## SAMUEL HILL TOURS WORLD FOR PEACE

Will Visit Foreign Nations and Invite Participation in Peace Move.

REPRESENTS BIG AMERICAN GROUP

Peace Movement to Have Headquarters in Temple of King Solomon at Philadelphia During Summer.

New York, November 18.—Representing the most powerful group of Americans pledged to secure permanent peace throughout the entire world, Samuel Hill, last of the great pioneers of this country, will start on a world tour in January during which he will marshal the forces of peace in every nation. This announcement, made public yesterday, is the outcome of a series of meetings held during the past two months, at which Mr. Hill presided and where the most important leaders of industry and business discussed the methods for obtaining lasting peace. Secrecy has been maintained on the details of the plans adopted since the group felt that a premature announcement would work against the project.

Only the broad general details of Mr. Hill's plan have become known. The world peace movement will be launched on a scale greater than any other movement attempted and will be backed up by definite working plans and sufficient finance. Mr. Hill's foreign tour will cover the entire globe and will be for the specific purpose of providing an incentive for the nations visited to commence thinking in terms of everlasting peace. Delegates from the people of each nation will attend the First International Peace Conference which will be held at King Solomon's Temple in Philadelphia during six months of next year.

Mr. Hill, who was at one time president of twelve of the important railroads of this country, has long been deeply interested in the cause of peace. During the war he was active in all that tended toward an early settlement, and was of great assistance to Belgium, France and England and to Japan of which he has been special advisor to the government for twenty years. During 1922 he arranged the celebration whereby this country and Canada commemorated one hundred years of peace. As the everlasting symbol of this peace, Mr. Hill erected the Peace Portal on the border between British Columbia and the State of Washington. This great monument, which cost him more than \$300,000, was dedicated in the presence of President Harding and the Canadian Governor-General, by Mar-

shall Joffre, whom Mr. Hill brought to this country and later took around the world in the interests of peace. The Peace Portal was considered of such importance that for the first time in history the Canadian Parliament and the Congress of the United States passed resolutions of thanks to Mr. Hill for establishing a permanent memorial to peace and goodwill existing between the two countries.

Ever since that time he has been untiringly at work for peace. During the past few years Mr. Hill has visited practically all the nations of the world and conferred with their most prominent citizens on methods of guaranteeing peace. He has looked forward to the time when sentiment will be crystallized by the adoption of a definite educational plan suitable for all nations.

Realizing that the Peace Portal stands as an everlasting symbol of peace between Canada and this country, Mr. Hill sought for some such outstanding edifice to serve as the symbol of world-wide peace. It was for this purpose that King Solomon's Temple was chosen. The Temple which will be the first authentic restoration of history's most famous structure, will be the outstanding feature of the Sesquicentennial International Exposition to commemorate the one hundred and fiftieth anniversary

of the Declaration of American Independence. The peace delegates from the entire world will meet at the Temple and hold their conferences there. Within the Temple will be adopted the comprehensive educational program which is to teach peace in place of war to the youth of all nations. Mr. Hill is deeply interested in the restoration of King Solomon's Temple since he feels it will be forever the symbol of everlasting peace to which he and his associates are devoting their lives.

When Mr. Hill leaves on his world peace tour he will be accompanied by representative leaders of practically every walk of life in this country, many of whom are thoroughly familiar with European conditions.
