

BOARDMAN

MRS. A. T. HBBREIM, Correspondent.

Hugo Koski, a former resident, is quite ill at his home near Marger, Oregon, with typhoid fever. His sister, Mrs. O. B. Olson and Ivy came home this week from a visit at the Koski home.

W. H. Metford went to Hermiston Sunday for a few days treatment at the hospital. He had a long siege of flu. Balleagers will move into their own home this week, recently vacated by the Broomes. Miss Kankonen and Miss Leathers will make their home with them for the balance of the school year.

Wm. Gorgor came up from his home at Mt. Angel for a ten-day visit with his children, visiting part of the time at the L. C. Cooney home and at the Leo Gorgor home on the wheat ranch. While here all had a light attack of flu. Mr. Gorgor formerly owned the ranch where the Cooneys live.

Mrs. W. O. King and children were luncheon guests and spent the afternoon at the C. S. Calkins home Monday.

Cooneys were greatly frightened last week when Mary Maxene, their little daughter, had three convulsions in a few hours, two of them being quite severe. She had not had a cold but was running a temperature. Friends will be glad to know that she has entirely recovered.

CARD OF THANKS.

To our many friends and neighbors who so kindly assisted in every way during the illness and death of our beloved wife and mother, and for the many sincere expressions of sympathy and the many beautiful floral offerings, we offer the deepest gratitude of our hearts.
Marion Evans and family.

WOOL SELLS LOWER.

Three-fourths of a million pounds of Idaho wool, the remainder of the First National Bank of Boise, Idaho, accumulation, was sold at auction and private sale at Portland on January 25. These wools had been previously offered at a sale held in December but were withdrawn at that time because satisfactory bids were not offered.

Fourteen growers were interested in the wools and prices received were from 30c to 33 1/2c per pound f. o. b. Portland. The lots were largely cross bred wools, the quarter blood shrinking about 50 per cent, the three-eighths blood about 64 per cent and the half blood about 60 per cent. The clean price basis ranged from around 63c for the clips running mainly quarter blood to about 97c for the fine wool. On the whole, values received were about 10 per cent less than prices paid for the portion of the pool sold in December.

Expenses for freight, storage, insurance and interest already paid by the growers amount to about 5c per pound, leaving prices net to the growers at from 25c to 30c per pound. These, while not entirely satisfactory to the growers, are pretty well in line with prices actually being paid in Boston and indicate the general downward trend of the wool market during most of the season.

Eastern mills are opening their lines of heavy-weight cloth at about 8 per cent below prices of a year ago and it is hoped that these openings of fall lines of clothing will permit mills to take up the fine wools still remaining on the market.

P. T. A. TO HOLD MEETING.

The regular meeting of the Patron-Teacher association will be at the high school auditorium on Tuesday afternoon next, February 28th, at the usual hour. A feature of the program will be put on by the 7th grade pupils and there will be also other numbers of interest. A large attendance of the membership and friends and patrons of the school is desired.

NINETEEN HUNDRED YEARS AGO
Jesus walked from his home in Nazareth to the place where John was baptizing in the river Jordan and there despite the fact that John would have hindered him he went down into the water and was baptized. As He came up out of the water the Holy Spirit descended upon him in the form of a dove, and the voice of God from Heaven said, "This is my beloved Son in whom I am well pleased."
We will celebrate the nineteen hundredth anniversary of this event at the Church of Christ at the morning hour of worship and an appropriate message will be delivered.
At the evening hour the "Auto Series" will be continued with this

theme, "Keep to the Right."
A friendly welcome for all.
MILTON W. BOWER, Minister.

RESOLUTIONS OF RESPECT.

In memory of Brother M. S. Maxwell, who died January 25, 1927. Once again death has summoned a Brother Odd Fellow and the Golden Gateway to the Eternal City has opened to welcome him to his home. He has completed his work in the ministering to the wants of the afflicted, in shedding light into darkened souls and in bringing joy into the places of misery, and as his reward has received the plaudit, "well done" from the Supreme Master.

