Umatilla Irrigation District Economic Conference.

(Morrow County Extension Service News.)

A Umatilla Irrigation District Economic Conference will be held at Hermiston the latter part of February. The date has not been announced as yet but will probably be the last week of that month. This conference will be along the same general lines as those held in seventeen other counties in Oregon the past two years. Farmers and others interested in farming on the Project will meet in commodity groups and study the problems of that group from the production of the crop through to marketing. Each group will put its findings and recommendations in writing and submit them to the general conference on the afternoon of the second day.

Six committees representing six commodity groups that will meet during the conference, have been appointed

and have each held one meeting. At these committee meetings a chairman and secretary of the group was elected and an outline made of the date needed to be examined by the committee before the conference. This data consists for the main, in figures on production on different crops and livestock products together with prices over a term of years; data relative to competing sections for these crops and the probable market outlook for them. Much interest has been manifested by farmers on the project in this conference, as it is believed by most of the farmers that a new system of farming and marketing will have to be worked out in the next few years if the project is to be a success.

Members of the committees from Boardman and Irrigon are as follows: Dairy committee—W. O. King, chairman; A. P. Ayers, P. M. Smith, of Boardman, and F. W. Reiks and W. T. Wright of Irrigon, members of the committee.

Poultry committee—J. G. Johnson and Charles Dillabaugh of Boardman, Mrs. F. W. Reiks of Irrigon.

Livestock—L. D. Saling of Irrigon, chairman; C. S. Calkins and Andrew Andregg of Boardman, members of the committee.

Farm Crops—Ray Brown of Boardman, chairman; Adolph Skobos of Boardman, Arthur Yergen and F. C. Frederickson of Irrigon.

Truck Crops—H. W. Grimm of Irrigon, secretary; C. T. Saling of Irrigon, B. L. Dillabaugh and Ren Attebury of Boardman, members of the committee.

Beekkeepers—C. E. Glasgow of Irrigon, Frank Otto and Robert Mitchell of Boardman.

The dates of this conference will be set soon and all farmers on the project should make every effort to take an active part in this meeting.
