HAINES CITY UNITY

HAINES City is emphatically a "pull-together" town. It has the two unities which spell progress. They are Unity of Conception, and Unity of Action.

The people here have got the Right Idea. They see a bright present and a wonderful future. There can be no mistake about the present. Things are going ahead, steadily, confidently, resistlessly. The city has momentum. Nothing can stop its advance. In fact the future is as certain as if it were here now, for the leaders of the city are men with imagination. That is how the invisible becomes visible, and how Haines City is taking shape according to the pattern.

The second unity is the Unity of Action. All sections of the people work together. There is no dis-unity—no clique at war with another clique—no interest seeking a selfish domination. Everybody is for the city, well knowing that as the city prospers they cannot but prosper with it. So they pull together—the City Officials, the Banks, the Mortgage Companies, the Lawyers, the Storekeepers, the Realtors—all bent on making Haines City what it ought to be, and what it will become.
