 The past two days have been spent in general review of all the subjects. The semester examinations begin on Wednesday, for which we are all working hard.
 The two subjects, botany and economics, to take the place of physiology and social problems, will be taught next semester.
 Mrs. Sperry has been ill for a short time, but we are all pleased to learn that she is much better.
 Mrs. Mahrt and her daughter Leah Katherine, went to their ranch on Eight Mile Saturday.

When You Get to Florida

You'll Like HAINES CITY

IT'S UPLAND air is good to breathe. There is a tang about it that is not only agreeable but stimulating. The State Board of Health has certified Haines City as one of the healthiest places in the country.
 You will also like the air of prosperity which permeates the place. There is an atmosphere of progress everywhere. You see it in the huge buildings being erected, in the preparations for expansion, and in brisk movements of business generally.
 Naturally, you will like the lakes and groves. In your automobile you visit the six lakes within the city's limits—some of them very large—and all the time you are in and among the groves laden with ripening fruit.
 But a city is more than buildings, or business, or beauty. It is made up of people, and the people of Haines City are of the likeable kind. They make newcomers feel at home with the true friendliness of the South.
 Yes, you will like Haines City. It is a city of opportunity both for the capitalist and the worker. Come and see for yourself.
