

### NEAR EAST RELIEF SENDS OUT REPORT

Portland, March 29.—The Near East Relief has just filed its annual report with Congress. The following items from a very complete report, copies of which may be secured from the local office, 618 Stock Exchange, may interest our readers.

During the year, 747,565 persons were aided, the service to the adults of whom there were 376,600 being chiefly in the form of clothing. 69,159 children were served and more than 100,000 widows with children.

The total relief administered to date is \$94,587,709.37. Last year's income of \$4,782,239.25, raised at an expense of 13.15%.

To enable the impoverished Armenian government to receive a vast number of refugees as requested by the League of Nations the Near East Relief agreed to continue the care of about 12,000 children in Armenia for three years from 1926. No work is carried on in Turkey the centers now being Armenia, Greece, Macedonia, Persia, Syria and Palestine.

During 1925, 30,460,137 meals and rations were provided for children and 5,102,826 for refugee adults, the majority of these being widows with children.

Incidental to its program of child welfare it has helped eliminate malaria in parts of both Greece and Turkey. During its ten years of service it has prevented blindness in 30,000 children.

Largely by the children's own efforts and by the use of American methods and machinery, there were produced on orphanage farms and gardens 438 tons of vegetables, 2,121 bushels of grain and 67 tons of meat and dairy products.

During the year 1612 tons of clothing was distributed but as clothing supplies are ample for this year no "Bundle Day" will be held this year.

The immediate task of the organization is to provide for the 36,000 now in its care and to provide if possible

Woman has rapidly come to the fore in all lines of endeavor, but these three girls have made the world sit up and take notice by achieving the pinnacle of success while still in their teens. The sport world worships at the feet of Helen Wills, (center) America's youthful tennis queen; rises to its feet to acclaim Marion Talley, (left) whose triumphant debut at the Metropolitan makes her a star of the first magnitude. Gene Goldman demonstrates the ability of her sex to earn money instead of spending it, by amassing a million dollars selling Chicago real estate.

For some of the thousands still homeless. It is hoped that three years more may see the task finished.

seasons. Alas! Like "Ships in the night" they just "Speak as they pass." We hail them with joy in the blush of their dawn— A task, and a tear, and a smile,—they are gone.

Oh, Years yet to be, while Life's soft twilight glow, Bring a small mead of toil, but Joy that o'erflows; Bring a hint more of Pleasure; of Sweetness a draught, Of Patience a deluge, and Love that will wait Her life o'er the reefs, through the shoals, to the shore. Bring less of life's worries, of Peace bring her more; Then in Love's sweet communion with children and kin, Touch her lightly, Dear Years,—let the New Life begin.

### PROSPECT GOOD FOR HEPPNER-SPRAY RD.

That the prospects are good for the early construction of the Heppner-Spray road, is the opinion expressed by both District Attorney Notson and Commissioner Bleakman, who, with Commissioner Davidson and County Roadmaster McCaleb attended the monthly meeting of the state highway commission in Portland last week.

There had been some apprehension on the part of the Morrow county court as to whether they could get cooperation from Wheeler county on the six miles of road that will connect with the Pohn Day highway in that county near Spray. This cooperation seems now assured, and the Wheeler county court hopes to be able to do its part through the assistance it will doubtless receive from the Forest Bureau of Roads. That county being interested in the completion of the gap between Service creek and Mitchell, they did not want to get in too deep. They have secured the aid of the highway commission in

the building of this piece of road, which, by the way, is just another link in the completion of the Heppner-Spray, or Pendleton-Prineville cut-off, and when this was made plain to our Wheeler county neighbors, they took a different view of the situation. On the whole, the members of our court attending the road meeting in Portland the past week are very much pleased with the prospects and they are mighty glad they took time to go to Portland and line this matter up.

### Service and the Small Account

This bank is a service institution organized to meet financial necessities of its depositors. The amount of its service to its depositors often depends on the bank balances they maintain.

This bank must carefully protect the funds deposited here by its depositors. Money can be loaned only when we feel sure that it will be safe. When a depositor maintains a reasonably large, steady balance, it is an indication to us that he knows how to use money successfully. It gives us a reason to believe that loans to him will be safe. That is one reason why depositors who maintain large balances get better service from their bank. They are entitled to it.

And even more than that, a large balance provides the depositor with sufficient funds to take care of emergencies and business opportunities that may arise.
