IRRIGATION DISTRICT TAX MUST BE PAID.

Land owners within the John Day Irrigation district should pay their district tax on or before April 5th, 1926, to avoid additional costs and legal complications. The innocent purchasers of a large number of valid warrants have been deprived of their money for nearly six years, but before they begin purchasing delinquent tax certificates on individual farms, or start suit to enforce collection of this tax, they deem it advisable to give this warning so that land owners may be saved unnecessary extra penalties or complications. This tax has been confirmed by the highest court and its payment cannot be avoided.
