ARMISTICE BATTLE IS SCORELESS TH

Annual Clash of Avowed Grid Enemies Seen by Large Crowd.

SALUTE STARTS GAME

Lexington Air Game Fails Against Heppner's Strong Defense; Teams Evenly Matched.

(Heppnerian Sports Reporter.)

On the eighth anniversary of the putting aside of arms, commemorating Armistice Day, the Lexington and Heppner High school football teams not on the local gridien to determine

their supremacy, featured with a seen but friendly rivalry.

This game, as those of the past, caused intense interest to be shown by both schools and their respective

The day was fittingly observed by the firing of a salute followed by the singing of the Star Spangled Banner, just preceding the initial kick-off.

According to the previous records

made by the two teams this year, Lexington stood high favorite to win defense and offense, the result be-ing that neither team had any decided advantage over the other; the play in addition to the regular prizes for ried on by the state library at this ing that neither team had any decided advantage over the other; the play waging evenly back and forth, but never coming nearer to either goal

than the twenty-yard line.

The highly touted Lexington aerial game failed to penetrate the light but aggressive backfield. Lexington out aggressive backfield. Lexington made but slight yardage through the line, netting most by the passes which they completed. Heppner's in this city on Monday Nov. 15 chief attack was through the center Johnston reports and off-tackles, gaining but little via child doing nicely. the air-route or around ends. The game was featured by clean, fast, spirited, consistent football, there being but few fumbles to mar the game and no incidents to create antagonism. In the punting, Sherer of Lexington had quite an advantage over Hisler of Heppner, the latter being hurried in his attempts by the

fast charging Lexingtonians.
Heppner winning the toss chose the Heppner winning the toss chose the hospital. It is hoped by her physician, west goal so as to have the wind in Dr. Johnston, that she will show their favor. Lexington elected to re-ceive. The ball was downed on about the 30-yard line. Lexington opened up with their aerial attack, but the Heppner backs were on the alert, and stopped all of them, giving the locals the ball on Lexington's 35-yard line. The ball hung in the balance the rest

of the quarter. The second quarter was somewhat similar to the first in that neither team could get within scoring dis-tance of their opponent's goal, except when Sherer tried a place-kick from the 30-yard line, but failed to make of tonsils and adenoids. it good. With about four minutes to go, Heppner substituted Bramer for Haley and Mr. Rinn of Prairie City Haley and Mr. Ri Heppner territory. Heppner held them for downs and got the ball just been spending several days in the before the time was up. Between halves the rooters formed

a long line and serpentined around gridiren giving both school's

Hennner kicked off again in the second half, and held Lexington for the down, Heppner then starting a flashy march down the field to be stopped by the spirited rally of the Lexingtonians. It was Lex's turn to start its march down the field, the third quarter ending with the ball in possession of the Lexington team mid-field.

The fourth period was a close rep etition of the third, displaying more fight by both teams, if such were pos-sible. The game ended with the ball in Heppner's possession on the 35-yard line, following a punt by Lex-

Supt. Burgess Presents Matter at Luncheon Club Meet.

The question of whether or not the axpayers of School District No. 1 will

There has been agitation for some time, and the need of this sort of building for the use of the Heppner schools is becoming more manifest.

In order that there might be a better understanding just at this time Supt. James M. Burgess presented the matter from the point of view of the faculty at the meeting of the Luncheon club on Monday, and his proposals were well received by that body, who are now earnestly considering just what would be the best way to proceed. According to Mr. Burgess it will require at least \$20,000 to construct the building and place therein the proper equipment, and the best way of getting the funds, in from the Pacific Power & Light com-pany, and the purpose of the lines to Olex, Condon and Ione will be to ex-tend this power service thremehout tend this power service thremehout tend this power service throughout the territory served by the three com-panies, giving them 24-hour continu-amount to \$120 per year, plus inter-amount to \$120 per year, plus interamount to \$120 per year, plus interest on remaining issue; or in other words would average about \$2300 per year. This would call for a levy of 1.7 mills each year on the assessed

reserve to place the power where it is most needed."

This is the plan suggested that the matter be thoroughly gone into and understood by the voters of the district. If a better plan of getting the necessary funds can be presented, it should call for the hearty support of the electorate, as the need for such a building on the school grounds is not questioned by anyone who has taken the tioned by anyone who has taken the tioned by anyone who has taken the cans and cow bells galore, when the cans invited into the house into and understood by the voters of the district. If a better plan of getting the necessary funds can be presented, it should the house of the house into and understood by the voters of the district. If a better plan of getting the necessary funds can be presented, it should be any of the hearty support of the elector in the hearty su

High School Football **Team Banquet Guests**

The high school football squad, with a number of others, making a com-pany of some 28 or 30, was right roy-ally banquetted at the home of Mr. and Mrs. John Wightman on Wednesday evening. Mrs. Wightman and Mrs. R. L. Benge were hostesses, and there was set before the students a turkey feed fit for a king.

The way that the pigskin artists tackied that feed was not slow, and if they have not so far this season been able to carry off the laurels of victory in the several games played, they surely won out big and made proper yardage and kicked the goals artistically in their engagement with the viands spread before them. The boys pronounce the engagement a complete success from every point of view and are excessive in their praise of the splendid treat given them by their hostesses.

Three Cheers for Labor. The Low Cost of 2-Year-Complete Immersion. 140 Years Young.

By Arthur Brisbane

Mr. Green, head of the Amercian Federation of Labor, heaven bless him, declares that labor wants a pow-erful navy, that the United States may be properly defended and ready

for trouble. Workmen would be worse than fool-ish to want a nation unprepared, since they bear the brunt when fighting comes. Big fellows display their patrictism by making a fat profit in war. Little fellows get shot, gassed, diseased, etc.

Mr. Green and his Federation of Labor will no doubt advocate the right kind of preparedness. A great battle fleet in the air, another below the water. Submarines to destroy enmy ships as they come; airplanes to best off airships, sink enemy mer-chantmen and war vessels. Those are the things this country needs.

To be too fat doesn't necessarily mean over-eating. Often it means defective metabolism, imperfect elimination. A prisoner fed on bread and water for two weeks gained three pounds. The bread and water diet put his system to work.

Mothers and fathers should be in-rested in the fact that tuberculosis is increasing among girls. Girls starve themselves to keep thin and tuberculosis germs attack a weak body with insufficient blood supply. The responsibility is with parents that lose control of their children, beyond retaining the honor of paying their bills their bills.

Human beings cost money to raise . and many are not worth it all, the imperfect being all preserved, and children of the ablest made worthless by their fathers' money success. California's State Board of Health says a two-year-old baby costs less

sickness than at any time, less expense in other ways. From two to twenty years the cost steadily rises. After sixty it falls off-fewer teeth eat less, clothes last

per day than at any other age-less

onger, life runs quietly and nonsense calming down. All interesting, but the State Board does not tell us why we live at all, or why it was necessary to put us here
