Reports from all parts of Morrow county show that rain is badly needed. Unless it comes in a few days we fear that grain will be damaged.

The most graphic and artistic engravings published by any illustrated weekly in the United States are the large colored plates in the *West Shore*. In its contents and general nature this is the best illustrated paper a resident of the Pacific coast can take. It deals with subjects he is interested in, and during the year he is sure to find something in it that he deems alone worth the year's subscription. Everyone should take it. The price is but \$4.00 a year for fifty-two numbers, making a splendid volume of engravings. L. SAMUEL, Publisher Portland, Or.
