FROM THE STATE MARKET AGENT

Wheat Prices in Morrow County.

Movement of wheat from Eastern Oregon to Portland terminals this fall has been very slow in comparison with former seasons, farmers apparently holding for higher prices. Actual prices to growers around Heppner, as reported to the State Market Agent's office, ranged from \$1.30 to \$1.35, net, for Bluestem; Club and Fortyside, \$1.25 to \$1.28; Turkey Red, \$1.18 to \$1.25. These differences were mostly on grades and wheat of good test weight and grade would run closer in price. For instance, the \$1.18 lot of Turkey Red weighed 52 pounds to the bushel.

Frank Lowden's Prediction. "I can foresee the day when everything produced on the farm for the markets will be marketed by the farmers themselves, through organizations of their own creation."

This prediction was made by Frank O. Lowden, ex-governor of Illinois and president of the American Dairy Federation, at a speech in Oakland,

Cal., November 18. And why not? asks the state market agent. The surprising thing is that farmers have so long permitted the middle interests to make what profits that are made on farm products. No other industry of power would year after year produce and sell at about cost and permit others to resell the products at a sixty per cent advance. There is no good reason on earth, says the market agent, why producers themselves cannot handle their products all the way through to the consumer. There is no good reason why they cannot be their own middle men. When they do bring this about the bridge between grower and eater can be materially shortened and both classes benefited. Consumption of all farm products would greatly increase if prices to the consumer could be lowered—if many of the unnecessary middle profits and expenses could be eliminated. If the farmer could retain half of the profits that others make off his products he could make money. If the consumer could get the other half of profits in reduced prices, there would be greatly increased buying. When farmers solidly organize to sell their own goods they will have accomplished much for themselves.

"Regulating" Grain Gambling. The newspapers state that the Chicago Board of Trade has agreed to

the plans of Secretary of Agriculture Jardine, and that wheat gambling will hereafter be restricted. A regulation has been adopted that the board directors may place a limit on how high or low prices may go, and that "heavy penalties are provided for anyone buying or selling above or below the limits set by the directors." State Market Agent Spence thinks that this is rather of a remarkable proceeding on the part of the government. "Supposing that a gambling house in Portland would be given a license to play poker if the ante was restricted to two-bits, and if any of the boys went over the limit they would be penalized. This is about the substance of the 'regulation' put on the Chicago Board of Trade, as I see it," he says. "Gambling on grain in Chicago is either all right or all wrong—limiting the stakes doesn't change it."

Fast Growing in Favor.

Reports from growers, inspectors, county agents and retail merchants from different sections of the state are that the potato grading and inspection law is fast growing in favor as the people realize its benefits. The law simply requires an honest pack and an honest grower or dealer doesn't want any more. Growers compelled to grade their stock now realize what others have gained by doing this for them.

The BULL'S EYE

Editor and General Manager WILL ROGERS

Another "Bull" Durham advertisement by Will Rogers, Ziegfeld Folies and screen star, and leading American humorist. More coming. Watch for them.

If You Want to Look Like This -Don't Smoke

You are going to be disappointed when you look at the face in this Advertisement. It will be such a shock from the type of Faces you always see in Advertisements. They generally get some Guys face to use in a Collar or Underwear Ad that looks like he was just born for that Ad. You never see him in real life or anything that ever looked like him. These "Bull" Durham people conceived the idea of something new. They felt that you were tired looking at such handsome faces in Ads, it was so discouraging to men who looked at them because they knew they could never look like these fellows themselves. So they wanted a homely face that would be an inspiration to other homely men, (because there is a terrible lot of hard looking Birds among you readers). So after looking the World over they picked on me. I dont smoke "Bull" Durham, so the Moral is IF YOU WILL SMOKE IT, YOU WILL NEVER LOOK LIKE ME. I am the horrible example of a man not using it.

Will Rogers

P. S. There is going to be another piece in this paper soon. Look for it.
