Dr. WARNER'S celebrated Coraline Health Corsets have one peculiarity which pertains only to corsets of their make. The bust retains its shape to the end, and the corset imparts to the wearer a wellproportioned and beautiful figure. The corset is boned with Coraline, a substance superior to the finest whalebone. Made in short, medium and extra long waists.

There are many imitations, but you will find "Dr. Warner's Cosaline" printed on the inside of every genuine corset. They are sold by your nearest dry goods dealer. WARNER BROS. Mnfrs., New York and Chicago.

OF INTEREST TO STOCKMEN. The supreme court of Oregon has just decided the case of E. J. Kenney vs. O. R. & N. Co., which is of importance to stockmen.

[Plaintiff obtained judgment in In Climate, the Itsiy of America. the circuit court for the killing of certain sheep by the defendant's railroad. The defense claims that and the killing was caused by the negligence of the herder and not by For the NE% of Sec. 21, Tp. 28, E. 26, E. W. the train; judgment reversed.] carelessness in the operation of

Stock running at large are animals and Arthur Duley, all of Heppiner, Or July John William John W.Lzwin Bechster, that roam or feed at will, and are California, Oregon and not under the immediate control and direction of any one, and in such case if they wander on the track of a railroad and are killed, STAGE COMPANY. the owner, in allowing them o run at large, is not guilty of contributory negligence and precluded from a recovery.

STOCK IN CHARGE OF A HEBDER \$5 00. subject to his control, is not stock \$4.00. running at large, as the places him subject to his direction and railroad track, where injury is likely to happen to them as a probable consequence, and they are killed, his act will be regarded as the proximate cause of the injury and precludes the owner from re-

es as cattle now bring cannot long continue. A few years ago, when their business was prosperous, thousands rushed into it. A host See F on right shoulder, are cattle range in Mc row, Gilliam, Umatilla Wasco counties. We will pay \$100,00 reof cattle kings appeared on the over production and a decline in prices. When the prices of cattle fell, they were just as anxious to get out of the business as they were to get in. They were ready to make any sacrifices to get, out. Thousands of cattle that are now ready for the market were thrown on the market with a result of demoralizing it. Raising 3-cent cattle is a losing business, and the grower is soon forced to quit it. St. Paul Then will come a time when the ever growing demand for beef cattle will exceed the supply, and prices will go up with a bound.

The best sattle circles training it. Compo The grower must study the probabilities for the future when his young stock is ready for the market. The chances are now in favor of better prices.

SHEEP GROWING IN ENGLAND. Writing from England, where he has been looking into the methods of English agriculture, ex-Commissioner Coleman says of this subject: "Sheep-growing is the most profitable farming carried on here. Most farms have a few sheep on them, and some of them a large number. The sheepmen that we have met claim, notwithstanding the low price of wool, that they are doing very To and from all points in America, Engwell. They are all raising mutton sheep. We have not seen a merino sheep m England, and have seen hundreds of flocks of mutton sheep. Early lambs are raised, of trains, routes and other details furnished on application to any Mutton sheep are especially fatted for market, and sell nearly as high -that is, bring nearly as much money per head-as some of our American steers that are shipped to market. Taking the wool, the increase of lambs and the high price of fat sheep, mutton production seems to be about the most under the present system of rents.

NEW METHOD OF BUDDING. Some horticulturist claims to have discovered a new method of

orhood of all towns and cities."

unless it be truck farming, which is conducted largely in the neigh-