And whereas, the all-wise and merciful Master of the Universe has called our beloved and respected brother home, and he having been a true and faithful member of our beloved Order, therefore be it

Resolved, That Lone Balm Lodge, No. 82, I. O. O. F. of Hardman, Oregon, in testimony of her loss, Draps its Charter in mourning for thirty days and that we tender to the family of our deceased Brother our sincere condolence in their deep affliction and that a copy of these resolutions be sent to the family.

DOINGS OF WEEK AT LEGISLATURE

(Continued from First Page)

of the fact that they are the most heavily taxed as a class of any industry in Oregon. It is also pointed out that a tax of his sort will tend to dis-

courage development of hydro-electric power, because present development of machinery for use of steam in generating electricity has reached such a state of perfection that plants frequently can be operated more economically than can hydro-electric plants. Opposition to the Schulmerich measure is openly expressed.

Subjects Pressing for Consideration.

Telephone investigations, in prospect, fishery problems, irrigation revisions and adjustments, educational building requirements, salary fixing, expanding hospitals, prison and hospital extension, with the crowding needs of expanding fiscal activities, all these and more combine to puzzle the legislative mind and all must be ironed out in three weeks to avoid administrative perplexities in the coming biennium.

Starting with a predicted volume of three hundred bills, nearly double that number are in sight as the fourth week of the session begins. This week will see more and longer sessions as committee reports are returned and voting on measures gets into the fore-front in both houses. But biggest of all is the finance problem, with all its varied phases and effects on industrial, agricultural, commercial and educational interests.

Under the Dome at Salem.

Restoration of the appropriation for light on predatory animals under the biological survey was made after protest from livestock men of all parts of the state, particularly Eastern Oregon. In the state library fund, which was cut very heavily, there is continued demand from rural districts for like action by the ways and means committee to restore at least half the increase asked in the budget. If this is not done, no new volumes can be sent to outlying subscribers and present service will have to be curtailed.

The legislature started with intention to decrease the number of laws, but apparently will wind up by adding more than previous sessions to the code.

Junior colleges will not be made a part of Oregon's state educational system, because the house knocked out the bill to that effect during the first round in committee.

Let those who think a lawmaker does not need a stenographer get a glance at the mail that lands on the desk of his senator or representative

requiring reply and there will be room for doubt.

An old stamp tax never enforced has just been repealed, just as some bright minds are considering a new act to raise more revenues for state expenses.

Individual school districts may withdraw from union high districts according to Hamilton's H. B. 348, if not in county of location of school building, not so situated as to leave another school district isolated from school, and not relieving themselves from bonded indebtedness.

State treasurer, with approval of state officers, boards, departments or commissions, may transfer from any but O. A. C., U. of O. and industrial accident special funds to general fund in case of emergency, as incorporated in S. B. 135, by Hare.

Delegation from Coos, Clackamas, Douglas, Jackson and Klamath counties introduced H. B. 357 authorizing creation of county health officers, appointed by county judge and commissioners and approved by state board of health. To receive satte aid.

Motion picture censorship act, by Paulson, provides a board of three commissioners, annual salary, \$3500, appointed by governor, with advice and consent of senate. Term six years, one out every two years. Power to pass on all motion pictures for Oregon public or private amusement, with attached fee of \$1 for permit. 50c each additional copy of film.

Buchanan's H. B. 343 changes delinquent tax penalty from 1% to 5-6% of 1%, funds to be retained by county instead of going to taxing district.

House Joint Memorial by Snell, Tom and Senator Mann, urges Congress to enact legislation along lines of McNary-Haugen bill.

Permission for cities to levy \$3,500 annually for publicity, at petition of 25% legal voters and authorization at special or regular election, is asked for by Norblad in S. B. 123. Funds for county publicity provided for by Gordon and Bailey in H. B. 278. Special tax not to exceed 4-10 mill on assessed valuation property, with power of county court to raise amount to \$5,000 from general fund.

Rep. Briggs has a bill creating \$13,000 appropriation for high school supervisor to be appointed by state superintendent of Public Instruction. February 12 and October 12 proposed as legal holidays by Judiciary committee in S. B. 130.

H. B. 325, by Settlemer, permits parents of children of school age residing within the district to vote without property qualifications in school elections raising revenues.
