

BOARDMAN

MRS. A. T. HREIM, Correspondent.

Mr. and Mrs. Chas. Law of Coeur d'Alene, Idaho, were recent visitors at the home of Mr. and Mrs. Paul Smith. Mrs. Law and Mrs. Smith are sisters. The Laws were on their way to Portland and Salem. They will stop for a short visit on their way home.

Helen Chaffee came home last week from Waltherville, near Eugene, where she has been with her sister, Mrs. Harry Theonis since last May.

Max Watkins of Irrigon is working on the Smith-Duggan baler.

Mr. and Mrs. C. G. Blayden and Robert Rayburn were Heppner visitors last Thursday.

Helen Broome, a daughter of Mr. and Mrs. M. W. Broome, was hit with a baseball at the game on Labor Day. Most of the force of the ball had been spent by the time it reached her, fortunately, and the injury did not prove serious, but she was taken to Pendleton where a physician was consulted to make sure that no great injury had resulted.

Boardman school kids reveled in a 3-day vacation this week while the teachers were attending teachers' institute at Heppner.

Mr. and Mrs. Ralph Davis and Mr. and Mrs. Chas. Goodwin were Hermiston visitors Saturday and attended the show at Umatilla Saturday night.

It is reported that the Signs place has again changed hands. Mr. Curtis of Los Angeles has traded to another man of the same town. We were unable to obtain his name but he was up here and looked things over and seemed well satisfied with the location. He is said to be an experienced dairyman and will continue in that business here. The Signs place is adjacent to town and if Boardman ever becomes a city it will be a valuable piece of property. As it is there are a number of acres of alfalfa and some still to be put under cultivation.

Mr. and Mrs. J. F. Gorham and Bobby Smith and wife were Heppner visitors last Sunday.

Jess Lower is pleased to have his father with him after two years absence in Missouri.

R. Wasmer has made some extensive improvements on his ranch house. A porch has been built on two sides, many improvements made in the kitchen with a number of built-in features.

Mr. and Mrs. Clarence Johnson and two children of Spokane were guests for several days with Mrs. Johnson's parents, Mr. and Mrs. Sylvester Attebury.

Mr. and Mrs. Glen Hadley and baby and Mr. Hadley, Sr., came home Tuesday from a delightful vacation trip to Netarts and other beaches. They visited also at Oregon City, having made the trip in company with Mrs. Hadley's sister, Mrs. Gribble and family of that place.

Mr. and Mrs. Chas. Dillon and children were Hermiston visitors Saturday, going up for dental work for the children.

Mr. Cosby, poultry specialist from

O. A. C. Roger Morse, county agent, and Mr. Wilbur, assistant county agent of Umatilla county, and A. C. Cooley of Salt Lake City were Boardman visitors Thursday when a chicken culling demonstration was given at the Dillon, Knauft and Johnson ranches. Mr. Cosby certainly knows his line and it was both interesting and instructive to watch him handle the biddies and tell just why this one should have her days terminated and why that one should be kept through the winter. It seems that there are many points to be considered before discarding a bird, size, color, shape, skin, etc., and one should not cull on one point alone but rather a combination of them. Mr. Cooley is the agriculturist in charge of demonstration work on reclamation projects, working under the bureau of plant industry. It is through him that such demonstrations as that given Thursday are made possible. His headquarters are at Salt Lake City.

E. K. Mulkey was up last week and shipped his horses down to the valley where they will be used in logging. Mr. Mulkey could not get a bid for them at his recent sale as horses seem to be a drug on the market.

Mrs. Richard Dingman left Saturday night for Chicago to be with her daughter who was seriously ill according to a telegram received that day. Her sister, not knowing of her sudden departure, came up on one of the night trains Saturday to visit but left for her home in Portland the next day when she learned that Mrs. Dingman had been called away.

Francis King came home last week from Gearhart where she has been the past six weeks visiting her grandparents.

One of the solutions of our problems in this section seems to be the growing of asparagus. This vegetable is especially well adapted to this soil and climate and grows almost without care, but it is a crop that pays very well, the net value running from \$150 to \$200 per acre. The only way the Boardman farmers can get into this game is to plant a fair sized acreage as it is useless for one or two farmers to plant 2 or 3 acres as there would be an abundance of asparagus and no market, but with 15 or 25 acres of it the growers could ship through the Hermiston association in quantity. We have learned by experience that we cannot successfully raise 30 dollar crops on 200 dollar land, and asparagus and onions seem to be one way to make the crop returns commensurate with the value of the land.

Many Boardman people will attend the Round-Up during one of the four days and expect to enjoy the spectacle which, though a repetition of the year before, is ever new with its thrills and spills.

W. H. Meffords were overnight guests at the Albert Macomber home at Olex Friday of last week.

Hay is moving out quite rapidly \$14.00 to \$14.05 is being offered, f. o. b. cars.

Frenchy will make their home for the present. Frieda Seaman accompanied her as far as Portland.

The school band played a number of selections at the Field Day dolings at the experiment station near Hermiston last Saturday. A number of folks from Irrigon were present.

The football squad was out for practice several times last week in preparation for a few games to be played with near-by schools during the football season.

Robert Schmalling has returned to continue his studies and to play alto in the school band as he did last term. He is making his home at Markhams as his folks are still at Yakima. George Hendricks is having this week for an indefinite stay over in the Elgin-Enterprise section.
