The Community Supper Really Like Christmas

THESE community suppers are always stupid!" declared a pretty girl to a small group around her. "I wish we could put some pep and fun into this one and give the people a good time. Something really like Christmas and not so dull."

The others looked dubious and scratched their heads. "What'll we do?" they asked.

"I know," declared the pretty girl. "Just got the idea. Now listen everyone: Why not imitate the way they used to do in olden times? A minstrel in the gallery, lots of minstrels! Singing and playing on horns and things! Hide them by screens covered with greens. Let the people get seated at the tables, then pipe up with old songs every one knows. Dress the minstrels in gay colors. Then have them come down the stairs singing and playing. Let them wind among the tables. Have a jester in front joking and making fun. A real old English custom. It will

help a lot and give the diners a good time.

"And," added another, fired with enthusiasm, "red candles on the tables, wreaths at all the windows, waitresses with red ribbons about their heads and a sprig of holly tucked over one ear."

"Not to mention," laughed a third, "a dinner of roast turkey, cranberry sauce, mashed potatoes, rolls, coffee and mince pie!"

"Right-o!" said the rest.

And so it was done. The very merriest community supper that was ever given in that town.—Patience Eden.

Sing Heigh-Ho! Unto the Christmas Holly

NOTHING quite so typifies the spirit of Christmas as a bough of beautiful, glistening foliaged and scarlet-berried holly. Holly seems the quintessence of Yule and should, and generally does, occupy the place of honor in Christmas decorations.

There are states where the holly isn't to be found in great abundance. In some sections of the South a limited supply must be made to serve the purpose. For profuse decorations other greens fashioned from sprays of Irish yew whose fan-like and lacy foliage is

ideal for this use; and, too, there are the beautiful, waxy leaves from the magnolia as well as cedar.

But the holly bough, of course, of all Christmas green is the loveliest and most popular, not only here but in other lands, and in France, in particular, as Brittany grows it in quantities. The holly is of slow growth and propagated by seed which do not germinate until the second year. We think of holly berries always as being red, but some kinds bear yellow fruit, some white, and some others black.

The holly has a commercial value that isn't generally known. Its even-grained and hard wood is

ivory white and is used for inlaying and as an ebony substitute for teapot handles and other articles, when stained. The leaves are used in medicine.—Frances Marshall Morgan.
