARE A FEW OF THEM. For 200 new subscribers to the Heppner Gazette at \$2.00 apiece, we will give a good two-horse farm wagon (34 inch axle), worth \$100. The getter-up of a club has the choice of any make in the market.

AN OPEN EYE ON PASCO. How it Looks to a Fair Minded Resident of Walla Walla. Pasco as it looks from the eye of one who has been there to see, is given in the following account as it is, which we copy from the Walla Walla Enterprise. It is evident Mr. Saling is not a real estate agent.

"A Saling has returned from Pasco after keeping both eyes on it for nearly three weeks, except what time they were filled with mud. He says it is a regular hog and the men who are trying to boom it are the scoundrels of creation. He thinks there can be no city there because there is no protection against fire. There is no soil. The drifting white sand is about four feet deep, and immediately under it is a coarse gray sand that will not hold water; hence a water ditch is an impossibility there. The artesian well is abandoned. The state made an appropriation for drilling an artesian well at some point to be selected. If Watsburg had been selected some good might have resulted, but the Pasco boomer had the check to ask and the state authorities did not have good sense enough to refuse.

The lack of good judgment was also shown in the manner of paying out the money. At the close of every hundred feet the drillers were paid at the rate of \$5 for foot for what they had done. They drilled 500 feet and got a sand bucket full. They lowered a blast of giant powder to destroy the bucket. The blast went off when about half way to the bottom and caved the well in so that it is impossible to proceed further. But what do the drillers care, they have been paid and the state has thrown away \$2500. It is now in order for an appropriation to be made for drilling a well at Watsburg, the money to be disbursed on common sense business principles and if a successful well is secured Watsburg can afford to refund the money to the state, to be used in a similar attempt elsewhere. In this way a single appropriation might be the means of supplying a large number of towns with water. Tramps are as thick as flies in Pasco. They steal everything they can get their hands on. They are arrested but none appear against them and they are turned loose again. The schools never close. There is no civilization about it. It is just like a mining town. There is plenty of railroad business but that is the whole of it. There are eight freight trains and about six passenger trains daily. The sage brush grows seven inches thick and higher than a man's head. All the streets have been cleared of sage brush for two miles square. Mr. Saling was mauling brick while there. About a mile down the river there is a deposit of loam clay that makes first rate brick, but the proprietor had no machinery except a couple of work mills. All this property Mr. Saling has in Pasco is a team and wagon and he wishes he had them away, for hay costs \$40 and chopped barley \$27 there.

NOTICE OF INTENTION. Land Office at La Grande, Or., Oct. 17, '90. Notice is hereby given that the following tract of land...

Albert H. Stamp. D. S. No. 864, for the W's SW 1/4 & S's NW 1/4 Sec. 12, T. 25 N., R. 12 E., S. 10 W. He names the following witnesses to prove his continuous residence upon, and cultivation of, said land, to-wit: James Neilson, M. Hughes, W. G. Boyer and W. M. Holt, all of Heppner, Or. Any person who desires to protest against the allowance of such proof, or who knows of any substantial error, under the law and the regulations of the Interior Department, should not be allowed, will be given an opportunity to do so, and must file and cross-examine the witnesses of said claimant, and to offer evidence in rebuttal of that submitted by claimant.

There is no end to the List of Premiums. We have only named a few of the many hundred Premiums which can be secured by THE GAZETTE. If you do not want these offered, you have the privilege of taking something else. If you have Cash Subscribers enough, you will have no trouble to load yourself down with stores from Heppner's stores.

THIS IS NO "FAKE" WE MUST HAVE MORE SUBSCRIBERS FOR THE GAZETTE. MORE READERS OF NEWS. Write to the GAZETTE OFFICE for Sample Copies and go to work at once. This Proposition Remains in Full Force Till Jan. 1, 1890.

CURE FITS! When I see CREM I do not mean merely to cure a fit, but I mean to cure the disease. I have made the disease of FITS, EPILEPSY or FALLEN SICKNESS, a life-long study. I have not only cured thousands of cases, but I have cured the most obstinate cases. I have cured the most obstinate cases. I have cured the most obstinate cases. I have cured the most obstinate cases. I have cured the most obstinate cases.
