FILTHIEST CAMPAIGN IN YEARS Sense of Decency and Fair Play Cer-tain to Elect Steiwer.

Corvallis Gazette-Times.

We haven't the slightest idea that George Putnam believes a single word of his telegram to Senator Reed conor his telegram to Senator Reed con-cerning the \$35,000 a Philadelphia power company is alleged to have paid The Oregonian to support Stei-wer. It would be a compliment to Steiwer that some such important concern as this Philadelphia outfit regarded him so highly. Let's analyze this thing.

Why would a corporation wish Stanfield defeated?

Has he ever shown any anti-cor

poration tendencies?
On the contrary, hasn't he been consistently branded here by the Oregon Journal as a "friend of big bus-

Hasn't he been linked up with the Swift Packing company by this same muck-raking journal in an effort to create a prejudice against him in the eyes of those who have not wealth? If these things are true, and everyone in Oregon knows they are, what object would a corporation have for wanting to trade him, a known friend of business, for a man whose only reputation in that direction was the bringing of several suits for the farmers of eastern Oregon in an effort to lower freight rates on eastern Oregon hay to Willamette valley dairy farmers?

The charge on the face of it is preposterous so far as Steiwer is concerned,

Secondly, what would a wealthy and prosperous newspaper like The Oregonian have to have \$35,000 for to induce it to support its own can-

didate for the primary race?

Haven't we been told time and again by Putnam and the Portland Journal that The Oregonian opposed Stanfield because he refused to ap-point Oregonian friends to public of-fice? Haven't these two ravens of righteousness given this time and again as the reason for The Oregonian's refusal to support Stanfield? Do they now believe their former assertions were lies and that The Ore-gonian supported Steiwer for \$35,000?

As a matter of fact, Putnam knows as well as he knows his name that the charges are utterly foolish. He has bruoght them as a last minute campaign trick to befuddle the voters. He knows that Franklin Griffith, president of the Portland Railway, Light & Power company, is in California, very ill. He knows that Mr. Griffith spent most of the summer in Canada trying to recover his health. He may not know, however, that it was reported in Portland before the primaries that Mr. Griffith made the statement that he had instructions from his home office in Philadelphia to take no official part in the primary camunless it was to the support of Senator Stanfiled.

This charge is a contemptible trick

This charge is a contemptible trick. It is in line, however, with the whole effort on the part of the democratic bosses to elect Haney. They have resorted to every petty piece of sculduggery they could think of. Their yellow ticket charge fell flat. Their \$230 charge fell flaft. Their conspiracy charge fell flaft. They have aucceeded only in cajoling Stanfield to run an as independent against the candidate of the party that made him. That in itself should be sufficient ward-heeling stuff for one campaign, if there were time enough to get If there were time enough to get by insurance companies and savings the facts of the \$35,000 charge to the voters before next Tuesday there is which represents the savings of 1, little doubt but that the reaction 000,000 customer owners. ngainst this sort of dirty hypocrisy would do much to make Steiwer's vote still larger. The American peo-ple like clean sports and clean politics, but the entire campaign against

SWEEPING VICTORY ASSURED, METSCHAN

one united. I expect the good sense of the voters of the state to declare

itself on that proposition.
"I expect Stelwer, republican nominee for United States senator, to win by a substantial plurality. Patterson, for governor, will be elect-ed by an overwhelming vote. Oregon must not lose its opportunity to elect a man who will give the state a bus-iness-like administration. His acts

iness-like administration. His acts as governor will not be influenced by considerations of political expediency.

"Cngressmen N. J. Sinnott, W. C. Hawley and M. E. Crumpacker are assured of re-election from the three districts of the state. Justices of the supreme court will be re-elected with out opposition. I have the utmost confidence in the election of Charles A. Howard to the position of school superintendent. L. E. Bean of Eugene will undoubtedly be elected to the public service commission. I look for similar party success in the oth-er state offices and through the var-

ious counties generally. "There is no valid reason for any

republican to desert his party on election day. There is every reason for every voter to reaffirm his allegiance to republican principles. On the de-cision of this state may hang the control of the next senate by republicans or democrats. President Coolidge is ooking this way for a vote of confi-

dence and support.
"The battle is already won. the republican ranks stand firm. Let no last minute flood of falsehood or partisan propaganda that may be spread in a desperate attempt to mislead the voters stampede or dismay us. Let nothing prevent us from do-

THE TRUTH ABOUT SEED WHEAT BILL

Statement Shows Who Was Respon-sible for Putting Across Relief.

Senate Bill 64, providing for the relief of farmers in the frozen out dis-tricts of Eastern Oregon by authorizing the State Board of Control to fur-nish seed wheat, was introduced by Senators Butler, Carsner, Dennis, Taylor, Ritner and Representatives Fitzmaurice, Mann, Miller, Roberts, Shumway and Tom. This information was taken from the senate journal.

These senators and representative were all the members who represented the area afflicted. Farmers and bankers from the frozen-out district appeared before the ways and means committee in behalf of the bill. There was very little opposition to the bill after the necessity was made plain to the legislature. That member of the legislature claim the bulk of credit for this measure is purely bunk.

"SERVICE AT COST." Once in a while an orator makes

Elect me, and I will take over al the electric light and power com-panies and give the people service at

But the electric lgiht and powe companies are giving service at cost today. Only, the cost includes \$150,-000,000 of taxes which they have to

And it includes a fair return on their bonds which are largely owned

Nearly every State has a regulating commission. It decides what the fair costs of the electric light and power companies are—and that is the rate which can be charged. When there Stelwer has been the filthiest seen in is no State commission each company Gregon in many years.

Cost of living studies show that the average is 65 per cent above pre-war costs. In the face of these figures the achievement of the electric light and power industry is noteworthy, in that the average cost of electricity today is 10 per cent below pre-war

When the government tries to run business the costs increase, as Pres-dent Coolidge has pointed out. But the government can regulate a business. That's what the governments of the states are doing with the elec-

TEASERS'~No.14

tric light and power business, and the results show that they are doing it very well.-Watts Watt.
